## Federal Road Safety Corps (Establishment) Act, 2007 Act No. 22- The Mandate

#### **Vision and Mission Statements**

## **FRSC Cardinal Aspirations**

	Transforming FRSC into a World Class Organisation through:
	Sustenance of ISO 9001:2015 Quality Management System (QMS) Certification. Sustenance of the implementation of Performance Management System (PMS)
	Sustenance of the implementation of the objectives of Nigeria Road Safety Strategy(NRSS:2021
	-2030): Achieving a nation where road traffic crash results in Zero death.
	Promotion of Ease of Doing Business
	Sustenance of ICT for real-time and on-time service delivery.
	Safety Charter: UN Convention on road Traffic
	1957 Agreement concerning the International Carriage of Dangerous Goods by Road (ADR)
	1958 Agreement concerning the Adoption of Harmonised Technical United Nations Regulations
	for Wheeled Vehicles, Equipment and Parts and the Conditions for Reciprocal Recognition of
	Approval Granted. 1968 Convention on Road Traffic
	1968 Convention on Road Signs and Signals
	1997 Agreement concerning the Adoption of Uniform Condition for Periodical Technical
	Inspection of Wheeled Vehicles 1998 Agreement concerning the Establishment of Global Technical Regulations for Wheeled
	Vehicles, Equipment and Parts.
	2016 African Road Safety Charter
	Strengthen pre-hospital and post-crash care services.  Maintain sustainable and accurate national database on Road Traffic Crashes.
	the following Goals: Goal 2: Zero Hunger
	By ensuring ease of movement of farm produces across the nation's road network to the Markets.  Goal 3: Good Health and Well-Being
	By improving response time to Road Traffic Crash scenes and all other traffic distresses
	Goal 4: Quality Education
	By upgrading the FRSC Training Institutions: FRSC Academy to a Centre of Excellence in Road Safety Management in Africa.
	Training School to a Diploma Awarding Institution
	Goal 8: Decent Work and Economic Growth
	By creating employment opportunities for Nigerians and sustaining the implementation of:
	Road Transport Safety Standardisation Scheme (RTSSS) Driving School Standardisation Programme (DSSP)
	Goal 11: Sustainable Cities and Communities
	By improving road traffic administration and safety management through elimination of all
	human activities conflicting with the road or traffic.  Goal 13: Climate Action
	By encouraging efficient technical inspections of vehicles
	By ensuring improved enforcement on carbon monoxide emission.
	Goal 16: Peace, Justice and Strong Institutions  By upholding the principle of Rule of Law in all operations
	Goal 17: Partnership for the Goals
	By implementing UN Conventions accented to by Nigeria.
	By strengthening Nigeria Road Safety Partnership (NRSP), GPA-PRI, including UN road safety facilities/ platforms.
	racinics platforms.

## **Quality Policy**

#### **Core Values**

## **Vision Zero**

### **Corps Marshal's Remarks**

Nigeria's road transport safety has improved tremendously in recent years due to the efforts of the government in road infrastructure investments and developments. Government's commitment and implementation of the National Integrated Infrastructure Master Plan (NIIMP) has enhanced the safety of all modes of transportation in the country, particularly the road mode which is predominantly utilized for the movement of goods and services as well as door to door transactions.

These infrastructural strides have reflected in the road traffic safety outlook in the country in comparison with rapid urbanization changes such as rapid human population growth and motorization. The forecast and projected levels of road traffic crash reduction targets by the Corps for the country were designed to align with the United Nations Decade of Action for Road Safety (2021-2030) and other global Road Safety frameworks.

The expectation was to occasion a reversal of Road Traffic Crash trends in the country based on tested scientific methodologies. The practice paid off with amazing outcomes spurred by innovative practice on enforcement, road user education and enlightenment, as well as partnerships.

The Corps recorded much successes in its implementation and enforcement focus despite the spill-over effects of COVID in the previous year. Several strategic steps were taken to implement safe systems approach in all sectors of road safety interventions including heightened partnership and stakeholder engagements

in the country and off-shore.

Regardless of some prevailing challenges to the Corps', some milestone achievements of monumental dimension were registered. These include: the formal inauguration of the National Traffic Radio (NTR); Field Operations Monitoring and Control Centre (FOMCC); laying of sustainable ground works to the establishment of States Road Safety Advisory Council (SaRSAC) on Nigeria Road Safety Strategy (NRSS); conduct of a World Bank comprehensive study on Single Organizational Model of FRSC to assist the Corps on enhancing road safety management in the country; the establishment of FRSC Command and Staff College to coordinate planned and progressive career development programme for the Officer Cadre; signing of MOU between FRSC and Federal University of Technology Owerri (FUTO) on the running of PGD and M.Sc by FRSC Academy; inauguration of Marshal Inspectorate Training School, Owa-Alero, Delta State; the migration of the National Drivers Licence, (NDL) and Driving School

Standardisation Programmes (DSSP) portals from 1.0 to 2.0 version for enhanced content, security and productivity; delivery and injection of procured operational vehicles, motorbikes and tow trucks into the existing fleet of the Corps; establishment of RMA Training School in Shendam, Plateau State, etc.

It suffices to state that government policies on strengthening internal security was enhanced by the Corps through upgrades of facilities and systems linked to graduated drivers licencing programmes with relevant stakeholders, as well as in-service competence and capacity building programmes for the Corps 26,000-plus manpower.

Despite these laudable feats, the Corps recognizes the year as the first step in the Sustainable Development Goals decade and acknowledges that there is more to be done to fully entrench the Safe Systems Approach in Nigeria for better road safety outcomes in the years ahead.

Dr. Boboye Oyeyemi, MFR, mni, NPoM, FCIPM, FCILT

Corps Marshal

## **Administrative Structure**

#### **FRSC Structure**

#### **Federal Road Safety Commission** (Establishment), Act 2007

The Federal Road Safety Commission (FRSC) is a body corporate with perpetual succession and a common seal, and may sue and be sued in its corporate name and whose members shall exercise the functions specified in this Act (Federal Road Safety Commission Establishment Act, 2007).

FRSC was established as a paramilitary organization via decree 45 of 1988 as amended by decree 35 of 1992 (FRSC Act Cap 141, Laws of the Federation of Nigeria 1990, repealed by the Federal Road Safety Commission (Establishment) Act, 2007. The Commission is placed under the Presidency and the Office of the Secretary to the Government of the Federation (OSGF), who exercises supervisory authority over the FRSC.

#### The Federal Road Safety Commission

The Commission is a body statutorily responsible for the formulation of policies, and appointment of suitable persons, subject under the FRSC (Establishment) Act 2007.

#### The National Headquarters Address

The FRSC National Headquarters is located at No. 4, Maputo Street, Wuse District, **Zone 3. Abuja.** The National Headquarters is the highest administrative level of the Corps.

#### **Composition of the Commission**

The Commission consists of a Chairman and six other persons to be appointed by the President on part-time basis and is empowered to make regulations generally for the carrying out of the objectives of FRSC (Establishment), Act 2007 and in particular may make regulations relating to administrative running of the Corps. The Commission consists of a seven man Committee as presented below:

i. Mallam Bukhari Bello, MFR, mni, F.DRI -Chairman ii Dr.BO Oyeyemi, MFR, mni, NPoM -Member

iii. Capt. Babatunde Adedimeji - Member iv. Hon. Chibuzor Obiakor - Member v. Amb. Saidu Mohammed, - Member vi. Bashorun D. Oyewole - Member vii. Alh. Abdullahi S. Sifawa - Member

#### Federal Road Safety Corps

The Federal Road Safety Corps (FRSC) is the apex Agency in Road Safety and Traffic Administration in Nigeria. The Corps is the operational arm of the Commission and is headed by Dr. Boboye Oyeyemi. The Corps executes and enforces the policies as may be given by the Commission.

#### National Headquarters Structure

The National Headquarters consists of eight (8) Departments, thirteen (13) Corps Offices and six (6) Special Units where strategic, tactical and operational decisions are made. The FRSC Management meets every Tuesday for effective administration and the management reviews. The weekly Management meeting is to monitor, evaluate and take vital decisions for implementation.

#### **Zonal Commands**

The Zonal Command is the connection point between the National Headquarters and the field operations. It is the highest of the Field Command policy execution structure. The Zone is the Field Command Headquarters where planning, orders and directives of the National Headquarters are transmitted to the Sectors, Corridors, Unit and Outpost Commands as well as the Station Offices. The Zonal Command comprises of two or more States under its supervision. It is saddled with Operational Orders, administrative matters, disciplinary cases and other issues relating to general administration. Currently, the Corps has twelve (12) Zonal Commands.

#### **Sector Commands**

The Sector Command is the fourth level of command and control in FRSC and they execute the operational activities of the Corps. The State Sector Command is the operational theatre of the Corps, where deployment of personnel and operational activities are executed. This is a level where Orders and Directives from the National Headquarters through the Zonal Command are implemented. It is the highest core operational level.

The following are the duties of the Sector Commands:-

Conduct Public Enlightenment
Carry out traffic law enforcement
patrols,
Administer First Aid and Rescue
Services.
Remove obstruction from the
highways.
Conduct Road Safety research
activities.
Conduct Accident investigation and
Road Safety Audit.

Presently, there are thirty seven (37) Sector Commands, including FCT.

#### **Corridor Commands**

FRSC created Seven Corridor Commands for effective operational activities. The Corridor Commands are to monitor and identify highways that are classified as critical as a result of high rate of road traffic crashes. The responsibilities of these seven (7) Corridor Commands include monitoring of all the routes, assessing and taking proactive actions on traffic situations in collaboration with Commands along the corridors.

#### **The Unit Commands**

The Unit Command is the fifth level of the operational structure. It receives Orders and Directives from the Sector Command. It performs the same functions and responsibilities with the Sector Command as enumerated above. There are 222 Unit

Commands across the nation.

#### **Outposts**

FRSC envisioned a Nigeria where road traffic crashes result in no death. This is supported with the creation of outposts to bring FRSC operations to community level where the highways actually exist. Currently, there are fifty three Outposts nationwide.

#### **Station Offices**

The establishment of Station Offices nationwide was borne out of the great need for FRSC to improve on its RTC data collection and management of public aspirations and expectation on the Corps performance as well as feedback mechanism.

The FRSC established Station Offices and deployed personnel to all the Local Government Areas, particularly those Local Governments without FRSC presence, towards enhancing the Corps visibility, public information dissemination as well as gathering vital intelligence.

Presently, there are five hundred and seventy (570) Station Offices across the country, with the exception of the Local Government Areas in the riverine areas.

#### **Training Institutions**

Besides the above structures, FRSC has other facilities including the following:

- FRSC Command and Staff College (FCSC)
- **FRSC** Academy
- Marshal Inspectorate Training
- Road Marshal Assistant Training School

#### Other Facilities

- Print Farm
- \* Number Plate Plants
- \* **Drivers' Licence Workstations**
- Staff Clinics
- Emergency Ambulance Service

Schei	ne	(EASS),	also	known	as
Zebra					
	Fle	ex Housing (	Coopera	ative	
	Me	ega Coopera	tive		
	Mi	cro-Finance	Bank		
	Po	st Service Sc	heme (	PSS).	

#### **Command and Staff College**

The FRSC Command and Staff College is envisioned to be the pride of Africa when the institution is fully developed. The College is presently temporarily at Udi Enugu State, before it is located to its permanent site in Ibadan, Oyo State. The School is set-up to provide specialized training for FRSC Officers and personnel of other paramilitary services. The School has commenced its academic activities with the deployment of directing staff to the institution. In 2021, there were twenty (20) Chief Route Commanders trained at the institution. The School is headed by an officer of the rank of an Assistant Corps Marshal.

#### **Academy**

The Academy is located in Udi, Enugu State. The institution is a citadel of excellence, established to provide manpower development for the FRSC personnel and other stakeholders. The Academy is to become a degree awarding institution and an African Regional Centre of Excellence for Road Safety Management Studies.

#### **Print Farm**

The Corps operates a single Print Farm in Nigeria. This is to control production and eliminate parallel production of driver's licence. The facility was established in 2012 and is located in Abuja in a serene environment. The idea to centralize the facility was borne out of the desire to stop proliferation of the National Drivers' License, checkmate double entry and other vices that may occur. The facility houses the biometric of all drivers in Nigeria and is synchronized with the National Identity Management Commission (NIMC) database. The Office is headed by an officer of the rank of Corps Commander (CC).

#### **Signage Plant**

The FRSC Signage Plant is located in Gwagwalada Abuja, the first of its type in Sub-Sahara Africa, responsible for the production of World class signage for government and private organizations. The signage plant is self funding and provides necessary road furniture support for Federal, States, local governments and private individuals.

## Year 2021 Maiden Parade Address

### Corps Marshal Year 2021 Maiden Parade Address

Officers on parade

It is the institutional custom for the Corps Marshal to address the parade of personnel at the conclusion of the yearly Operation Zero Tolerance. The parade is organised to appraise the activities of the FRSC in the past year and focus on the New Year. The 2021 parade was held at the FRSC National Headquarters, Abuja on 18 January, 2021 with all Officers and Marshals at the National Headquarters in attendance.

The Corps Marshal informed the assembly that the year 2021 Operation Zero Tolerance was a huge success and appreciated all for their contributions. He added that the government and people of Nigeria are pleased with the efforts of the Corps as there was significant reduction in number of deaths and fatality during the yuletide. He commended the contributions of other stakeholders, particularly other security agencies who worked with the Corps in making the exercise a success.

He reminded those who are due for promotion, that the 2021 promotion exercise will start early to avert delay experienced during the 2020 promotion exercise affected by the global outbreak of COVID -19. He advised staff to be alive to their duties as the promotion exercise will focus on the routine duties performed by Staff. He added that staff should try and make use of available Library service as the management has enough stock of journals and relevant books as references.

He urged staff to engage in self development so as to

be ahead in contemporary global road safety practice. He particularly called the attention of staff to the focus of the management in minimizing the risk of deaths in RTCs by 15% and fatality by 20%. He disclosed that the 2020 Corporate Strategic Goals was inconclusive as a result of the global pandemic, hence the need to roll it over to 2021 as the major operational focus for the year.

The Corps Marshal reiterated that the Management will continue to invest more on personnel capacity development programmes that will enhance the performance of staff most especially the operational and tactical level officers who serve as the eye of the FRSC in their daily activities. He frowned at personnel who are neck deep in extortions and warned that management will not hesitate to use all available disciplinary measures to show them the way out.

The Corps Marshal reassured staff that Management is unyielding in its resolve to improve staff welfare and enjoined all to key into the existing programmes so as to derive maximum gains from them. He particularly emphasised that staff should increase their contribution in the Post Service Scheme (PSS) programme as it remains the only sure buffer for personnel after retirement. He admonished that the individual savings should be stepped up accordingly to assist in retirement.

While appreciating all members of staff for the feats recorded in the Year 2020, he urged that they should not rest on their oars in achieving the 2021 FRSC Corporate Strategic Goals.

# **Performance Review**

#### **2021 Corporate Strategic Goals**

In an unprecedented move since the commencement of the Annual Strategic Goals, the Corps found it necessary to roll over its 2020 Corporate Strategic Goals to 2021.

This move was aimed at accomplishing set targets that could not be achieved due to the restrictions of the COVID-19 pandemic era.

The 2021 goals were reset to minimize the risk of deaths, improve personnel capacity and competence.

Additionally, it was set to broaden stakeholders engagement, reposition the Corps processes and sustain safety programmes.

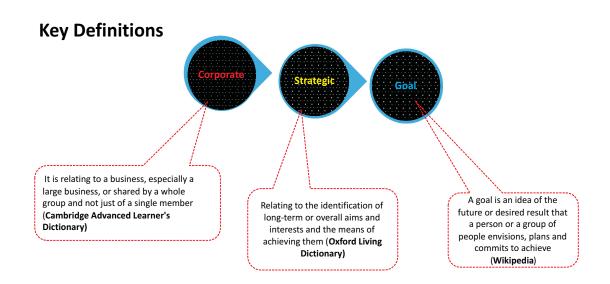

Organizational goals are set for specific reasons

- To provide guidance and direction
- To promote team work and focus
- To promote motivation and inspire morale
- To monitor and evaluate performance
- For decision making

# **The 2021 Corporate Goal**

The 2021 Corporate Strategic Goals was rolled-over from year 2020 as a result of the curtailment of the Corps activities and programmes due to covid-19 pandemic.

At the end of the year 2021, a high proportion of the Corps activities were accomplished. Need to sustain this performance from departments/Corps offices for 2022.

## **CHALLENGES ...... 1/2**

Concerted efforts by Departments and Corps Offices were enormous. However, meeting the established goals were hampered by the following challenges:

Improper alignment of initiatives/activities with the strategic goals.

key performance indicators do not directly translate to greater impact on RTC and fatality reduction. (*Traffic infractions apprehended did not really reflect on the reduction of the causative factors of RTC*).

