

To All Staff

REVISION OF THE QUALITY MANUAL

The Quality Manual has been revised in line with the new ISO 9001:2015 standard and circulated appropriately via e-mail to all Departments and Field Commands.

2. In order to enhance the accessibility, the Corps Marshal has directed its publication also on the website.
3. To access, click "Publications". It is the 1st item under "statutes books". Management has taken this model to reduce cost associated with printing and to ensure the portability of the document in the electronic version.
4. Similarly, the Quality policy is conspicuously displayed on the front page of the website.
5. You are enjoined to familiarize yourself with the updated website of the Corps, which serves as good reference.
6. Thank you.
