**1/2 YEAR 2015**

**PERFORMANCE REPORT**

*Presented by Corps Commander Clement  
Oladele, Head, Planning Advisory Unit*

# INTRODUCTION

The year 2015 is pivotal in FRSC as the Corps looks forward to meeting the Accra Declaration of 2007 as well as assessing our readiness for implementing the United Nations Decade of Action for Road Safety 2011-2020.

This presentation provides insight to how the Corps has performed in the last 6 months and importantly, the level of improvements or otherwise, the Second Quarter (Q2, 2015) has been over the first Quarter, 2015.

Also, a retrospect of road traffic crash trends from mid-year 2012 till June 2015 has been incorporated for better evaluation.

Half Year Monthly trend of Number of Persons Injured (2014 and 2015)

The Corps recorded increases in March and June 2015 over the figures of 2014. this can be attributed to the series of tanker/trailer cases in June and the election panics that earlier greeted the nation.

2015: Q1-Q2: CUMULATIVE TOTAL RTC	4,602	55.4% OF EXPECTED VALUE ATTAINED
2015: Q1-Q2: CUMULATIVE TOTAL FATALITY	2,523	60.2% OF EXPECTED VALUE ATTAINED

## MID-YEAR EVALUATION OF THE 2015 GOAL

# Observations

In every month of the year 2015, and every quarter spent, Speed and Speed related crashes have been identified as the most probable cause of road fatality so far. Dangerous Driving and Loss of Control have contributed to most crashes.

There are positive improvements on all parameters of road traffic crashes ( RTCs, Fatalities) in 2015 over 2014 as well as in Q2 over Q1, 2015.

The trend of law enforcements has been almost stagnant and barely undulating especially after the *General Elections* in March, 2015

Approximately 7.7 million people and 1.2 million vehicles travelled per month in Nigeria as observed from January to June, 2015. However, 3,921,201 vehicles transited Nigerian roads in February, 2015 thus becoming the highest recorded figure so far. This, without ambiguity is connected with the general election anxiety that lingered for a while.

The Corps is on track towards meeting its 2015 Goals with respect to RTC and Fatality as 15.1% and 12.4% reductions in Fatality and RTC respectively have been achieved over 2014 records.

States in the North Central region of the country including the FCT , Oyo and Ogun have prominently featured on States in the country with highest RTCs, Fatal cases, Number of persons killed and injured thus requiring special intervention patrols

The Corps' to focus, prioritize and mobilize resources towards organizing at least three(3) intervention Patrols in the metropolis and major highways leading into and out of the identified States prominently featured with higher crash index.

The Corps as a matter of imperative, re-energize its zeal as it was in the beginning of the year to achieve the 2015 goal as well as meet the mandate of Accra declaration 2007.

The implementation of the Speed Limiter Installation policy should be given maximum attention to curb and curtail speed related crashes nationwide

The Corps to speedy implement the Safe-To Load programme for Hydrocarbon products conveyance by tankers to forestall the incidences recorded in recent times.

The Corps' operations activity to be more funded for improved law enforcement nationwide as road audit and research is recommended to unravel new blackspots and proffer necessary advice.