Some of the Corps activities and

Some Activities do not directly impact on the Goals

## CHALLENGES ...... 2/2

- Activities of some critical offices are not captured for direct assessment/evaluation as contained on the evaluation criteria format.
- Impact assessment of some of the activities earmarked for achieving the strategic goals are not conducted.
- ➤ Templates developed for M&E need to be modified for effective assessment of Field Commands' performance against stated strategic initiatives.
  - ➤ Paucity of funds to conduct some of the critical initiatives

## RECOMMENDATIONS ...... 1/3

Furtherance to sustaining the Corporate Strategic Goal Concept of the Corps and in the context of prevailing global and national realities, the following are recommended:

- Field Commands should focus on offences that can help reduce RTC fatalities in their jurisdiction.
- ➤ PAU/PIO should meet with Department/Corps Offices to ensure their initiatives align with the Corporate Strategic Goals in order to achieve RTC fatality reduction.

## RECOMMENDATIONS ...... 2/3

- PAU to engage Departments/Corps Offices to ensure their initiatives/KPIs are captured in the evaluation criteria template.
- Departments and Corps Offices should carry out selfassessment of their strategic initiatives prior to the Corporate Assessment.
- M&E (Ops) / CPIO / PAU should review the templates developed for monitoring the performance of activities in the Field Commands and also interface virtually with the COs during their Corps Operators' meetings.

# RECOMMENDATIONS ....... 3/3

- ➤ PAU is to develop the Corporate Strategic Goals in line with global road safety plan 2021 -2030
- The Corps should activate the involvement of her partners in sponsoring programmes and initiatives with focused target.
- The Corps should consider a sustainable initiative at maintaining its presence at identified black spots in the country to prevent fatal crashes.
- ➤The Corps should intensify advocacy visit and public enlightenment at various parks that engage in night journeys to reduce the high number of RTC fatalities at night. FRSC message should target key behavioural factors

# FRSC Administrative Personnel Strength

#### **FRSC Administration**

The administration of the Corps is premised on cutting edge approach for the management of personnel matters. With the introduction of System Application Programme (SAP), the FRSC is able to manage the deployment, recruitment and general administration of staff activities across the country.

## **FRSC Personnel Strength**

In 2021, the Federal Road Safety Corps workforce was boosted with additional staff through a well publicized recruitment exercise in the national dailies. The exercise was to improve the services of the Corps. The selection process was evolved to target well informed, resourceful and qualified Officers and Marshals from across the country.

#### **Current Manpower Strength**

The total number of the FRSC workforce, inclusive of Special Marshals and Road Safety Club members, is 62,767, spread across all formations of the Corps.

#### The Regular Marshals

The Regular Marshals are the uniformed and remunerated arm of the Corps. Presently, there are 24,167 Regular Marshals in the Corps, consisting of 8,022 Officers and 16,145 Marshals across the country.

#### The Special Marshals

The Special Marshals are the volunteer arm of the FRSC who are not remunerated for the work they do. The are notable members of the society who volunteered to render free services to the nation. They have powers to enforce traffic laws. There are 20,768 Special Marshals across the country.

## **The Road Safety Clubs**

This is the third arm of the Corps. Members of the Club comprise of pupils in primary and secondary schools, as well as University and Polytechnic graduates undergoing the National Youth Service Corps (NYSC) programme, who have chosen Road Safety as the Community Development Service (CDS) project. Presently, there are 17,832 Road Safety Club members in the country.

#### **Promotion**

The mantra of this administration is built on Consultation, Reward, and Punishment (CRP). This is to build a well motivated personnel and strong system. Promotion of personnel is among the reward mantras to motivate deserving staff who distinguished themselves through hard work, resilience and dedication to duty.

The 2021 exercise was conducted among the rank and file, with a two week academic refresher course at the FRSC Academy Udi, Enugu State and the two (2) Training Schools.

The exercise took the qualified personnel through the following:

APER rating
Physical Exercise
Computer based examination
Oral Interview and
Seniority.

A total of seven hundred and eighty two (782) Officers and two thousand four hundred and forty five (2,445) Marshals were successful during the promotion

exercise.

The promotion exercise produced

- Four (4) Deputy Corps Marshals (DCM)
- Fifteen (15) Assistant Corps
  Marshals (ACM)
- ☐ Thirty one (31) Corps Commanders (CC)
- Sixty two (62) Deputy Corps Commanders (DCC)
- ☐ Forty four (44) Assistant Corps Commanders (ACC)
- ☐ Fifty (50) Chief Route Commanders (CRC)
- One hundred and twenty eight (128) Superintendent Route Commanders (SRC)
- Two hundred and sixty six (266)
  Route Commanders (RC)
- One hundred and eighty two (182)
  Deputy Route Commanders
  (DRC).

The breakdown of promoted staff is listed on the following page

DCM VC Nwokolo, fdc, being decorated with his new rank

## **Retirement/Resignation**

The undermentioned is the list of FRSC personnel who retired at the attainment of the mandatory retirement age or length of

service.

The list also includes the number of personnel who voluntary resigned.

# **Operations Matters**

## **Nigeria Road Development**

Nigeria is a federation which lies in the West African region with estimated population of over 200 million. Abuja is the capital city of the nation, with thirty six (36) States and Federal Capital Territory (FCT). Nigeria is considered to be the 32nd largest country in the World which is about the size of Venezuela and one of the largest in Africa with three major ethnic groups. Nigeria returned to democratic rule in 1999 after military rule.

There are three major ethnic groups namely the Yorubas, Igbos and Hausas. Rivers Benue and Niger are two main rivers in Nigeria which meet at a confluence in Lokoja, Kogi State. The maritime sector is still evolving as a result of policy of different governments. The aviation sector is well developed and competes with other developing nations in Africa with so much significance.

The land transportation in Nigeria is considered the most developed mode of transportation. The huge government investment in rail transportation combined with insecurity has made many Nigerians to embrace the use of rail as alternative mode of transportation in movement to major cities.

Due to ubiquitous nature of land transport for everyone, roads development has become a cash cow with huge government investment since 1914 when there was less than 3,600 kilometres of paved roads.

It is estimated that Nigeria has about 204,000 Kilometers road network, with vehicle population of 12.5 million. With a view to make roads accessible to commuters countrywide, the Federal Government is responsible for 34,680 Kilometers, representing 17 percent, while the State governments own 32,640 Kilometers, representing 16 percent, with the Local governments responsible for 136,680 kilometers, representing 67 percent and the largest.

As the world is in search of new technology, the policy to ban the use of the Internal Combustion Engine vehicle (ICE) is still at infancy in Nigeria, unlike most developed countries where 2030 is projected to extinct ICU automobiles. However, with obsession of few elite for automobile, Nigerian roads have been dotted with electric vehicles with no policy provision for the new technology.

Based on the Corps' initiatives, well informed personnel and manpower development, the Corps has excelled as a high performing World class entity enhancing safety and traffic management in Nigeria since its creation in 1988. In 2021, the Corps operational activities covered a total of eight million, forty three thousand and two kilometres (8,043,002KM) of the three categories of the road network (see page 97 for details).

#### **FRSC Field Command Structure**

FRSC organizational structure has twelve Zonal Commands across the country. They are structured to serve as the connection between the National Headquarters and the field offices.

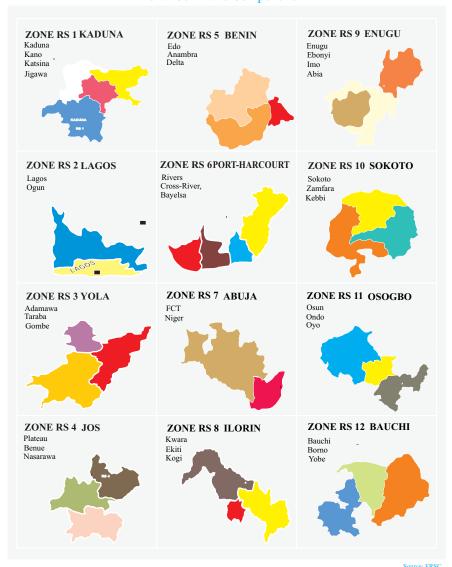

The Zonal Command is the highest field Command policy execution structure, next in hierarchy to the National Headquarters.

Each Zone comprises of two, or more

States Sector Commands where operational orders, administrative matters, discipline and other issues relating to general administration are handled.

The Zonal Commanding Officer (ZCO) is the administrative head of a Zone with the rank of Assistant Corps Marshal (ACM).

#### **Zonal Command Components**

.... Promoting Better Road Culture

Training of Road Safety Personnel

#### **Emergency Management Service**

Emergency response is an effort to mitigate the impact of an accident/incident on the public and the environment. A large or complex incident will require the cooperation of several agencies. FRSC emergency response process has been demonstrated severally through participation in several national emergency assignments including road traffic crashes, plane crashes, building collapse, insurgency, among others. FRSC emergency response is deployed through the following:

S
unity Post Crash
CPCCI)
ited Help Areas
ine direct to the
2
bulance Service
also known as

Activation of the National

Emergency Response through 112.

#### **Engineering**

Road safety engineering involves the use of technology to prevent road traffic crashes and mitigate crash impacts on road users and the environment through regular conduct of Road Safety Audit (RSA), while advising the appropriate authorities on areas requiring intervention. It also involves design, production and installation of Road Signs to bridge observed gaps in the provision of highway signs and signals using Information and Communication Technology (ICT) infrastructure.

The ICT infrastructure deployed by the Corps include Toll Free emergency number (122), Close User Group (CUG) phone lines, Social Media Platform and eticketing Device for prompt reportage of crashes. Besides, the Corps developed a robust driver's license and number plate verification portal for identity management and to check security breaches.

The Corps performs invest tion into RTC where more than three lives are involved, known as (3d threshold). Below is the summary of the FRSC engineering strategies:

Driver's Licence Production
/verification Portal
National Vehicle Identification
Scheme (NVIS)
Signage Standardization and
Production
Road Safety Engineering
Road Safety Audit
Road Traffic Crash Investigation
FRSC e-ticketing Platform.
FRSC Call Centre.
Offenders/Offences Platform.
Driving School Standardization
Programme (DSSP) Platform.

#### **Engagement of Stakeholders**

FRSC takes pride in engaging Stakeholders in all its activities to ensure everybody's participation in all FRSC programmes. This would give Nigerians and foreign partners a sense of ownership in drawing home road safety ideals. This engagement is also necessary to enable dissemination of global road safety programmes and encourage an all embracing participation.

#### **Evaluation**

Road safety programmes are evaluated through the combination of the 6Es which could be applicable to enhance a particular road safety jurisdiction. The FRSC successfully deployed these strategies during the year 2021 evaluation programme through the internal mechanism of Monitoring and Evaluation (M&E).

#### **Environment**

The Corps undertakes Road Safety Audits (RSA) at all levels of government during pre and post road designs and construction phases to identify safety gaps and make necessary recommendations

## **Operations**

#### **Operations**

The operational arm of FRSC is unarguably the heartbeat of the Corps, where the statutory mandate of Federal Road Safety Commission (FRSC) is coordinated. The mandate that established the Federal Road Safety Corps clearly designates the Corps as Nigeria's lead agency for road safety management and traffic administration. Its enabling law empowers it to discharge functions relating generally to-

☐ Making the highway safe for motorists and other road users:

Recommending works and devices designed to eliminate or minimize accidents on the highways and advising Federal and State Governments including the Federal Capital Territory Administration and relevant governmental agencies on localities where such works and devices are required and,

☐ Educating motorists and members of the public on the importance of discipline on the highway.

In line with the above, the Corps activities is aimed at meeting the operational demands of the country with new strategies using **cutting-edge** technology to mitigate road traffic crashes across the country.

To reinforce the mandate, in 2021 the Corps expanded the operational base by establishing additional Unit Commands and Outposts to increase the visibility. This is beside the acquisition of more operational vehicles to ensure effective coverage of the nation's total road network and improve patrol presence at every 50 kilometres of the nation's highways.

The existing Station Offices created in 2020 in 760 Local Government Areas of the country have been mobilized with necessary logistics and deployment of staff to ensure their smooth take-off in intelligence gathering, data collections and other sundry national duties as required.

To strengthen the FRSC operations with additional assistance and to monitor the efficiency of patrol Officers, the Corps introduced body cameras on its personnel and established Operations Monitoring Control Centre, (OMCC) at RSHQ. Still in its pilot scheme stage, this initiative is aimed at embracing ethical imperatives of eliminating misconducts both on the part of operatives and motorists.

It may be recalled that FRSC recorded the highest cases of assaults on its personnel in 2019. The introduction of this cutting edge technology is aimed at minimizing infringement on traffic laws and regulations and change the mindset of drivers due to perceived weak enforcement and likelihood of escaping arrest by motorists.

The body camera and OMCC will assist to curb incessant molestation and improve road safety management generally with better personnel disposition to curb misbehavior amongst the motorists. The introduction of the platform would be a check and balance as operators are monitored from the National Headquarter's control room. The platform will be introduced in phases, with a target period of three years for all patrol teams nationwide.

The phase one of the platform is centered on the FCT, Abuja, with similar programmes to be deployed to Lagos and other parts of the country within the shortest possible time. This will stop or curb to barest minimum the indecent behaviours of officers and conduct of the drivers nationwide.

## **Command Expansion**

The evolving peculiarity of Nigerian roads necessitated the move by the Corps to constantly evolve new strategies in patrol activities towards the prevention of wanton loss of lives and property. In order to sustain the gains of successive years, the Corps at the Corporate Strategic Session resolved to expand its operational base by creating new Unit Commands and Station Offices to enhance visibility of the Corps.

This is to cover the challenges of mitigating road traffic crashes in the country and ensure safety discipline amongst drivers.

In 2021, there were three (3) additional Unit and 5 Outpost Commands established in the country.

The affected Unit and Outpost Commands that were newly established in 2021 are listed below:

Table 7: Unit Commands Established in 2021

S/No	Code	Unit Command	Date
1.	RS 2.112	Dangote Unit Command	July, 2021

5.	RS 8.22A	Obadore Outpost Command	Dec. 2021

Source: FRSC

## **Zonal Commands' Reports**

The Zone is the highest of the field Command structures and third level of Command administration in FRSC, with the mandate to supervise patrol activities and administrative duties of the Sector, Unit, and Outpost Commands.

In 2021, the introduction of the Station Offices in 570 Local government Areas of Nigeria advanced FRSC activities to the nooks and crannies of the country with the exclusion of the riverine communities where there is no road access.

With twelve Zones (12), thirty seven (37) Sector commands including the FCT, two hundred and twenty two (222) Unit, and fifty three (53) Outpost Commands in FRSC, the Corps is poised to discharge its statutory mandate to cover all the highways and mitigate road traffic crashes as well as prevent injuries.

The Corps has an Emergency Ambulance Service Scheme (EASS) with fifty-one (51) first aid points otherwise known as ZEBRA to carry out first aid services; twenty-nine (29) Road Side Clinics which serve road traffic crash victims and provide medical services to the host communities where these facilities are located, and additional twenty-five (25) Medical Centres and Staff clinics, all these helping to enhance FRSC's rescue efforts.

Beside the auxiliary responsibilities of first aid to road traffic victims, the host communities of the Road Side Clinics enjoy primary health services as part of Corporate Social Responsibilities of the Corps. This has transmuted to the new status of Road Safety Clinic (RSC) to give National Health Insurance Scheme (NHIS) services to the hosts and enjoy support from the Federal Ministry of Health as primary health providers where Federal Government presence is limited.

In 2021, most Zones witnessed unprecedented changes in their leaderships. Some ZCOs were redeployed, promoted and some retired on attainment of sixty years or thirty five years in service. Amongst the affected senior Officers

was ACM PO Osadebamwen,mni who was redeployed on assumption of duty from National Institute of Policy and Strategic Studies (NIPPS) to National Headquarters, Operations Department and subsequently to Zone RS3HQ Yola as the Zonal Commanding Officer, to replace retired DCM AE Zamber, on the latter's elevation to the rank of Deputy Corps Marshal in 2021, when he proceeded on retirement.

Also affected was ACM A Abe who was promoted and redeployed as ZCO RS11 HQ Osogbo to replace DCM GO Ogagaoghene, mni who proceeded on mandatory retirement after his promotion to the rank of Deputy Corps Marshal in 2021. The ZCO RS4HQ Jos, ACM KY Olagunju, mni was moved to head the FRSC Academy, Udi Enugu State, replacing ACM CO Oladele who was reassigned to RS8HQ Ilorin and later selected to participate at the Course 30 (2021/2022) of the National Defence College, Abuja.

ACM KA Agomoh, mni, the then Zonal Commanding Officer RS6HQ Port Harcourt was redeployed to head Corps Project Implementation Office (CPIO), replacing CC AA Irelewuyi who was reassigned as the Sector Commander RS3.1 Yola and later RS 5.3 Anambra State. ACM CB Nkwonta, fdc was redeployed to RS6HQ after the completion of his course at the Army War College, Abuja and promotion. ACM AA Omiyale, ZCO RS5HQ proceeded on retirement on the attainment of sixty years and was replaced by ACM AA Kumapayi who was elevated to the rank of Assistant Corps Marshal. Similarly ACM MR Yerima, fdc replaced ACM MA Hussain as the Zonal Commanding Officer RS10HQ Sokoto during the period under review.

