TIPS ON LANE DISCIPLINE

While it may seem like an inconvenience, the fact is that you have to share the road with others, including taxies, buses and other motorist.

Running late for work or a certain schedule and having being held in a traffic gridlocks during rush hours, it is common to see most road users putting up impatience by exhibiting reckless attitude such as lane swerving, over speeding, tailgating moving bumper to bumper and other forms of dangerous driving leading to fatal crashes.

To make your journey smoother and safer consider few tips on lane discipline.

1. Be considerate and show a caring attitude towards other motorist.
2. Keep your position always at the center of your lane and avoid hanging to the left or right of your lane.
3. On the high ways with multiple lanes, keep to the right and allow faster vehicles to use the lane left to you.
4. It is safer to overtake by the left side.
5. Use your indicator before any lane changes, check properly around you and make sure you can change safely.
6. Position yourself in the correct lane early and avoid unnecessary changes.
7. At intersection always align yourself at the position of intended direction so as to avoid cutting across and in front of other traffic participants.
8. When lane merges in dense traffic, the zip-lock system is to be applied, meaning left vehicles goes, then the right ones, then the left ones and so on.
9. Always avoid u-turn at non designated points.
10. Avoid falling prey to common distractions like use of phones, rubbernecking when passing crash scene or road blocks, adjusting radio set, looking for dropped items etc.

Safe drive...
