IN-ADEQUACY OF PRIMARY HEALTH FACILITY TO SERVE AS APPROVED HEALTH CARE PROVIDER FOR STAFF: DIRECTIVE TO CHANGE AND UPGRADE TO A SECONDARY OR TERTIARY HEALTH FACILITY

It has come to the knowledge of Management that some staff have suffered health complications due to inadequate medical evaluation and treatment.

2. In order to stem the tide of health complications amongst staff and death, Management has directed all staff whose healthcare providers are in the Primary healthcare status to change and upgrade to General Hospital, Federal Medical Centre or Teaching Hospital whichever is nearest.

3. To ensure holistic compliance, ZCOs are hereby directed to collate the names of all staff and their healthcare providers (NHIS) in all the Commands under their purview and send to the Corps Marshal attention CMRO. The office/contact address of all healthcare providers and phone numbers must be included in the information of every staff reported on. Staff should know that even if their dependents (Spouse and four children) are not resident where they are serving, their dependents can still have NHIS cover wherever they are.

4. This directive **MUST** be complied with on or before 30th Nov, 2020.

5. Commanding Officers are enjoined to ensure that all staff **MUST** enroll with NHIS.

6. Thank you.