Also affected is the former ZCO RS1HQ ACM AB Datsama, fsi who was reassigned as ACM/Head, Special Duties and External Relations Department at the National Headquarters, Abuja and was replaced by ACM GO Omiko who was elevated to the rank of Assistant Corps Marshal in 2020.

## Zone RS 1, Kaduna

#### **COMPONENT SECTOR COMMANDS:**

RS 1.1 Kaduna

RS 1.2 Kano

RS 1.3 Katsina

RS 1.4 Jigawa

#### **KEYEVENTS**

#### RS1HQ Kaduna

As part of the command's efforts to partner with the mainstream media for effective dissemination of information, the Federal Radio Corporation of Nigeria (FRCN), Kaduna Network Center interviewed the Zonal Commanding Officer on Strategies adopted to achieve less crashes before, during and after the end of year festivities on 27th October, 2021. FRCN Kaduna Network Center also interviewed the Zonal Commanding Officer on 14th December, 2021. The focus of the interview was on the Operation Zero Tolerance Special Patrol.

#### RS1.1 Kaduna

The Sector Commander RS1.1 Kaduna, CC HT Mohammed was at the coronation of the new Emir of Zaria Alhaji Ahmed Nuhu Bamalli which took place on 6th May, 2021. The Sector Commander also paid a condolence visit to Air Officer Commanding Air Training Command AVM J A Yusuf fdc over the death of the COAS in Kaduna.

#### RS1.2 Kano

The Sector Commander RS1.2 Kano Sector Command, CC Zubairu Mato granted an interview to Sunna TV Correspondent on the Special Weekly Program titled; Gyara Kayanka on 8th October 2021, where he sensitized motoring Public on Functions of FRSC as a lead Agency in Transport Management in Nigeria.

The Sector Commander collaborated with NEMA to organize a sensitization visit.

ZCO ACM GO Omiko interviewed by a correspondent of FRCN Kaduna Network

The ZCO RS1HQ and the SC RS1.1 on a condolence visit to Air Officer Commanding Air Training Command AVM J A Yusuf fdc over the death of the COAS in Kaduna

The SC RS1.1 with the new emir of Zaria Alh. Ahmed Nuhu Bamalli

The aim of the partnership was to collaborate with relevant organizations for effective enlightenment.

#### RS1.3 Katsina

The Sector Commander RS1.3 Katsina, CC Ali S Tanimu went on media advocacy visits to the General Manager Federal Radio Corporation of Nigeria (FRCN) and Companion FM (104.5) Katsina. The purpose of the visit was to partner with media houses for enhanced outreach.

The Sector Commander RS1.2 with NEMA officials

The Sector Commander RS1.3 Katsina CC Ali S Tanimu's visit to the General Manager 104.5 FM Katsina.

# **Operations Monitoring And Control Platform**

Operations Monitoring and Control Centre (OMCC) is an Audio-visual network designed and installed to carry out real time monitoring of the interaction between patrol operatives and motoring public. The platform is powered by 3/4G GSM service through body worn cameras.

The objectives of this platform are as follows:

To enhance national security: All conducts, at least within the vicinity of the FRSC operatives will be viewed real time on camera and violators can easily be traced either through facial recognition or the vehicle Number Plate via the National Vehicle Identification Scheme.

To provide a veritable tool for research towards improvement in road safety management policy formulation and execution

To enhance operations strategic deployment and improve crisis management

To achieve realtime monitoring of patrol operatives on the road and improve on service delivery, while also enhancing response time to rescue and other critical needs on the road.

To provide a safety measure and evidence based interaction between the Corps and members of the public

To engender caution in the Corps operatives as well as on the part of the members of the public in dealing with each

## Free Vehicle Safety Checks

Arising from neglect and other factors contributing to the occurrences of road traffic crashes such as poor vehicle maintenance, overused tyres, mechanically deficient vehicles, amongst others, the FRSC initiated a policy to keep motorists abreast of the current state of their vehicles.

The initiative was one of the policies born out of passion to mitigate road traffic crash occurrences as a result of vehicle defects.

#### FINDINGS.

According to National Bureau of Statistics on Road Transport Data 2021, there are eleven million, seven hundred and sixty thousand, eight hundred and seventy one (11,760,871) vehicles in Nigeria.

Out of this number, FRSC conducted Free Vehicle Safety Checks on 142,174 vehicles in 2021 with 275,516 defects detected during the exercises.

Although there was an increase in the 3Q, it is further observed that the ratio of vehicles checked and defects detected still remain 1:2 for Q1, Q2, Q3 and Q4 in 2021 respectively.

#### **OBSERVATIONS**

- Comparatively, the exercise recorded a decrease of -21% vehicles checked and -23% defects detected as compared with 2019, as detailed in the table overleaf.
- b. Quarterly analysis showed that Q2 and Q4 recorded the lowest performance due to COVID 19 lock down and #ENDSARS# protest aftermath.
- Averagely, 477 vehicles were checked per Command while 7,546 vehicles were recorded per operations.
- Cars recorded the highest classification of vehicles checked with 43,956 representing 36% while Tankers were the least vehicles checked with 1,412 representing 1%.
- Out of 224,729 total defects detected, First Aid Box, Speed Limiting Device, Fire Extinguisher and Tyre recorded the highest defects with (26,723, 18,195, 14,673 and 14,298) which account for 12%, 8%, 7%, and 6%.

#### **Establishment of Station Offices**

FRSC Station Offices were established as a strategy to improve FRSC visibility and data collection nationwide. These offices are domiciled in the Local Government Areas across the country and they were created with a view to establishing FRSC presence where there are none in order to improve data collection and seamless sensitisation of the rural communities on road safety ideals using the local dialects.

The Office is the sixth (6th) in the hierarchy of the Corps' Command structure, as it is the lowest of the structures established purposely to achieve the Corps' goals and objectives.

A total of Seven Hundred and Sixty four (764) Station Offices were created across the country with a staff strength of One Thousand, One Hundred and Twenty Eight (1,128) staff made up of Officers and Marshals, constituting the pioneer staff to establish the new level of FRSC operations.

Presently a total of two hundred and fifty seven (257) Local Government Areas have provided Office accommodations for the Station Officers for operations.

In 2021, the Station Offices performed

various duties which included advocacy and others as stated below: Advocacy visits to Royal Fathers and major stakeholders, Motor-parks rallies, School sensitisation, Advocacy at Religious centres (Churches and Mosques), Traffic control within their places of jurisdiction Public enlightenment on both human and vehicular movement amongst others. Real-time data collection.

# **Corps' Kilometer Coverage**

Each year the Corps reviews and assesses the vehicle kilometre coverage of all its operations across the country to ascertain the Corps' performance and visibility with the aim of closing likely gaps and to justify public trust.

In year 2021, a total of eight million, forty three thousand, and two kilometres (8,043,002Kms) was covered by the FRSC operations vehicles.

The Corps recorded the highest coverage of 1,154,830 kilometres in the month of February, 2021, followed closely by March 2021 with 1,039,280 Kilometres. The month of September had the least kilometre coverage with 494,713 Kilometers, followed by October with 496,020 Kilometres.

Zone RS 4, Jos had the highest road coverage of one million four hundred and thirty nine thousand, eight hundred and

eighty eight kilometres covered in 2021. This is followed by RS9 Enugu with one million, two hundred and forty thousand, nine hundred and sixty five Kilometres in 2021.

Zone RS 1 Kaduna had a total of two hundred and seventy eight thousand, seven hundred and sixty-three Kilometres in 2021, representing the lowest road coverage of the FRSC in 2021. This may be attributed to insecurity snowballed into cattle rustling, kidnapping and banditry etc. in the region.

The detailed presentation of the kilometre coverage of the FRSC vehicles from January to December, 2021 is presented on the next page of the report

# **RSHQ Command Operations**

FRSC National Headquarters Command (HQ-OPS Command) is located within the premises of the National Headquarters, Abuja. The Command serves as the garrison Command for the RSHQ.

The Command's primary assignment is to respond to the chaotic traffic situation in FCT with the responsibility of ensuring sanity along the city corridors.

The Command enforces traffic rules and regulations along major routes, while ensuring prompt response to Road Traffic Crashes and clearing of obstructions, with focus on Umaru Musa Shehu Yar'adua and Kubwa Expressways as well as Keffi-Abuja corridor.

The Command further ensures a 24/7 surveillance on FCT major roads and quick response to distress calls.

These mandates are as listed below:

- a. Presidential traffic control
- b. Visibility through enforcement
- c. Rescue Operations
- d. Clearing of obstructions
- e. National assignments

Some of the laudable achievements of the Command within the year under review include;

- a. Seamless Presidential movement along designated routes through ensuring free traffic flow.
- b. Traffic Rules and Regulations enforcement within FCT
- c. Rescue Operations

**Operation Cobra** 

FRSC patrol team on enforcement in 2020

COBRA is a code name of special intervention patrol focused on motorists who commit life threatening offences in the FCT and its environs

Offences that are adjudged as life threatening include traffic light violation, use of phone while driving, route violation and driving without driver's license.

The COBRA team is a special task force team, specially trained to detect such offences with a view to stopping and booking such traffic offenders. This has drastically reversed the

committance of these offences leading to sanity within the FCT and environs.

The team operates with fast moving patrol vehicles backed with power-bikes.

In 2021, the team covered the nooks and crannies of FCT such as the city centre, Airport road, Kubwa road and other environs. The outcome of their activities for the year 2021 is as shown below:

COBRA Outpost Patrol Activities From January To December 2021

# **Total War on Critical Offences (TOWCO)**

Operatives on enforcement

In line with the FRSC Strategic Goals of ensuring reduction of Road Traffic Crashes on Nigeria roads, Operations Department strategised its enforcement with focus on critical offences that are prone to crash. These critical offences include: Overloading (OVL), Speed Limit Violation (SLV), Use of Phone While Driving (UPD), Driving with worn our Tyres or Without Spare Tyres (TYY), Driving Without Seatbelt (SUV), Riding Motorcycle Without Crash Helmet (RMH), Driving Without and with Shattered Windscreen (VWV), and Dangerous Driving (DGD).

Operation TOWCO was instituted in 2017 to address the prevalence of critical offences on Nigeria roads. The Department drew up 2021 plan with focus on critical offences in order to achieve the Corps'

strategic goal, while report was prepared for management's attention.

The analysis of 2021 TOWCO enforcement showed that 95,219 offenders were apprehended with 105,761 offences including 62,671 critical offences. However CRITICAL offences account for 59% while other offences represent 41%.

The schedule covered Febuary to November, sequel to Operation Zero Tolerance which spans between December and January.

#### Aim/objective

The aim/objective of the exercise is to clamp down on critical offences that cause crashes on the roads with a view to minimizing the risk of death in Road Traffic Crashes.

Table 21:Breakdown of Critical offences recorded in 2021

# **Operation Zero Tolerance**

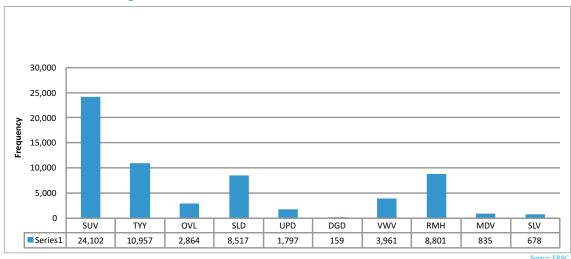

Figure 14: Critical offences booked from Feb to Nov 2021

A total of 62,671 critical offences were booked by Field Commands while SUV, TYY, RMH and SLD accounted for most prevalent offences with 24,102, 10,957, 8,801 and 8,517 respectively.

#### **FINDINGS**

- a. Total number of offenders apprehended was 95,219
- b. Total offences was 105,761
- c. Total number of Enforcement Commands was 253
- d. Average booking per Command was 376 for 304 days (Feb-Nov) representing 1.2 bookings
- e. The measure of deviation from productivity showed a patrol team with only one(1) booking approximately from Feb-Nov. 2021.
- f. Averagely, Zones Rs2, 7 and 11 made the highest booking of critical offences with 373, 316 and 303 respectively.
- g. Out of 11,760,871 total vehicles on Nigeria Roads, TOWCO enforcement accounted for 0.8%.

However, the awareness of road users about

TOWCO is measured at 1% approximately from the fraction of 0.8% of the entire vehicles population in Nigeria.

#### **OBSERVATIONS**

- a. Data showed that 95,219 offenders were apprehended for 105,761 offences including 62,671 critical offences.
- b. FRSC related with vehicles on Nigeria Roads at 0.8% from Feb to Nov 2021 via booking of erring offenders on critical offences violation.
- c. Monthly analysis revealed that the highest booking of critical offences was done in November with 7.056.
- d. Data analysis showed SUV as the highest critical offence booked, with 24,102, while DGD has the lowest booking with 159.
- e. Average measurement of deviation from productivity showed that a patrol team made only one(1) booking daily from Feb-Nov 2021.
- f. On the average, Zone RS1,RS3,RS4, RS8, RS9, RS10, and RS12 booked critical offences below Command average of 376.

# **Early Morning Safety Cry**

Early Morning Safety Cry is a weekly Public enlightenment programme designed to educate and enlighten drivers and their passengers at the early hours of the day on road safety matters.

This programme focuses on meeting drivers and passengers at the motor park before they embark on their journey. The enlightenment centres on critical offences that lead to RTCs on the road.

The data on the next page revealed that 31,791 motor parks were visited while 535,195 persons were educated during the period under review.

FRSC personnel on an early morning safety cry enlightenment campaign

### **Drivers Licence and Number Plate Enforcement**

FRSC patrol Officer on public enlightenment and advocacy programmes

The enforcement of driver licences and vehicle registration number plates is one of the routine exercises of the FRSC. The deployment of this strategy is to check validity of driver licences and competence of the bearers.

Special enforcement team is designated on routine basis to clear the highways of drivers lacking the qualities needed for effective driving and/or vehicles that are not duly registered.

In view of the need to prevent avoidable crashes, the FRSC operatives carried out special enforcement operations across the country in 2021 to checkmate the activities of unlicensed drivers and vehicles not duly registered.

At the end of the exercise, 25,708 Drivers' Licence Violations and 74,259 Number Plates Violations (NPV) were discovered across the country.

April 2021 recorded the highest booking of 4,001 Drivers' License Violation, while 8,842 Number Plates Violation cases were also detected, making it the highest in the year.

# **Implementation of Speed Limiting Device Installation**

Speed Limiting Device in a vehicle

There was nationwide sensitization of the implementation of speed limiting device installation in vehicles in Nigeria by Federal Road Safety Corps. Full enforcement commenced on 1st February, 2017 on commercial vehicles. Since then, available data on the weekly verification of speed limiting device portal has revealed that a total number of one hundred and forty-seven thousand, four hundred and twenty-nine (147,429) vehicles presently have been installed with the device.

Since inception, the technical committee has certified a total of eighty-seven (87) vendors currently in the country including some fleet operators like ABC Motors, Julius Berger Company, GOD IS GOOD, DANTATA, TETRALOG etc. for supply, installation, calibration and maintenance of speed limiting device in vehicles in Nigeria. The vendors were mandated to upload the detailed information of vehicles installed with this device to a special online portal (FRSC Speed limiting device portal) designated for the proper monitoring of the

implementation of this policy in Nigeria.

In collaboration with other offices in the Corps, Corps Safety Engineering Office has conducted a technical compliance assessment among some notable fleet operators in the Country in the year 2021. The Corps is relentless in its efforts to ensure that more fleet operators comply with this regulation.

The country has a total number of two thousand, three hundred and thirty-six (2,336) registered fleet operators with about one million three hundred and twelve (1,300,012) vehicles put together. The figure shows that 11.34% of fleet operators' vehicles are presently installed with speed limiting device while 88.66% of these vehicles have not.

The Corps has been making assiduous effort through periodic technical inspection to have all the fleet operators' vehicles in the Country installed with the device.

Operatives of the Corps on patrol duty

FRSC operatives are challenged daily by recalcitrant road users who are serial and habitual traffic offenders. This category of drivers are regarded as wanted traffic offenders who commit traffic infractions on daily basis.

The Corps as a civil organisation deploys subtle approaches to handle such issues with utmost decorum.

These wanted offenders are the ones who contravene traffic laws and are apprehended, booked and issued tickets and their documents are confiscated pending payment of fines for which they have been booked.

A total of Eighteen thousand, one hundred and twenty two (18,122) wanted offenders were recorded from January to December 2021.

RS 2.1 Lagos Sector Command recorded the highest number of wanted offenders followed by RS 5.2 Delta and RS 6.1 Rivers Sector Commands. RS1.2 Kano and RS4.1 Plateau Sector Commands recorded zero which indicates that there was no wanted offenders in these States.

On the next page are tabulated figures showing the number of wanted offenders on Zonal Command basis.

