FURTHER STUDIES WITHOUT APPROVAL

The above subject refers.

2. Management has observed with concern the rate at which staff acquire additional qualification without recourse to FRSC Education Policy which directs that staff must obtain Approval from Management before proceeding on any educational programme. This is a flagrant disregard to extant policy and a deliberate attempt to undermine Corps standards.
3. In light of the above, Commanding Officers are mandated to properly guide staff under their purview on the appropriate procedures of acquiring additional qualification in line with FRSC Education Policy.
4. Any further infractions on the FRSC Education policy shall attract appropriate sanctions.
5. Treat as imperative, please.