# **Safe-to-Load Programme**

A typical Tank Farm in Nigeria

Tank farm is an oil terminal for storage of oil, petroleum and petrochemical products. Nigeria has various tank farms across the country where petroleum products are transported to the nooks and crannies of the country.

To ensure the safety and haulage of these products across the country, the FRSC deploys personnel to tank farms across the country to ensure adherence to tank farms operating standards, drivers' standards and operators' standards. This is known as the Safe-To-Load programme.

The programme was instituted as a result of increasing road traffic crashes involving tankers and trucks across the country.

It also became imperative between transport operators and the government to address the causal factors of crashes from loading bay destinations.

- Use Vehicles loaded in 2021 were more by 12,252 when compared with 2020.
- ☐ The number of Tank Farms in the country where FRSC Desk Officers operate increased from 97 in 2020 to 104 in 2021.
- ☐ The volume of activities in the Tank Farms also increased from 101,229 in year 2020 to 111,976 in 2021 which represents 11% increment.
- ☐ There was 12% improvement in the number of drivers checked in the Tank Farms that had valid driver's license at the point they were checked.
- Trucks that met the minimum required safety standard increased from 96,972 in 2020 to 108,055 in 2021 which represents 12%

### **Election Duties**

FRSC is one of the strategic stakeholders in election duties in Nigeria. The Corps has participated successfully in various election duties in logistics delivery, certification of vehicles for elections and dispatch of personnel to polling booths, amongst others.

In 2021, the Independent National Electoral Commission (INEC) conducted the Anambra State Governorship Election on Saturday 06 Nov 2021.

The election was held across the 327 Wards of the Twenty One (21) Local Government Areas of the State among eighteen (18) political parties. The Inter-Agency Consultative Committee on Election Security (ICCES), the umbrella

coordinating body for security agencies ensured the security of the election process. There was heavy security presence comprising the armed forces, the police, FRSC and other Para-military agencies.

The exercise covered pre-election, election and post-election activities. The FRSC was joined with the personnel of the Police at the State Command situation room where seamless reports of events were reported on real-time basis. A total of 501 personnel were deployed alongside personnel of other agencies to Polling Units across the State, with twenty nine (29) vehicles including emergency vehicles (Ambulances) and Tow Trucks.

### **Operation Zero Tolerance**

A Crash Scene

In tandem with the strategic mandate of the Corps to ensure eradication of road traffic crashes and in alignment with the vision of the Nigeria Road Safety Strategy (NRSS II) as well as relevant targets of the Sustainable Development Goals, the Corps embarked on the 2021/22 Operation Zero Tolerance which commenced Corps-wide on 17 Dec, 2021 and terminated on 15 Jan, 2022.

The operation was characterized by massive deployment of personnel and logistics along critical corridors to engender free traffic flow and elimination of crashes while ensuring observation of COVID-19 Protocols.

The theme of the operation was "Maintain Safe Speed, Avoid Night Travels and Enjoy Quality Road Experience". The theme set the tone for the 2021 Ember Month Campaigns and 2021/22 Operation Zero Tolerance conducted nationwide.

The objectives of the special yuletide operation include;

Reduction in RTCs, fatalities and

injuries.

- Ensure compliance with COVID-19 Health Protection Regulations 2021.
- Prompt response to road crash victims.
- Removal of obstructions on the nation's highways.
- e. Ensure free flow of traffic on all critical corridors.
- Increase visibility of FRSC presence on the nation's highways.
- Engage in aggressive public education
- Provision of travel advisories. h

Executive Summary of RTC records from 17 Dec 2021 to 15 Jan, 2022 are as shown in Table 28, while table 29 shows the summary of comparative analysis of Operation Zero 2021 and 2020 and details of crashes that claimed at least three lives within the same period. Table 30 is an analysis of the crashes that claimed at least three lives on the basis of Zonal Commands within whose operational jurisdiction those crashes occurred

- A total of 600 crashes occurred during the 2021 Operation Zero exercise.
- Out of 600 crashes that occurred, 144 of them were fatal, while 300 and 156 were serious and minor respectively.
- Four Thousand Six Hundred and c. Forty Nine (4,649) people were involved in all the crashes. This number was made up of 2,848 male adults, 1,408 female adults and

393 children.

Three Hundred and Twenty Seven d. (327) of the people involved in the crashes were killed while 1,916 and 2,406 persons were injured and rescued without injury respectively.

- a. Total crashes recorded within the period under review decreased from 660 in 2020 to 600 in 2021. This decrease of 60 is 9% reduction using year 2020 as base year.
- b. Twenty one (21) of the six hundred (600) crashes were responsible for one hundred and forty one (141) of the deaths recorded (see Table 03). These fatal crashes occurred in nine zones (RS1, RS2, RS4, RS6, RS7, RS8, RS9, RS11, and RS12). Zones RS3, RS5 and RS10 did not record any crash that claimed up to three lives. (See table 04).
- c. Four of the twenty one crashes in this category occurred in Zone RS1, Kaduna and accounted for 32 of the 141 deaths. Zone RS11 recorded three (03) crashes in this category which accounted for thirty five (35) deaths.
- d. The crash that claimed the highest number of lives was recorded within the operational jurisdiction of RS11.13, Ipetu Ijesha on the 30 Dec, 2021 at about 1930hours in Erin Oke Bridge along Ipetu Ilesha road and claimed twenty (20) lives.
- e. Out of the twenty one (21) crashes that claimed at least three lives within the period under review, six (6) occurred between 1913 hours to 0400 hours and were responsible for the death of 48 people. This represents 34% of deaths in this category. The implication of this figure is that there is need for the Corps to sustain its enlightenment and advocacy on the dangers of night travels.
- f. Total number of people involved in all the crashes decreased by 3% as it reduced from 4,815 in 2020 to 4,649 in 2021.
- g. Three Hundred and Twenty Seven (327) people were killed through crashes in 2021 while in 2020, 443 people were killed within the same period. The number of people killed decreased by 116 representing 26% decrease. This can be attributed to the massive public enlightenment that preceded Operation Zero as well as huge

- mobilization of RSHQ Monitors to the field Commands.
- h. Number of people injured decreased from 2,099 in 2020 to 1,916 in 2021 indicating a reduction by 183.
- i. Number of people rescued without injury increased from 2,273 in 2020 to 2,406 in 2021.
- j. Out of the 600 crashes that occurred, 144 were fatal while 300 and 156 were serious and minor respectively.
- k. The highest number of crashes (34) was recorded on 26 Dec, 2021 followed by 01 Jan, 2022 when 29 crashes were reported nationwide.
- 1. Thirteen (13) fatal crashes were reported on 23 Dec, 2021 which was the highest per day in this category. It was followed by 11 fatal crashes on 26 and 29 Dec, 2021 reported on each of the two days.
- m. The highest number of lives (46) lost through crashes was on the last day of the Operation (15 Jan, 2022) while the second highest number of lives (44) lost was on 23 Dec, 2021.
- n. Though Zone RS8, Ilorin reported the highest number of crashes (81) compared to other Zones yet, Zone RS1, Kaduna had the highest number of fatal crashes (22) during the period under review.
- o. Zone RS11 Osogbo recorded the second highest number of crashes (72) as well as fatal ones (16).
- p. Zone RS10 Sokoto reported the lowest number of crashes (24) while Zones RS3, RS5 and RS6 had the least number of fatal crashes which was 6 each for the 30 day Operations.
- q. Enforcement greatly increased as both offenders and offences increased by 26% and 32% respectively when compared with 2020 Operation Zero exercise.
- r. A total of 20,847 traffic offenders were apprehended and booked for 24,214 offences during the Operations.

- s. Eleven Thousand and Sixty (11,060) of the offenders booked had their vehicles impounded while the remaining 9,787 were confiscations.
- t. Commands in Zone RS1, Kaduna booked the highest number of offenders (4,616) while Zones RS2, Lagos and RS7, Abuja came second and third in this category having booked 3,647 and 2,237 offenders respectively.
- u. Zone RS9, Enugu booked the lowest number of offenders (262).
- v. Zone RS1, Kaduna also booked the highest number of offences (5,075) with Zone RS2, Lagos also coming second with 3,823 offences. Zone RS7, Abuja came third in this category with 2,496 offences booked.
- w. On the average, 695 persons were booked daily for 807 traffic offences while Operation Zero lasted.

Further analysis showed that each day, 19 offenders were booked for 22 offences by each Sector per day

### **Probable Causes of RTCs**

The most probable causes of RTCs recorded were Speed Limit Violation (SLV); Dangerous Driving (DGD) which include Wrongful Overtaking; Driving against traffic (Route Violations); running against red lights (Light Sign Violations); Tyre Violations (TYY) among which include driving with worn out and expired tyres; and Overloading (OLV) with goods and passengers.

#### **Deployment**

Further analysis shows that on the average, 12 Officers and 40 Marshals were deployed daily in each state of the federation and the Federal Capital Territory within the period of the review.

### **Assault Cases**

Within the period under review, eleven

(11) assault cases were recorded. Nine of such cases were recorded on the last day of the Operations (15 Jan, 2022).

#### **Knock Down of Staff**

Three staff of the Corps were knocked down while on patrol during the Operations. ARC Fasipe Oluwaseyi Akinwumi and RMAI O Laguda of RS2.25, Sagamu Unit Command were knocked down at Interchange along Lagos – Ijebu expressway at about 1630 hours on 20 Dec, 2021. The third staff DCRMA A Abdullahi of RS8.13, Jebba Unit Command was also knocked down at Kpata junction along Jebba – Mokwa road while on patrol at about 0800 hours. Unfortunately, two of them, ARC Fasipe Akinwumi and DCRMA A Abdullahi, died as a result of the incident while RMAI O Laguda survived it.

### **Traffic Count Analysis**

Traffic count was conducted during the operation along eight (8) selected corridors using the Electronic Counting Methods (Metro Count Device MTExec V506). The corridors include; Abuja – Lokoja, Abuja – Keffi, Itu – P/Harcourt, Otukpa – Enugu, Bauchi – Gombe, Oyo – Ogbomoso, Kano – Zaria and Lagos – Ibadan. A total number of 416,925 vehicles were counted from the eight corridors from 29 Dec 2021 to 1st Jan 2022.

### **SWOT Analysis of 2021 Operation Zero**

The 2021 Operation Zero Tolerance to Road Traffic Crashes commenced from 17 Dec 2021 and ended on 15 Jan 2022. The operation was properly planned and executed with surgical precision which yielded the desired result. However, there were identified areas of strength, challenges, opportunities and threats which require mentioning and review to aid future operation.

### **SWOT** Analysis

In carrying out SWOT analysis of 2021 Operation Zero, the report will present the Corps areas of Strength, Weakness, Threats and Opportunities and proffer recommendations which if implemented will lead to a more robust and successful future Operations.

### The Corps' Strength

The Corps strength during the execution of the 2021 Operation Zero lies on the following;

- a. The Pre-Operation Zero activities set the pace for the success of the operation. Some of the activities carried out include;
- i. A robust Ember Month Campaign and flag off activities which held in some selected States simultaneously.
- ii. Courtesy visits to State Governments and various Stakeholders in preparation for the operation.
- b. The repairs and maintenance of patrol vehicles corps wide before the commencement of the Operation was helpful.
- c. The deployment of patrol vehicles from less traffic gridlock areas to areas with high traffic was timely and should be sustained.
- d. The deployment of body cameras to critical corridors which provided real time and first-hand information on traffic situation along the corridors.
- e. The early deployment and wider coverage of RSHQ monitors contributed to the success of the operation.
- f. The release of an Ambulance by the Management of Federal Polytechnic Nasarawa contributed immensely to rescue operations along the Nasarawa Lafia road.

### **Threats**

The Operation was not without threats, some of which include;

a. The frequent knockdown of staff by

motorists while on duty without any action taken against these motorists is quite worrisome and affected the operation.

- b. The rising cases of insecurity in the country affected deployment of staff along some critical corridors.
- c. Activities of armed bandits and kidnappers affected the operation. A kidnapped staff is yet to be released from captivity.
- d. Rising cases of assault on staff during patrol operations is quite worrisome and needs to be addressed.
- e. Inadequate funding poses serious threat to the success of the operation.

The 2021 Operation Zero Special Patrol was held amidst the Omicron variant of the COVID-19 pandemic and challenges of insecurity in the country. The strategies adopted during the operation led to reduction in RTCs compared to the 2020 Operation Zero Special Patrol.

### **Total Road Traffic Crashes recorded**

Traffic Crashes recorded decreased by 9%, while number involved, killed and injured decreased by 3%, 9% and 9% respectively. The total number rescued without injury slightly increased by 6%.

Furthermore, the reduction in critical parameters is in tandem with the Corps' effort towards actualization of Goal One of the 2021 Corporate Strategic Goals. It is hoped that Commands will leverage on the successes recorded and strive towards improving on them for the overall achievement of the Corps' strategic mandate. It is sad that two Staff were knocked down and lost their lives during the operation.

# 2021 Recruitment

### **2021 Recruitment Exercise**

The Federal Road Safety Corps is a Paramilitary organization and the Lead Agency in Road traffic administration and Safety Management in Nigeria. The 2021 recruitment exercise commenced at the instance of the approval of the President and Commander in Chief, Federal Republic of Nigeria to employ qualified candidates into the service.

This is to fill the existing vacant positions with qualified Nigerians and boost the manpower need of the Corps in order to meet the yearning of the public for better service delivery.

The recruitment process began in July, 2021 with the constitution of the committee for the exercise. Candidates were required to apply online to enable qualified young, vibrant, intelligent and technologically driven Nigerians enrol into the elite service.

The 2021 recruitment exercise was at no cost to the applicants. Applicants were required to use personal e-mail addresses for the applications. This gave the recruitment process the credibility it deserved across the country.

Candidates were able to receive feedback from the Corps through their personal email addresses.

The criteria for choosing eligible candidates were:

- Must be a Nigerian
  - Must be Computer literate.
  - Possession of valid National Driver's Licence is an added advantage for all cadres
- Must be medically fit and must produce a certificate of medical fitness from a government hospital.
- Must be single.
  - Applicants height must not be less than 1.7 metres for male and 1.64 metres for female.
- Male applicants must have a fully expanded chest measurement of not less than 0.87 metres.
- Applicants must be free from any form of financial embarrassment, be of good character and must not have been convicted of any criminal offence.

Participants at the Basic Course

- Applicants must not have tattoo on any part of their body.
- Medical challenge and any other physical deformity not mentioned, among others

At the end of the exercise, successful cadets were shortlisted through a competitive procedure and underwent a basic course at the FRSC Academy, Udi Enugu State, Marshal Inspector Training School, Owa Alero, Delta State, Marshal Training School, Rock Haven, Jos Plateau State while others were camped at the NYSC Orientation Camp, Kotangora, Niger State.

The details of the exercise is presented in table 31 below:

# **Corps Medical COVID-19 Updates**

## **Corps Medical Services**

**FRSC** Ambulances

FRSC is saddled with the responsibility of giving prompt attention and care to victims of accidents and providing roadside and mobile clinics for the treatment of accident victims free of charge, amongst other functions.

In order to achieve this aspect of its mandates, the Corps has established Medical Centres, Help Areas/RTC Clinics, Cottage Hospitals and Zebra points nationwide to provide prompt rescue services to victims of road traffic crashes and to maintain a robust RTC databank amongst others.

FRSC as one of the emergency management Agencies in the country has been actively contributing to the COVID-19 pandemic containment from 2020. The Corps health facilities nationwide are centres for test and vaccination of Nigerians most especially where the coverage of the Federal, State and Local government authorities were unable to reach.

To minimize loss of lives through crashes, the Corps is equipped with state of the art ambulances across the country for prompt rescue of crash victims to the nearest health facilities.

With twenty nine (29) Road Traffic Crash Clinics, fifty-three (53) ambulances under its Emergency Ambulance Service Scheme (EASS) Zebra points, and twenty five (25) Medical Centres and Staff Clinics across the country, the Corps has not reneged on its mandate of giving prompt attention and care to RTC victims.

In 2021, additional six (6) state-of-the-art ambulances were injected into the Corps health programmes to enable the service of the Corps reach the nooks and crannies of the country. With these facilities, the Corps reinforced its health programmes to reach communities where health services are unavailable across the country.

In addition to the health programmes of the Corps. FRSC was involved in a vast number of outreach programmes throughout the country. The idea was to support the disadvantaged members of communities by rendering medical services which hitherto eluded them. Churches and mosques were not exempted from these outreaches due to their strategic importance in reaching a much larger community.

The work of FRSC, though challenging, was rewarded with a series of boosts in the reporting year. This started with a couple of upgrades at the FRSC Medical Centre, Gwarimpa, the acquisition of a new dental chair, establishment of a Covid-19 screening and vaccination centre and installation of solar powered inverter. This ensured quality service delivery at all times.

The high point was the donation of a Primary Health Centre in Sohwa to the Corps by Wukari Local Government Chairman to improve access to Medi-Care in the community

Medical Outreach at Isele Uku on 21st March 2021

# Update on Corona Virus (COVID-19)- Omicron 2021

On COVID-19 programme, the position the FRSC occupies in the mitigation of the pandemic cannot be quantified through her diligent medical staff and state-of-the-art Ambulance fleet. This earned the Corps national accreditation on the programme. Presently, the Federal Ministry of Health has beckoned on the Corps to fill identified gaps to save lives of Nigerian citizens most especially where the Ministry was unable to cover.

Based on the collaborative efforts of the Corps, FRSC Medical Centre was also designated as COVID-19 vaccine centre. This enabled the staff and communities around to receive the vaccine without much encumbrances. The programme was made flexible as it was indeed vaccination at citizens' doorstep.

FRSC Medical Personnel, both physicians and laboratory scientists assisted NCDC to conduct mass testing throughout the Federation, including the screening of 192 deportees from London and over 1000 deportees from Saudi Arabia at Hajj Camp. FRSC frontliners did the contact tracing of a prominent king in Kogi State amongst other medical outreaches in 2021.

### **COVID-19 Vaccination For Staff**

The Corps Marshal, Dr. Boboye Oyeyemi flagged off COVID-19 vaccination for FRSC staff on 29 March, 2021 at the FRSC HQ, Abuja.

The Corps Marshal led the Top

Management team and staff to receive COVID-19 vaccination. As at December 2021, most of the staff have received their two (2) doses of the vaccine while some have received the booster shot.

FRSC personnel on outreach programme

Donation of Primary Health Centre Sohwa by Wukari Local Government Chairman to FRSC

In tandem with the adage that says "Health is wealth" the FRSC management places utmost priority in ensuring that not only road traffic crash victims are attended to in its medical services, but host communities also benefit extensively.

To boost this social responsibility, the Corps received a donation of a Primary Health Centre from Wukari Local Government in 2021. The health facility was donated to serve the road traffic crash victims and the host community.

The health facility comprises of male and female wards. The Chairman of the Local

Government Council, Hon. Adi Daniel during the donation assured the FRSC of unflinching support for the Corps programmes while he promised to provide necessary supportive equipment to the facility when operational.

In response, the FRSC Management commended the altruistic heart of the donor and promised to make full use of the facility.

The health centre has since become operational on the deployment of medical personnel to the centre.

# **Reports on Road Traffic Crashes**

- h. In terms of number of people injured, male adults had a high percentage, with 74.13%, while female adults stood at 20.82%.
- i. High percentage of vehicles involved in the crashes were Commercial vehicles which constituted 66.11%, while Private vehicles shared 33.06% of total vehicles involved in crashes. The remaining percentage was for Government and Diplomatic vehicles.
- j. 6,268 cars were involved in crashes in 2021, making it the category of vehicles with the highest incidence of crashes for that period. Motorcycles ranked second with a total number of 4,428, closely followed by minibus with 3,528. 2,670 trucks were recorded to have been involved in crashes in the year under review.
- k. The highest number of crashes were reported in Federal Capital Territory with a total of 1,221 and closely followed by Nasarawa State with 893. Least crashes

were reported in Bayelsa with only 48.

- 1. Speed violation was recorded as the main probable cause of most of the crashes that occurred in year 2021. It was responsible for 39% of the total crashes. Other factors responsible for the crashes were Sign Light Violation, Dangerous Driving and WOV which constituted 9.2%, 6.2% and 5.6% respectively.
- m. Lagos Ibadan expressway witnessed the highest number of crashes in year 2021. It recorded a total of 942 crashes which claimed 312 lives. Closely following was Abuja Lokoja road which had 511 crashes leading to the death of 144 victims. Abuja-Keffi, Kaduna–Zaria, Gombe-Biu, Abuja-Kaduna, Gbongan-Ibadan, Oyo-Ogbomoso roads also recorded high number of traffic crashes.

# **Reports on Road Traffic Crashes**

#### Introduction

Road Traffic Crash is one of the leading causes of deaths in Nigeria and other parts of the world. This report presents the trend and geographical spread in year 2021 across all the States and Federal Capital Territory in Nigeria. In order to reveal its impact on economy and social development, the data were classified into severity of the crashes, types and categories of vehicles involved, Victims' gender and other characteristics of the casualties.

### **Data Collection**

Data on road traffic crashes were collected from all Federal Road Safety Corps formations across the country using the Road Traffic Report Form and forwarded to the National Headquarters for collation and analysis. FRSC formations nationwide are the primary source of crash data through gathering of information at the crash scenes. The field Officers also collect crash data from the Nigeria Police force and

Hospitals within their jurisdiction. These data are submitted to RSHQ for collation, verification and processing to form a comprehensive crash data.

The table and figure on the next page showed the trend of the number of crashes and fatalities from year 2013 to 2021. It also revealed the percentage change using year 2013 as baseline.

In year 2021 there was 4% reduction in number of crashes and 51% reduction in number of fatalities using year 2013 as benchmark.

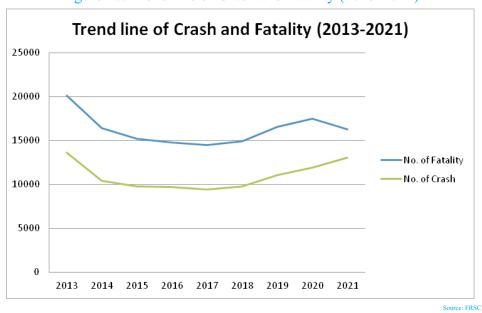

However, the rate of reduction in both number of crashes and number of fatality using year 2013 as baseline witnessed downward trend from year 2018 to year 2021.

Table 33: Percentage Change of Crashes and Fatalities (2013-2021)

Year	No. of Crashes	No. of Fatalities	% change in crashes	% change in fatalities

Figure 17: Trend line of Crash and Fatality (2013-2021)

### Monthly Analysis of RTC in 2021

Monthly analysis in the table below shows that the highest crashes were recorded in the month of December (1,355 cases) while January ranked second with a total of 1,215 crash cases. The month of December also recorded the highest number of fatalities with a total of 757 lives lost while 691

deaths were recorded in the month of January. A total of 4,256 people were injured in the month of December which was the highest figure in the year under review, while the month of January ranked second with a total of 3,869 people sustaining various degrees of injuries.

### Analysis of RTC on State basis in 2021

The year under review, 2021 witnessed an increase in the number of crashes across 22 States and FCT compared to the previous year (2020). A total of 13,025 crashes were recorded which led to 6,205 deaths and 38,073 persons sustaining various degrees of injuries. Out of the 36 States and FCT, only Eight (8) states recorded remarkable reduction in number of crashes and they are: Akwa Ibom, Benue, Kaduna, Katsina, Kebbi, Sokoto, Yobe and Zamfara states. On the other hand, 10 States and FCT recorded drop in number of fatalities

compared with year 2020 record.

Katsina, kebbi, Edo and FCT had a remarkable reduction in number of deaths. They recorded 47.00%, 19.42%, 14.13% and 8.47% reduction respectively against 2020 record of deaths.

States like Rivers, Ekiti, Akwa Ibom, Niger, Bayelsa and Plateau experience high percentage increase in number of deaths compared with year 2020.

Table 35: State Analysis of RTC across States and FCT

### **Analysis of RTC on Zonal Basis**

A total of 1,817 crashes were recorded in Zone RS2, comprising of Lagos and Ogun States. This number of crashes claimed 587 lives and left 3,562 people with various degrees of injuries.

Zone 7 which comprises of FCT and Niger State ranked second with a total of 1,772 cases which led to the death of 670 victims with 4,528 injured. Zone RS1 recorded the highest number of fatalities with a total of 1,250 and the least figure was recorded by Zone 6 with 194.

## RTC Analysis based on Gender Characteristics

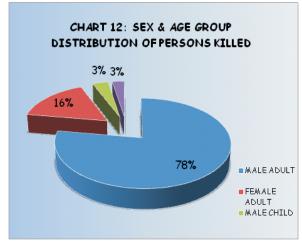

The gender analysis of persons killed revealed that 77.6% of persons killed in road traffic crashes were male adults (4,814) while 16.3% were female adults (1,014). This indicates that male adults are more vulnerable due to their involvement in

economic activities in the nation.

Male children recorded approximately 3.4% (213) of persons killed in road traffic crashes that occurred within the year under review while 2.6% (164) of female children were killed.

#### Probable causes of Road Traffic Crashes in 2021

The figure and table of probable causes give frequencies of causes of crashes recorded for the year 2021 which includes Speed Violation accounting for 39% of all the identified causes of crashes in the year under review.

Most of the identified causes of crashes reported were associated with speeding.

Table 50 & Figure 40: Causative Factors of Crashes in 2021

PROBABLE CAUSE	FREQUENCY	%
Speed Violation		
(SPV)	6336	38.8%

#### Analysis of Crash Severity Index (CSI)

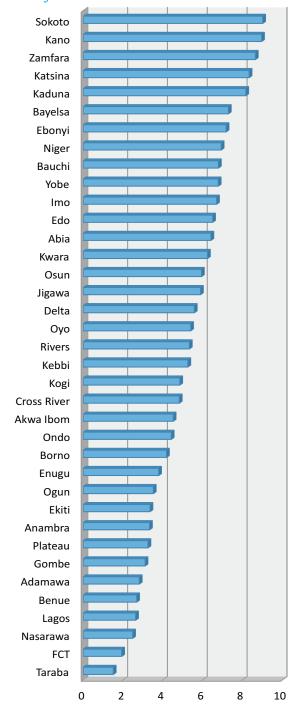

The Crash Severity Index (CSI) is calculated as number of deaths per 10 crashes in each state. Though Kano, Sokoto and Zamfara States recorded few crashes, but more lives were claimed with an

average of 9 deaths for every 10 crashes that occurred in the States for year 2021.

Meanwhile, Taraba, FCT and Nasarawa States had lower deaths of (2) each per 10 crashes.

Table 46 & Figure 36: Adults/Children Injured in RTC on State Basis in 2021

#### Vehicles Involved in Road Traffic Crashes

A total of 20,596 vehicles were involved in road traffic crashes in year 2021.

The record shows that 6,268 cars were involved, which was the highest figure in all types of vehicles involved in crashes.

Following closely is motorcycle, with a total of 4,428. In the category of articulated vehicles, trucks had the highest number with a total of 2,670 and 900 trailers that were involved in the crash.

With a total of 2,036 vehicles, Ogun State had

the highest number of vehicles involved in crashes in the year under review, with cars numbering 530, having the larger share, while mini-buses, motorcycles and trucks had 392, 254 and 593 respectively.

In the vehicle category analysis, 66.11% of crashed vehicles were commercial, while 36.06% were private vehicles and the remaining 0.82% were government and diplomatic vehicles.

#### Route Analysis based on RTC Occurrence in 2021

Analysis of RTC by routes in the year under review revealed that Lagos-Ibadan, Abuja-Lokoja and Abuja-Keffi were the top amongst routes with high prevalent RTC cases in the year 2021. Lagos-Ibadan with a length of 127.6km ranked top with 942 crashes, followed by Abuja-Lokoja road with a length of 205km and 511 crashes, while Abuja-Keffi recorded 300 crashes.

On fatalities basis by routes, Lagos-Ibadan recorded the highest fatalities with 312 deaths, while Kaduna-Abuja had 222 deaths, Kaduna-Zaria 154 deaths and

Abuja-Lokoja stood at 144 deaths.

Several people were injured as a result of RTC along several routes across the country, with Lagos-Ibadan recording the highest number of 2,031 persons injured, followed by Abuja-Lokoja with 1,485 injured and Kaduna-Abuja came third with 867 people injured.

Below are illustrations in tables and charts showing selected routes with high records of crashes, fatalities and injured persons.

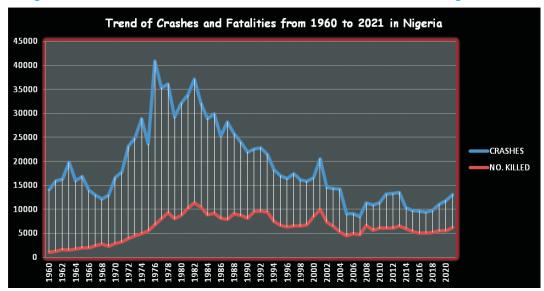

Figure 47: Trend of Road Traffic Crashes and Fatalities from 1960 to 2021 in Nigeria

#### **Findings**

- a. Year 2021 recorded increase in number of road traffic crashes at 13,027 as against 11,875 recorded in year 2020 representing 9.70%. The crashes led to the death of 6,205 persons, leaving 38,073 people with injuries in the year 2021.
- b. There was an increase of 11.32% in number of death recorded in year 2021 (6205) compared with year 2020 which witnessed 5574 deaths.
- c. There was also an increase in the number of persons injured as 38,073 was recorded in the year under review as against 33,311 in 2020, representing 14.30% increase.
- d. Bayelsa State recorded the highest percentage increase in road traffic crashes in year 2021 compared with the number recorded in year 2020, followed by Enugu. Both States recorded 220.00% and 117.56% increase respectively. Rivers, Ekiti, Nasarawa, Niger, Ogun, Ebonyi, Bauchi, and Gombe states recorded two-digit percentage increase in number of

crashes in year 2021 over 2020 record.

- e. The highest percentage decrease in number of crashes were reported in Katsina with 53.85% while Benue, Kebbi, Kano, Akwa Ibom, Zamfara, Sokoto, and Kaduna states also recorded appreciative reduction.
- f. An appreciable drop in number of fatalities were recorded in Katsina state with 47.00% reduction in number of death reported in year 2021 (115) as against 217 reported in year 2020. Kano, Kebbi, Zamfara, Yobe and Cross River states also had improved reduction in number of deaths recorded in year 2021 over 2020.
- g. The analysis revealed that 77.58% of persons killed in road traffic crashes in year 2021 were male adults while 16.34% were female adults. This means that many bread winners and economy driven men are being lost in road traffic crashes.

# **Fleet Operations**

#### **Fleet Operators**

Federal Road Safety Corps is saddled with the responsibility of overseeing all matters relating to the countrys' Fleet Operations under the Road Transport Safety Standardization Scheme (RTSSS). The Corps has been the driving force for the implementation of RTSSS activities nationwide as provided in the FRSC Establishment Act 2007, pursuant to section 198-202 of the National Road Traffic Regulations (NRTR) (2016) as amended.

The scheme was formally launched on 11/09/2007. The FRSC adopted an effective monitoring of Fleet Operators and the use of Safety Standards in achieving the goals of the scheme.

In 2021, the Corps earmarked one thousand, five hundred and sixty-eight (1568) fleet Operators for inspection and certification exercise. Out of this number, only seven hundred and eighty-six (786)

fleet operators participated in the certification exercise. In the light of the above, a total of six hundred and ninety (690) were certified between classes (A–C) while two hundred and eighty-five (285) obtained class F (Failed).

The under-listed were the major activities undertaken within the period under review;

- a. Inspection and Certification of Dangote Cement Transport fleet (Obajana/Ibese) and BUA cement transport Opella
- b. Inspection and Certification of Nigerian Bottling Company.
- c. FIRS Drivers' certification exercise
- d. Annual certification of registered fleet operators Nationwide
- e. 2021 annual Safety Managers' retreat

In another development, eighty four (84) fleet operators were registered and non deregistered during the reporting period. This is presented on table 59.

#### **2021 Safety Managers Annual Retreat**

The Safety Managers Retreat is an annual event organized by Federal Road Safety Corps as enshrined in the Road Transport Safety Standardization Scheme (RTSSS) Policy made pursuant to the National Road Traffic Regulations (NRTR) 2012 and 2016 (as amended). Being an annual event, preparations were almost concluded for its conduct in 2020 when the COVID-19 pandemic struck, which compelled the Corps to postpone the programme in compliance with Presidential directives for safety.

Due to the importance attached to the programme, the event was held on September 23, 2021 with the theme: "Assessment of Speed Limit Device Implementation in Nigeria: Prospects and Challenges". The retreat basically focused on addressing certain critical observations made by the Corps regarding fleet operations and implementation of the

RTSSS in the country so far.

The aim of the Annual Safety Managers Retreat was to appraise fleet operations for the previous years as well as to acquaint Safety Managers on contemporary developments regarding implementation of the Road Transport Safety Standardization Scheme (RTSSS).

The 2021 Safety Managers retreat was based on the following objectives:

- a. To create awareness on observed areas of deviation on implementation of the RTSSS among fleet operators.
- b. To appraise fleet operations for the year 2019 till date with a view to improving on identified areas of low performance
- c. To acquaint Safety Managers on contemporary developments regarding implementation of the Road Transport Safety Standardization Scheme (RTSSS)
- d. To educate Safety Managers on

The Executive Chairman Federal Competition & Consumer Protection Commission (FCCPC), the National Logistics Director BUA Cement Transport, the National Director Logistics Dangote Cement Transport, Chairman National Association of Speed Limiter Vendors (NASLON) and FRSC Management Staff

vital strategies towards curtailing crashes involving fleet operators in the country.

#### **Participation**

The Retreat was attended by Safety Managers of various fleet operator organizations/companies across the country, the Executive Vice-Chairman Federal Competition & Consumer Protection Commission (FCCPC), the

National Logistics Director BUA Cement Transport, the National Director Logistics Dangote Cement Transport, Chairman National Association of Speed Limiter Vendors (NASLON), Representative of the Corps Marshal, Senior Officers of the Corps and the Media.

#### Conduct of 2021 Fleet Operators Annual Inspection and Certification Programme

The Federal Road Safety Corps under the Road Transport Safety Standardization Scheme (RTSSS) is listed as a fleet operator.

The scheme being an intervention strategy of the Corps as the lead agency in road traffic management and safety administration in Nigeria aims at ensuring professionalism in road transportation especially fleet operations in line with the FRSC Establishment Act (2007) and the National Road Traffic Regulations 2012 and 2016 (as amended).

Since the launch of the scheme on 11th of September 2009, the Corps had on annual basis conducted inspection & certification of fleet operators to ensure compliance with the RTSSS specified minimum standards for vehicles, drivers and operators.

However, to serve as a model for the implementation of the RTSSS Policy, the CTSO introduced the inspection of FRSC as a fleet operator in the year 2016 and the exercise had recorded success. This is also in line with the Corps' status as an ISO-certified organization. Therefore, the FRSC Management deemed it necessary to conduct the 2021 inspection & certification of FRSC as a fleet.

The exercise was conducted by Transport Standardization Officers (TSOs) in various Commands Corps wide while staff of the CTSO conducted same for drivers and vehicles of Management staff and Senior Officers in RSHQ.

FRSC personnel conducting re-certification exercise on FRSC fleet

FRSC personnel recording observations during the re-certification exercise on FRSC fleet

### 2021 Grouping Of FRSC as A Fleet **Operator**

The Corps has over one hundred (100) vehicles in its fleet and therefore categorized as a Group 'A' fleet operator having done the following

Trained the Corps Safety Managers (CTSO)

- Certified FRSC vehicles b.
- Produced Drivers Handbook c.
- d. Upgraded drivers' restroom.

Table 62: Stakeholders' Participation and Roles in Fleet Management

S/NO.	STAKEHOLDER	STAKEHOLDER'S ROLE			
1	Nigerian Shippers' Council (NSC)	To promote the development of Truck			
		Transit Park (TTP) projects across the country on			
		a Public Private Partnership (PPP) arrangement			
2	Nigerian Port Authority (NPA)	Compulsory latching of containers-laden trucks			
		entering/leaving all Nigerian ports			
3	African Continental Free Trade	To create a single continental market for			
	Agreement Areas (AfCFTA) –	goods and services, with free movement of			
	NASME, NAFDAC, NIMASA,	business, persons and investments			
	NPA, NSC, NCS, FAAN, NBS,				
	NARTO, NPF, FMT etc.				
4	National Trade Facilitation	To reduce the complexity and cost of the trade			
	Committee (NTFC) – FMITI,	transaction process and ensure that all			
	NAFDAC, NIMASA, NPA, NSC,	concerned agencies are involved in the trade			
	FAAN, SON, NAQS, NEPC,	chain from exporter to importer, with			
	NACCIMA, NPF,FMA, NARTO,	emphasis on border crossing.			
	OPS etc.				
5	ECOWAS Trade Liberalization	To facilitate trade within its member

# **Crash Investigation**

#### **Crash Investigation**

Crash scene showing the damages sustained during the crash

One of the mandates of the Federal Road Safety Corps as enshrined in Section 10 sub-section 3(1) of the FRSC Establishment Act (2007) is "to conduct researches into causes of motor accidents and methods of preventing them and putting into use the result of such researches". The Corps has not reneged on its mandate to conduct researches, investigate crashes and carry out road audits on all the nation's roads.

The Corps adopted the global standard of conducting investigations into crashes that claim more than six lives (6dt). Besides, the Corps also ensures that routine road safety audit is carried out regularly as a means of ensuring that every road in the country meets up with safety standards.

The adoption of this approach enables the FRSC to establish the immediate and remote cause(s) of crashes with the aim to mitigate future occurrences and advise relevant authority in accordance with the statutory mandate of the Corps.

The Corps conducts routine road safety audit and crash investigation in line with global standard to prevent avoidable crashes. Regular Road Safety Audit (RSA) helps to systematically check road errors in a specialized way by FRSC trained personnel who carry out independent study to reveal designs and construction errors where available.

Road Safety Audit is intended to ensure that operational road safety experience is applied during the design and construction stages to ensure that the number and severity of collision is minimized. The sole objective of the process is to reduce future road crash occurrence and severity.

Road Safety Audit takes into account all road users, particularly vulnerable users such as pedestrians and pedal cyclists.

In 2021, the Corps carried out some crash investigations and road safety audit exercise, some of which are presented on the next page.

Table 63: Summary of some of the crash investigations carried out by FRSC in 2021

	Investigation Report	Date	Location	Number of lives lost
1.	Fatal Road Traffic Crash Involving A Toyota Hiace Bus With Registration Number CRC-64 XA	Sunday 3 <sup>rd</sup> Jan, 2021	Tsanni Village Along Katsina - Dutsinma Road, Katsina State	Eight (8) Lives
2.	Road Traffic Crash Investigation report involving Toyota Hiace bus belonging to Borno Express And A Volkswagen Golf Wagon	Sunday 10th Jan, 2021 At About 1050hours	Occurred Along Bauchi Maiduguri Road At Km 08 Opposite Shehu Wunti Estate Of Bauchi LGA, Bauchi State	
3.	Investigation Report Of A Multiple Road Traffic Crash Involving A Volkswagen Sharon Bus And A Toyota Sienna Bus	On 9 <sup>th</sup> January, 2021	Along Akwanga - Keffi Road At Agwadi, Akwanga LGA Nasarawa State.	Claimed Seventeen (17) Lives
4	Investigation Report Of A Fatal Road Traffic Crash Involving An Iveco Truck With Registration Number Jhn-86 XA	Wednesday 23 <sup>rd</sup> December, 2020	At Km100 Olam Feed Company Along Kaduna -Abuja Expressway	Claimed Ten (10) Lives
5	Investigation Report Of A Fatal Road Traffic Crash Involving Toyota Corolla, Peugeot 307 And Tricycle	Saturday 2 <sup>nd</sup> January, 2021	Km25 Muduru Village Along Katsina-Daura Road	Five (5) Lives
6	Second Level Investigation Report Of The Fatal Road Traffic Crash Involving A Dangote Howo Sino Truck With Registration No. Xb475 -Mgr, Honda Accord Saloon Car With Registration No. ANG -717AA Lexus RX330 SUV With Registration No. KWL-522AY, And Two Commercial Suzuki Mini -Buses With Registration No Xb973 -KAA And XA 692 KAA	Saturday, 23 <sup>rd</sup> January, 2021 <u>.</u>	At Km7 Ikare-Owo Single Carriage Highway Near Adekunle Ajasin University (AAUA) Main Gate, Akungba-Akoko, Akoko South West LGA Of Ondo State	
7.	Investigation Report Of A Fatal Lone Road Traffic Crash Involving Peugeot 406 Wagon With Registration Number JJN-701RR	Friday 2 <sup>nd</sup> April, 2021	Along Barde-Jagindi-Jos Road	Claimed The Lives Of Hon. Haruna Maitala, Member House Of Reps And Three (3) Others

9.	Investigation Report Of A Road Traffic Crash Involving A Honda Accord And A Nissan Bus	That Occurred On 25 <sup>th</sup> December, 2020	Along Ilorin-Idofian-Ajaseipo Highway At Jimba Village Km6 To Idofian Unit Command, Kwara State.	Claimed Ten Lives
10.	Investigation Report Of The Fatal Road Traffic Crash Involving FRSC Patrol Vehicle With Registration No. A01 - 882 RS And A Toyota Camry Salon Car With Registration No. AGL-405 GJ,	Sunday 25 <sup>th</sup> April, 2021	Occurred at Ekrerhavwe Junction Warri - Ughelli Expressway Delta State	Claimed The Live Of FRSC Marshal Rmai Ejobee Onoriode Daniel
11.	Investigation Report Of A Road Traffic Crash Involving An Articulated Tanker Conveying Diesel.	That Occurred On Sunday 18 <sup>th</sup> April, 2021	Along Adoka -Oweto Road at Ochugudu Town Benue State	
12.	Investigation Report Of The Fatal Road Traffic Crash Involving FRSC Patrol Vehicle IVM Double Cabin With Registration No. AO 1-953 RS and A Toyota Sienna Investigation Report of The Fatal Road Traffic Crash Involving Toyota Saloon Car With Registration Number RBC-70 BG and A Man -Diesel Truck W ith Nil Registration Belonging to Coca Cola Bottling Company,	Sunday 2 <sup>nd</sup> May, 2021. Sunday 23 <sup>rd</sup> May, 2021.	Occurred Opposite CCF Poultry On Ore -Ijebu Ode Expressway, Ogun State Occurred 500m To Gwarimpa Roundabout along Life Camp — Gwarimpa By Pass FCT Abuja.	Claimed the Life of FRSC Marshal RMAIII Life Of Late Senator Chuba Okadigbo's Son
14.	Investigation Report Of The Multiple Fatal Road Traffic Crash Involving A Truck And 12 Other Vehicles	On 22 <sup>nd</sup> June 2021	Occurred At 30m From Ramona Ultra Modern Park Ogere Along Lagos – Ibadan Expressway Ogun State	
15.	Investigation Report of The Fatal Road Traffic Crash Involving A Toyota Sienna Mini van With Reg. No Lagos KRD-842GY And 60,000 Capacity Howo Sino Tanker With Reg. No. Bauchi BAU-171ZE	Saturday 17 <sup>th</sup> July, 2021.	Which Occurred At KM 53 Akure – Ilesa 2-Lane Bituminous Paved, Single Carriage Highway In Erin - Ijesa, Oriade LGA of Osun State	
16.	Investigation Report Of A Fatal Road Traffic Crash Involving A Toyota Hilux Double Cabin Pick -Up	Monday 9 th August, 2021	Along Jibiya-Kaura Namoda Road	Claimed Ten (10) Lives
17.	Report Of Road Traffic Crash That Occurred Along Darazo -Dukku Road a t Km 2 Away From RS12.12 Darazo Unit Command Of	Thursday 29 <sup>th</sup> J <sub>uly</sub> , 2021	Occurred Along Darazo -Dukku Road a t Km 2 Away From RS 12.12 D arazo Unit Command Of Darazo LGA Bauchi State	Claimed Six (6) Lives.
18	Road Traffic Crash Investigation Report Of A Commercial Volkswagen Golf Wi th Registra tion Number TDU -530XA And A Commercial Ford Galaxy With Registration Nunber KRV-347BS	Which Occurred On Tuesday, August 10, 2021,	At Ungwar -Kurmi Goro,7 Km To Forest Along Gidan Waya - Jos Highway, Kaduna State	
19	Investigation Report Of A Fatal Road Traffic Crash Involving A Bus	Monday 30 <sup>th</sup> August,2021	At Hayin Gada 2km From Doka Along Kaduna – Abuja Expressway	Fourteen (14) Lives
20	Summary Report Of Road Traffic Crash	Monday 30 <sup>th</sup> August, 2021 About 00:00hrs	That Occurred At Km 11 Tungar Giwa Koko - Yauri Route Kebbi State	
21	Investigation Report Of The Fatal Road Traffic Crash	Wednesday 29 th	Occurred Opposite Centenary City	

### Crash Report on Akungba-Akoko, Ondo State

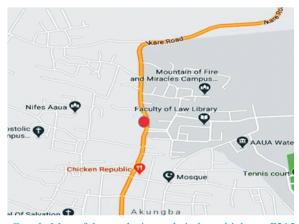

Table 64: Summary of Accident Investigation and Analysis in 2021

ACCIDENT INVESTIGATION AND ANALYSIS 2021			
S/N0	KEY PERFORMANCE INDICATOR (KPI)	INPUT	OUTPUT
1	Total number of reported cases	132	132
2	Total number of investigated cases	100	100
3	Total number of labour employed (personnel)	200	8
4	Total number of Man - hours employed	600 Hrs	800 Hrs
5	New method was employed in the area of data collation during investigation as there was need to gather facts on pre- crash behaviour of vehicles.		

The FRSC carried out investigation into a fatal road traffic crash that happened on the 23rd of January 2021 along Ikare-Owo highway near Adekunle Ajasin Unversity (AAUA), Akungba-Akoko, Ondo State, involving a vehicle belonging to Dangote Group of Companies conveying cement and other items.

The crash occurred at KM7 Ikare-Owo Two-Lane bituminous paved Single Carriage Highway in Akungba-Akoko, headquarters of Akoko South West, LGA of Ondo State. The crash first point of impact (POI) was in the middle of Ikare outbound lane, opposite the University main gate and it is located around Latitude 7.480317 N and Longitude 5.737345 E.

The road coded Highway F215 is a major North-South highway linking the ever-busy Lokoja-Kabba highway (Highway A123) with the ever-busy Benin-Owo-Akure-Ilesa highway (Highway A122)

Google Map of the crash site- red circle on highway F215

Left Side View of vehicle after crash

Ikare-Owo highway: Arrow "A" showing Ikare outbound lane, Arrow "B showing Owo Outbound lane and Red circle" showing the first and second POI

Right Side view of vehicle after crash

Five (5) vehicles were involved in the crash.

One of the vehicles involved was a greycoloured 18-Tyre Howo Sino Truck with registration No XB475-MGR. The vehicle belongs to the Dangote Group of Company. The vehicle which was fully loaded with bags of cement left Dangote Cement Factory in Obajana, Kogi State, and was heading towards Akure, Ondo State when the crash took place.

The driver of the trailer in an attempt to avoid ramming into the traffic ahead of him steered the vehicle to the left and hit a silver-coloured Honda Accord Saloon Car travelling ahead of him at the rear-left side before crossing to Owo outbound lane of the roadway where it rammed into the leftrear corner of a sky blue coloured Lexus RX330 SUV travelling towards Ikare.

After side brushing the Lexus SUV, the trailer rammed into two Suzuki Mini-buses parked at the AAUA bus stop off the eastern edge of the roadway and further rammed into nine (9) business centres and shops located after the bus stop on the roadside where it finally rested.

The crash resulted in an on-the-spot death of nine (9) students of the AAUA including three (3) siblings who were busy inside the business centres as well as the death of two (2) other women and a teenager selling snacks and water in the area. Eight (8) other students and a POS operator sustained various degrees of injuries following the crash.

Four persons directly involved in the crash namely, the driver of the trailer and his motor boy, the driver of the Honda Accord, and the driver of the Lexus Jeep however survived the crash without any injury.

The collision further resulted in extensive contact damage of the five additional vehicles as well as the demolition of the nine (9) shops and the property therein valued at about 17.6million Naira.

The number of casualty in the crash was significant which included students, passerby, business owners and pedestrians.

# **Rescue and Recovery of Money at Crash Scenes**

## Recovery and Return of Money Found at the Scenes of Crashes

One of the core values of the FRSC is transparency. This guarantees that road traffic crash victims are not dispossessed of their property during crashes. This value earned FRSC commendations in many instances as probity and accountability are the watchword and guiding principle of operatives and operational activities.

In many occasions, there are many recoveries of cash and property of road traffic crash victims across the country. Such valuables are kept in safe custody of the Commands and released to the crash victims with proof of ownership or identification by the relatives of victims involved in the event of loss of lives.

In 2020, recoveries of properties and cash at RTC scenes were unprecedented as huge

amounts of money and items were recovered by various Commands from January – December, 2021.

A total of the sum of thirteen million four hundred and seventy seven thousand Seven hundred and eighty four naira fifty kobo (N13, 477, 784, 50.00) was recovered at RTC scenes nationwide.

This made the 2021 as one of the highest recoveries at crash scenes compared with the previous year (2020).

The cash and items were released to the victims and their relations with proof of ownership or valid identifications.

## **Operational Hazards**

### **Operational Hazards**

Image of Asaba Office of the FRSC razed down by arsonists

Hazard is synonymous to every work environment, no matter how small or large, every organisation has its own share of operational risks. Workplace hazards can come from a wide range of sources. This has made organisations to create a safe working environment. This obligation not only stands as a moral imperative, but a legal obligation to the victims of such hazards.

FRSC personnel are not isolated from these hazards. Examples of such dangers are hit and run vehicles, abduction, armed attacks, armed robbery, assaults, burglary etc. These assaults are premeditated, some are preconceived and or predetermined to get back at personnel in the course of their statutory duties.

However, in the face of all these threats to FRSC personnel and infrastructure, the civil disposition of the FRSC Management in all its public and customers engagements remains unflinching.

As a result of the perennial attacks on personnel and sensitive installations, the Corps over the years has lost both human and vital infrastructure to arsonists. Example of this wave was the 2020 #EndSARs# civil disobedience in Lagos and other parts of the country where FRSC lost fleet of operational vehicles and some installations.

In 2021, there were cases of highhandedness on the part of drivers, while recalcitrant motorists, arsons, and armed attacks by armed uniformed personnel among other issues were recorded in the year under focus across the country.

In some cases, some staff are not so lucky as this results to loss of lives and property as a result of aggression suffered from drivers who deliberately refuse to stop with the intention to deliberately harm operatives.

The table on the next page of the report contains the breakdown of the incidents of armed attacks, arsons, hit and run and other operational hazards suffered by personnel of the Corps in 2021.

# **Manpower Development**

## **Manpower Development**

One of the critical functions in human resource management is capacity building of employees for optimal productivity.

Training remains an essential requirement for enhancing the ability of workforce in achieving the organizational goals. Every organization strives to develop and enhance the quality of employees by providing routine and quality training and development programmes to enable employees perform their duties optimally.

Manpower development in the Corps helps in the discovery of potentials of workforce and how to fan into flame and transform these potentials into usable skill needed for the growth of the Corps.

In the light of the above, FRSC organised different modules of programmes in manpower development in 2021, such as the statutory weekly In-house lecture series, backed up with quarterly Test of Understanding (ToU). During the period under focus, a total of 17,802 staff were on the portal out of which 15,778 were active users of the programme.

In 2021, the accomplishment of the Corps in manpower development included, but wass

not limited to:

- Conduct of participant observation in the 12 Zonal Commands during the Q4, 2021 Test of Understanding. This is unprecedented as the programme was used to further sensitize staff on the importance of In-house lecture programmes to ensure a credible and well-manneredworkforce.
- Preparation of MoU between FRSC and ITF as well as between FRSC and CMD respectively. These MoUs were centred on making staff of the Corps and Training Institutions certified trainers.
- Internal capacity building for Principal Officers.

Other activities of the Corps in the year under review included:

- Monitoring of FRSC Instructors in Military Formations and Schools.
- Signing of MoU between FRSC and NDA for batch of twenty two (22) FRSC Drivers Instructors.
- Retention of Three (3) FRSC Drivers Instructors in Nigerian Naval Engineering College (NNEC), Sapele.
- Deployment of Four (4) FRSC Drivers Instructors to OAU, Driving School, Ile Ife, Osun State.

### The FRSC Academy

Manpower development is one of the important areas of resource development to stimulate organizational growth for optimum output.

This integrates fresh ideas and creates new frontiers in capacity development to address the multidimensional road safety practice among the workforce. This is to also evolve interpersonal skills and enable

new ideology in leadership and mentor ship.

The FRSC Academy was established in the year 2006 to develop the capacity of Officers in the Corps for better performance.

In 2021, the Institution carried out the under mentioned activities.

## **FRSC Academy Master Degree Programmes**

FRSC Academy is a citadel of learning that has attained the global status of one of the foremost African road Safety Institutions held in high esteem by road safety practitioners across Africa.

In an effort to consolidate the global status, in 2021, the institution was elevated to the status of Centre of Excellence with plans to run Post Graduate Diploma (PGD) and Master Degree programmes in Transport Safety Management.

In view of the accreditation of the programme, the Corps drew an MoU with the Federal University of Technology Owerri (FUTO) while the National University Commission (NUC) gave approval for the affiliation to run the

programmes.

The Corps has also profiled and screened the Ph.D holders among the staff of the Corps to form a nucleus of pioneer staff to work with Federal University of Technology (FUTO) for the programme.

In the same year under reference, there was advertisement placement in some Nigerian Newspapers inviting suitable professionals in Transport Management discipline for employment. Plans are already concluded for the appointment of a substantive Provost to head the institution.

## FRSC, National University Commission Parley

The Corps Marshal, FRSC, Dr Boboye Oyeyemi and the Executive Secretary, National University Commission (NUC), Prof. Abubakar Rasheed during his working visit to the National University Commission Headquarters in Abuja on 17th October, 2021.

The vision of the Federal Road Safety Corps Management is to transform the FRSC Academy, Udi, Enugu State into one of the foremost Transport safety institutions in Africa.

This is vigorously pursued by collaborations with relevant stakeholders to ensure that the institution attains the desired objective as a degree awarding institution within the shortest time possible.

Pursuant to this, the Corps Marshal in the

company of some top FRSC Management team paid a working visit to the Executive Secretary, National University Commission (NUC) Prof. Abubakar Rasheed on the 17th October, 2021.

The discussion of the two leaders hinged on the development of education in Nigeria especially on the accreditation of the FRSC Academy to a Degree Awarding institution.

#### FRSC Command and Staff College (FCSC)

The Minister Of Labour And Employment, Dr. Chris Ngige and other Dignitaries during the inauguration Ceremony Of FCSC on the 4th of November, 2021

Career development is the thrust of the Corps in developing an ebullient, high-spirited, vivacious workforce to face the ever challenging road traffic environment in Nigeria.

The Federal Road Safety Command and Staff College (FCSC) was established on the 20 January 2020 with the permanent site in Ibadan to meet the objectives of developing manpower needs of the FRSC.

Presently, the College cohabits with the FRSC Academy Udi, Enugu State as a result of the ongoing construction work at the permanent site in Ibadan, Oyo State. The institution was established as a citadel of knowledge to produce morally excellent Officers.

Prior to the takeoff of the institution in

2020, seven (7) instructors attended a three (3) week administrative and academic procedures course at Armed Forces Command and Staff College (AFCSC), Jaji, Kaduna State.

The first set of course participants at the FCSC comprising 20 Officers were inducted into the institution on the 4 November, 2021 after the Honourable Minister, Ministry of Labour and Employment, Dr. Chris Ngige cut the tape to declare the FCSC Course One of the FRSC Command and Staff College open.

The Minister was accompanied by the Chairman FRSC Mallam Bukhari Bello, Corps Marshal Dr. Boboye Oyeyemi and other dignitaries. During the occasion, some roads and building were named.

## **Marshal Inspectorate Training School, Owa Alero**

The Vice President, Prof. Yemi Osinbajo, GCON, presenting the Keys to the FRSC Marshal Inspectorate Training School to the Corps Marshal Dr. Boboye Oyeyemi during the inauguration Ceremony on the 6 May, 2021

Marshal Inspectorate Training School Owa-Alero was built and fully funded by the Delta State government under the leadership of His Excellency Governor Ifeanyi Okowa, the Executive Governor, Delta State.

The story started towards the end of 2019 when the FRSC expressed the intention to have the Inspectorate Training School in Delta State. Due to the importance of road safety, the State government decided to assist the FRSC to ensure capacity building

#### of its personnel

The Federal Road Safety Corps (FRSC) Marshal Inspectorate Training School Owa-Alero, Ika North East Local Government Area of Delta was inaugurated on the 6 May 2021 by His Excellency, Prof. Yemi Osinbajo, SAN, GCON, the Vice President, Federal Republic of Nigeria, for the training of Marshals on the inspectorate cadre.

Since inception of the school in 2020, the institution has conducted the 2021 Marshal Inspectors' Promotion Exercise as well as the 2020/2021 Road Marshal Assistant basic course (drivers) in conjunction with the Nigerian Army School of Supply and Transport, Benin.

In preparedness for the activities of the Marshal Inspectorate Training School, some of the directing staff had undergone series of training in various Military, Police and DSS institutions to keep them abreast of the happenings in training institutions.

The institution encompasses the following: an administrative block, auditorium, lecture rooms, male and female hostels, residential apartments, cafeteria, clinic, driving range, and a football field amongst others.

## **Marshal Assistant Training School**

Manpower development has proven to inspire strategic philosophy and systematic development of the knowledge, skill and attitude required by personnel to effectively perform on their job schedules and improve performance in job function

This accounts for the huge investment of the FRSC in establishing training institutions to develop the capacity of its personnel.

The FRSC Marshal Assistant Training School Jos, Plateau State is saddled with the

responsibility of training Road Marshal Assistants, Drivers and other staff in this category. This is to enhance performance on the job and to keep them abreast of the career developments in the Corps. The School conducts Promotion examination exercises, Basic Courses and Drivers' training.

The following are some of the activities and courses undertaken at the Training School during the reporting year.

## **Routine Courses with Sister Agencies**

FRSC is a citadel of knowledge where manpower development is prioritized.

The Corps sponsored participants in some professional courses organised by sister Military and Para-Military agencies such as the Nigerian Police, Army, Airforce, Navy, Department of State Security (DSS), Nigerian Immigration, NSCDC and other specialised institutions in 2021.

Some senior and intermediate Officers participated in these courses within the period under review as tabulated below:

Table 72: Long Term Courses in Sister Training Institutions

#### **Conversion Course**

Manpower development has been the vehicle towards the success of the FRSC over the years, as the personnel discharge their duties timely, effectively and efficiently. This has decreased ineptitude within the organisation.

In line with the directives of the Federal Government to convert deserving personnel with HND to Officers' cadre in order to address the issue of dichotomy between University degrees and HND holders within the service of the Corps, the Management approved Officers' Basic Course for qualified Marshal Inspectors with Higher National Diploma (HND) to facilitate their upgrade to Officer Cadre.

In summary, 1,090 Male Marshals and 259 Female Marshals totaling 1,349

participants were converted to Officer cadre.

The programme was an abridged course held within three months. Topics such as leadership on patrol amongst other courses were introduced to the participants.

The Corps Marshal was the Reviewing Officer at the decoration that attracted dignitaries across the country.

## **Driving School Standardization Web**

Driving School Standardisation Programme (DSSP) web application became fully operational on the 1st February 2016. The portal was designed to monitor and regulate the activities of driving schools for optimal service delivery to ensure the culture of prevention rather than reaction.

Under the DSSP, a prospective driver is to undergo 26 training sessions over a maximum period of three (3) months. Upon successful completion of Computer Based test (CBT), a driving school certificate is generated and issued to the applicant. It is a very important process in the National

Driver's Licence (NDL) production, being a starting point of acquiring the legal document as a defensive driver

The fundamental objectives behind the introduction of the DSSP is to impact good driving culture thereby ensuring that only skillful, well trained, competent and qualified persons are allowed to drive on Nigerian roads. This will ultimately work towards a remarkable reduction in road traffic crashes.

Summary of activities of the DSSP during the year is presented below:

Table 74: Activities of Driving School in 2021

## **Capacity Building**

## **Capacity Building For Senior Officers**

FRSC sets yearly goals to provide guidance and focus for the Corps. It also assists in monitoring and evaluating the performance of the Corps with a view to identify where capacity building is required.

In line with one of the Corps' 2021 Corporate Strategic Goals which was to improve personnel capacity and competence, a one day capacity building programme was organized for senior

Officers in RSHQ with the cardinal objective of empowering them to deliver effectively and efficiently on their responsibilities in a sustainable manner.

DCM (AHR), DCM (Fin & Acct), DCM (Training) and other Top Management staff during the training programme

ACM Personnel, ACM COSEN and Senior Management Staff during the training programme

Zonal Commanding Officer RS7HQ, Abuja

Senior Officers participating at the Capacity Building

The Corps Marshal, Dr. Boboye Oyeyemi, welcomed participants to the event and described the workshop as a pilot scheme which would be replicated and cascaded appropriately in due course.

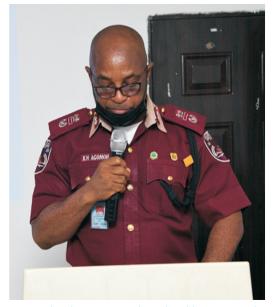

He said the workshop was designed to enable participants align with the Corps' mandates.

Corps Marshal, Dr. Boboye Oyeyemi, mni

ACM Kingsley N. Agomoh, mni posited that the workshop was aimed at building a high performance team, serving as a veritable platform to review and articulate new operational and administrative strategies towards the realization of the Year's Corporate Goals.

CC (Dr.) Davidson Okuobeya made a presentation on "Managing of One's Health in Ever-Changing Environment" which was aimed at acquainting participants with the procedure of handling health challenges. He listed articulated determinants of health to include heredity, environment, age, behavior and health service.

ACM Kingsley N. Agomoh, mni making presentation during the programme

CC (Dr.) Davidson Okuobeya delivering a lecture during the programme

Deputy Corps Marshal (Motor Vehicle Administration), DCM Hyginus Z. Fuomsuk, fdc made a presentation titled "Decoration with FRSC Ribbons" and stated that ribbons are small bars mounted on metal, equipped with attaching devices and are generally issued for wear in place of a medal. He enumerated the following as the essence of ribbon decoration:-

- i. Means to display the highlights of a service member's career.
- ii. Award and decoration to staff in recognition of staff service in the Corps and personal accomplishments or achievements.
- iii. Distinctions given as a mark of honour for military heroism, meritorious or outstanding service or achievement.

He added that the criteria for staff to be decorated with FRSC ribbon includes:

- i. Years in service.
- ii. Corps Marshal's Commendation.
- iii. Members of the Corps who are professionals and members of

their individual professional bodies and are ACCs and above.

iv. Members of the Corps who have attended foreign training/courses excluding

DCM Hyginus Z. Fuomsuk, fdc

WARSO related training.

- v. Staff that exhibit gallantry in their duties.
- vi. Members of the Corps who received National Honours.

Sportsmen who put on an excellent performance by being first

Mr. Azubuike Ishiekwene (Vice Chairman/Editor in Chief Leadership Media Group) made a presentation on "Perception Management" stating that Perception implies reality.

Mr. Azubuike Ishiekwene

He mentioned strategies for perception Management as preparation, credibility, multiple channel support, centralized control, flexibility/adaptability of information, coordination of information and concealment.

## **Capacity Building on Generator Maintenance**

FRSC places high premium on the proficiency development of its personnel to build professionalism. In fact, the Corps recognises staff with a high degree of professionalism as more credible and responsible.

In 2021, three (3) Engineers and Seven (7) artisans (Generator Operators) participated in a three (3) day intensive training on Operations and Maintenance of Generators at the Mecer Consulting Limited, Abuja from May 26-28, 2021 in Abuja.

The training covered the following areas:

- Health Safety and Emergencies
- History of Generator
- Generator types and other consideration factors

- Generator parts
- Generator operation in Nigeria
- Generator daily inspection list П
- П Generator service and preventive maintenance
- Generator auxiliary system
- Diesel management for stand by Generator

In a nutshell, the training has provided the participants the technical know how on the best way to ensure that the Corps generators receive the attention they need. Early diagnosis of issues and improvement of the generator lifespan were some of benefits that the Corps would derive from the training.

Officers and Marshals of FRSC with the representative of Mecer Consulting Limited, Abuja during the training on May 26-28, 2021

## **Sporting Activities**

## **Unveiling of Corps Marshal Golf Course Hole 11**

Sport development is a vehicle for National development. It is also used in fostering synergy among government agencies most especially among the Armed Forces, Paramilitary and the civil society organisations across the country.

In August 7th 2021, the Corps Marshal, top Management staff, Staff of the Federal Road Safety Corps and other golfers across the country participated in the unveiling of the Corps Marshal Hole 11 and Golf Classic Tournament at the Tukur Yusuf Buratai International Golf Resort and Country Club, TYB/IGRCC Mambila Barracks Asokoro, Abuja.

The unveiling of the Corps Marshal Hole 11 was performed with the complements of all the Service Chiefs. The Chief of Naval Staff and Chief of Air Staff made passionate appeals to the Corps Marshal to also have a hole in each of their respective Golf Course in Karshi, Orozo and Airport road, Bill Clinton Drive, Abuja.

The Corps Marshal hole 11 and Golf Classic Tournament is a forum for FRSC to synergize and interact with the Military and Para-military community.

## **Sports**

The Sport Section of the Corps represents the Corps at all sports related events and programmes.

In IGP Badminton Championship, held in Lagos, the team came first with a Gold Medal and also in the Kano State Para Military games, the Corps had five (5) Gold Medals at the Paramilitary competition.

In similar development during the Male and Female handball competitions of the North Central handball League in 2021, both teams had 2 gold Medals each.

The breakdown of the activities is presented in the table on the next page;

## **Motor Vehicle Administration**

#### **Motor Vehicle Administration**

It is the mandate of the Corps to design and produce driver's licence and vehicle number plates to be used by various categories of vehicles as enshrined in Section 5 (g) of the FRSC (Establishment) Act 2007. The FRSC has been on top of the production of number plates and drivers' Licence in Nigeria with the establishment of 222 drivers' licence processing centres located in all the states of the federation. three state of the art Number Plate Production Plants located in Lagos, Awka and Abuja as well as six (6) mini Number Plate Plants in Sokoto, Asaba, Kano, Port Harcourt, Jos and Yola. With these feats, the Corps has been delivering on its mandate

Year 2021 was action packed as the Corps recorded unprecedented patronage of number plates, drivers licence and signage products. The success is attributed to the doggedness of the FRSC management in ensuring that the number plate and drivers' licence get to the end users within the shortest period. Also added to the gains of the Corps was the delivery of the products to the door step of the users. This is a

departure from the past experience where driver licence would not get to the users before the expiry date of the document. To also make the document acceptable by all, particularly to the international community, the reciprocity of the driver's licence was vigorously pursued. There was a new turn in the application for the drivers' licence as applicants are required to include National Identity Number (NIN) details before the licences could be produced.

This has further prevented racketeering and enhanced the credibility of the Nation's Drivers' Licence Scheme. The Signage Plant has been the envy of other international agencies, as the products of the Plant could compete favourably with international standards. This has attracted foreign customers from neighbouring countries who have signified intention for patronage. Similarly, the Signage Plant is the first government owned production plant in Nigeria, producing for all the States of the federation and private individuals.

In 2021, the Corps recorded significant successes in the production of number plates and Drivers' Licences across the

A total production of Driver's Licence within the Year, 2021 is Eight Hundred and Twenty Eight Thousand One Hundred and Eighty Nine (828,189).

Lagos State recorded the highest number of One Hundred and Ninety Six Thousand, Seven Hundred and Ninety Five (196,795), representing 23.7%, followed by FCT with a total of Seventy Nine Thousand and Forty Seven (79,047), representing 9.5%.

Taraba State recorded lowest number of One Thousand Eight Hundred and Forty One (1,841), representing 0.2%. Find below the breakdown of the production during the reporting year.

#### **Number Plates Production**

A total of Seven Hundred and Eighty Eight Thousand Six Hundred and Twenty Eight (788,628) Number Plates were produced in 2021. Motor Vehicle (MV) recorded a total of Four Hundred and Thirty Three Thousand, Nine Hundred and Eighty Seven (433,987).

Motorcycles (MC) recorded a total of Three Hundred and Fifty Four Thousand, Five Hundred and Eighty (354,580) number plates while Reprint recorded a total of Sixty One (61) number plates as represented below:

Figure 51: Breakdown of Number Plates Produced by Plants in 2021

Source: FRSC

Production in the various categories of number plates shows that Government Motor Vehicles accounted for Three Thousand Four Hundred and Sixty Nine (3,469) number plates; Private Motor Vehicles accounted for Three Hundred and Fifteen Thousand, Three Hundred and Fourteen (315,314) number Plates; Commercial Motor Vehicles accounted for One Hundred and Five Thousand, Hundred and Twelve (105,612); Fancy MV accounted for One Thousand, Two Hundred and Eight (1,208); Out of Series MV accounted for Two Hundred and Eighty Five (285); Military/Paramilitary MV accounted for One Thousand, Five Hundred and Forty Eight (1,548) and Dealer MV number plates accounted for Two Thousand, Three Hundred and Sixty-Six (2,366) number plates produced.

d. Government Motorcycle accounted for Five Hundred and Eighty Four (584); Private MC accounted for One Hundred and Sixty Thousand, Six Hundred and Seventy One (160,671); Commercial MC accounted for One Hundred and Ninety Three Thousand and Ninety Nine (193,099) and Dealer MC accounted for Thirty Nine (39) number plates as shown below:

Arising from the Number Plate report, the Number of Plates Produced in the year, 2021 are Seven Hundred and Eighty Eight Thousand, Six Hundred and Twenty Eight (788,628) as against Eight Hundred and Four Thousand, Six Hundred and Sixty Eight (804,668) number plates produced in the year, 2021 which represents 1.9% decrease of number plates produced in the quarter under review as shown in the following tables:

## **Recovery of Stolen Vehicles**

Stolen vehicles recovery has been made easy due to the requirement of vehicle registration and national data bank domiciled with the FRSC. This has greatly enhanced the vehicle registration platform. Vehicles are identified with unique Vehicle identification Number (VIN) attached to every vehicle.

Since the National Vehicle Identification Scheme portal resident in FRSC became effective 2014, several stolen vehicles have been recovered from then till date. In 2021,

the FRSC recovered Fifty Two (52) stolen vehicles.

From the table below, Toyota Camry had the highest of eighteen (18) recoveries followed by Toyota Corolla with ten (10). Mercedes Benz and Toyota highlander were the least on the table among others. The breakdown is presented in the table below:

Table 96: Breakdown of Recovered vehicles according to vehicle types

No	Vehicle Name	Number of Recoveries
1	Toyota Camry	18
2	Toyota Corolla	10
3	Lexus SUV 330	7
4	VW Jetta	1

17	TOTAL	52

## **Summary of Investigations conducted by the Corps for Security Agencies** in 2021

There was extensive collaboration with other security agencies in terms of investigation activities.

The Nigerian Police, Economic and Financial Crimes Commission (EFCC), INTERPOL, National Drug Law Enforcement Agency (NDLEA), Nigeria Custom Service and Independent Corrupt Practices and other related offences Commission (ICPC) sought the Corps' assistance in confirmation of vehicle ownership.

## Reported Stolen Vehicles From the Nigeria Police and Individuals

In a related development, the Nigerian Police and some individuals reported the theft of their vehicles.

These vehicles were flagged by informing all the NVIS Desk Officers who upload details of newly registered vehicles into NVIS database in the thirty six (36) States of the federation and FCT. Any attempt to re-register the vehicles would be detected

by the Desk Officers and prompt action taken on such individuals

A total of Sixty-eight (68) stolen vehicles were reported aside those that did not present valid papers for verification and further flagging (raising red flag to alert NVIS uploading Staff).

## **Summary of the Motor Vehicle Administration Performance in 2021**

#### **Observations:**

- There is an increase of Four Hundred and Nine Thousand, Two Hundred and Eighty Two (409,282) licences produced in the year. 2021, representing 97.7% increase of NDL produced when compared with year, 2020
- Nineteen (19) DLCs held monthly tripartite meetings while Seventeen (17) DLCs held quarterly tripartite meeting in the year under review.
- There is decrease of Sixteen Thousand and Forty (16,040) of number plates produced in the year, 2021, representing 1.9% decrease in production when compared with 2020.
- FG number Plates totaling Three Thousand Four Hundred and Sixty Nine (3,469) number plates were produced in the year under review.

- Fifty Two (52) stolen vehicles were e. recovered in the year under review.
- Sixty Eight (68) stolen vehicles were reported by Nigerian Police and individuals
- Eighty Two (82) cases of vehicles under investigation were reported by security agencies in the year under review.
- One Thousand Nine Hundred and Three (1,903) signs were produced in the year under review.

## 147th Meeting of the Joint Tax Board in Kaduna

The Corps Marshal, FRSC, Dr Boboye Oyeyemi with the Executive Governor, Kaduna State, His Excellency Mallam Nasir El-Rufai during the Kaduna State 147th Joint Tax Board Meeting held in Kaduna on 25th March, 2021.

The FRSC participated at the 147th Joint Tax Board (JTB) Meeting held at the Hotel Seventeen, Kaduna, Kaduna State on Thursday, 25th March, 2021 with the theme Strategic Initiative for Sustainable Revenue Generation: Prospect, Challenges and Next Steps.

The Corps Marshal, Dr. BO Oyeyemi led a delegation of other Management Staff to the meeting. The host, the Executive Governor, Kaduna State, His Excellency, Mallam Nasir El Rufai was the Special Guest of honour who declared the 147th JTB meeting open.

In attendance were the JTB Chairman, JTB Secretary, and Chairmen of BIRs/IRSs of all States of the Federation including FCT representatives. Price Water Consulting (PWC) representative was one of the resource persons for the Technical Session.

The FRSC made the following inputs at the meeting:

Presentation on issues bordering on National Driver's Licence and Number Plates; request for assistance of the affected States in the re-building and re-equipping of the vandalized/destroyed Drivers Licence Centre during the #EndSARS protests.

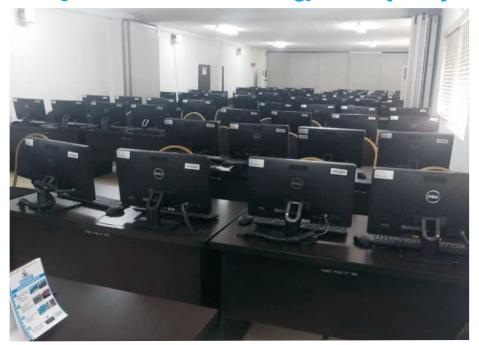

- JTB to engage Executive Governors of all States to support automation of tax processes in their States and to ensure that all revenue authorities are integrated with the JTB Database before the end of second quarter, 2021.
- Issue of Tax Identification Number (TIN) as mandatory field for issuance of NDL and NP registration is suspended in NIN implementation.
- d. States were admonished to codify and harmonize their taxes and levies to ease tax compliance, eradicate multiplicity of taxes, promote ease of doing business and attract more investment opportunities.

# **FRSC Information Communication Technology (ICT)**

## Corps Information Technology Office (CITO)

FRSC ICT Hall, National Headquarters, Abuja

FRSC embraced technology as a tool to assist in the delivery of all its products and services. With a robust Corps Information Technology Office (CITO) to meet its needs, the Corps reaches out to its customers and members of the public.

The Corps successfully deploys ICT to all the Commands across the country in information dissemination and other urgent duties. Presently, the Annual Performance Evaluation Report (APER) of personnel is a success story as assessment is carried out via internet channel. Other services and products of the FRSC that is enabled with the use of IT include the biometric access card to the Corps Marshal Office, Finance and Account, IT Office, Pension Office, Call Centre. Drivers Licence Centre. Registry, Pensions and Insurance Unit, Print Farm, Duty Room, National Traffic Radio and FRSC CCTV channel, amongst others.

The Corps uses the internet access for the deployment of the National Traffic Radio (NTR) service across the globe making the National Traffic Radio Service accessible anywhere in the World. The Corps deployed android and IOS mobile apps for the

National Traffic Radio to enable wider coverage of its activities.

With the launch of the e-Tablets in patrol operations, the FRSC patrol team is able to give realtime information to the National Headquarters.

The latest of the IT products is the introduction of Body Worn Cameras (BWC) recently launched by the Corps in October, 2021. The inauguration of this platform has improved transparency and accountability in the activities of the Corps nationwide. The product was designed with the needs of the public uppermost in mind, as the Corps goes about the task of making FRSC more responsive in its operations.

The Body Worn Camera is an objective recorder, giving frontline Officers the tools they need to provide original evidence from the Officers' standpoint. It increases public confidence in policing. It disproves unwarranted complaints while misconduct by users are reduced. It deters violence and increases public safety. It provides realtime video footage of happenings on patrol and reduces use of force by patrol teams.

#### **FRSC Call Centre**

FRSC Call Centre was established primarily to enable members of the public report crash cases using a Toll-Free Number, 122 and also to receive information from the public on road traffic Congestion, Clearing of Obstructions, Number Plates, National Drivers Licence and other related Road Traffic Management issues.

The Corps' Emergency Call Centre was upgraded with the deployment of the 3CX solution, a web-based communication platform which has transformed the manual call logs formerly in place to automated call logs at the Call Centre and Service Desk.

In order to improve the performances of personnel, in December, 2021 Forty-four (44) Call Centre staff participated in a capacity building training on Effective Customer Service Delivery to enhance their duties. In similar development, two (2) staff of the Corps attended a 3-day Cyber Security and Digital Forensics course at National Defence College, Abuja.

## **Tracking Facility**

FRSC installed high frequency tracking facility at the Call Centre which enables tracking of FRSC Patrol vehicles, Ambulances, Tow Trucks, official vehicles and motorbikes nationwide for effective deployment and management. The office operates on a 24/7 basis and is manned by FRSC personnel.

Within the period under review, the Call Centre entertained a total number of Three Thousand Eight Hundred (3,800) calls on Road Traffic Crashes between January and December 2021. Below is the breakdown:

Total number of RTC Calls - 3,800 Total number of other Calls -15,124

#### Virtual Meetings

The Corps sustained the virtual platform initiated during the COVID-19 pandemic challenges. The virtual platforms were used for meetings in line with the COVID-19 protocol. The ZOOM application was used in 2021 to hold meetings and conferences across the country to accomplish some of the administrative duties in compliance with government's directive on COVID-19 regulations.

Within the year under review, a total number of One Hundred and Sixteen (116) virtual meetings were anchored using the ZOOM platform in interacting across the country. FRSC maintains a vibrant social media channels as one of the sources of the Corps' activities and enhanced public enlightenment and also maintains prompt and effective communication with its followers on Social Media Platforms.

The 2021 activities were unprecedented as the Corps used the media platforms to enhance all its activities to educate road users on safety. This earned the Corps accolade as one of the best Federal Government Agencies with vibrant social media platform.

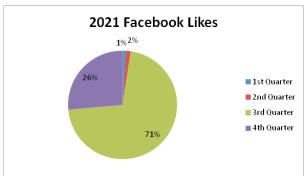

FRSC Facebook account recorded 179 likes in the first quarter, 266 in the second quarter, 13,123 in the third quarter and 4,870 in the fourth quarter which represents 1%, 2%, 71% and 26% respectively.

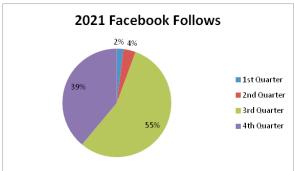

Table 100: Analysis of usage of FRSC Social Media Platforms in 2021

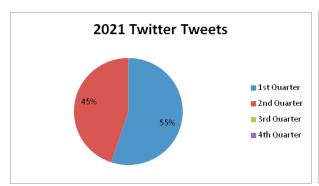

2021 ANNUAL REPORT	FA	FACEBOOK		VITTER	INSTAGRAM		
2021 ANNUAL REPORT	LIKES	FOLLOWS	TWEETS	FOLLOWERS	POSTS	LIKES	
1st Quarter	179	226	254	8181	27	547	
2nd Quarter	266	411	207	5321	95	3383	
3rd Quarter	13123	6307	NIL	NIL	16	1730	
4th Quarter	4870	4421	NIL	NIL	119	1919	

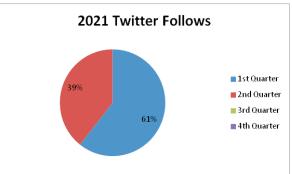

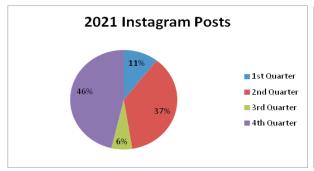

Figure 53: 2021 Facebook Followers, Twitters, Instagram Post

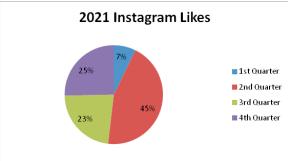

In the first quarter of 2021, FRSC Twitter account recorded a total of 254, while 207 tweets were recorded in the second quarter representing 45% and 55%.

In the year under review, followers recorded by the FRSC Twitter account were 8,181 for the first quarter and 5,321 for the second quarter which represents 39% and 61% respectively.

However, there was no data for the third and fourth quarters of 2021 as Twitter was suspended by the Federal Government.

The above represents the growth of the

Corps' Instagram Platforms both in the metrics of public posts and likes quarterly. In 2021, posts by the FRSC Instagram account recorded a total of 27 in the first quarter, 95 in the second quarter, 16 in the third quarter and 119 in the fourth quarter representing 11%, 37%, 6% and 46% respectively.

In the year under review, likes recorded by the FRSC Instagram account were 547 in the first quarter, 3,383 in the second quarter, 1,730 in the third quarter and 1,919 in the fourth quarter which represents 7%, 45%, 23% and 25% respectively.

FRSC personnel at the ICT Hall during one of the programmes

This represents the growth of the Corps' Twitter Platforms both in the metrics of public tweets and followers quarterly.

In the year under review, followers recorded by the FRSC Facebook account were 226 in the first quarter, 411 in the second quarter, 6307 in the third quarter and 4421 in the fourth quarter which represents 2%, 4%, 55% and 39% respectively.

The figures represent the growth of the Corps'

facebook account both in the metrics of likes and follows quarterly.

# **3rd United Nations World Bicycle Day**

Following the declaration of 3rd June as the United Nations World Bicycle Day through the Resolution No. A/RES/72/272 dated 12th May, 2019, commemoration of the 3rd edition of the United Nations World Bicycle Day 2021 was done in collaboration with the Cycling Federation of Nigeria (CFN).

Transportation Growth Initiative (TGI) and the Federal Ministry of Transportation, among other relevant stakeholders collaborated during the 2021 edition.

The Corps participated in the annual event both at the National Headquarters and field Commands nationwide from 3rd to 5th of June, 2021 with the theme 'Save the Cyclist'.

Activities marking the events included the following:

- Bicycle Rally and Advocacy Visit.
- Stakeholders Workshop on the 4 June, 2021.
- Cycling Championship on the 5th June, 2021.
- A mini Cycling Championship was also held by Cycling professionals at Central Business District, Abuja.

The events were replicated in field Commands nationwide.

Representative of the Corps Marshal, DCM VC Nwokolo, fdc, with Stakeholders during the World Bicycle Day Celebration in 2021

# 2021 World Day of Remembrance for Road Traffic Victims

The World Day of Remembrance for Road Traffic victims is observed 3rd week of November of every year. The day is used to draw attention to the scale of devastation caused by road crashes and give recognition to the suffering of the road crash victims.

The objective of the World Day of Remembrance for Road Traffic victims is to provide a platform for road traffic victims and their families to:

- a. Remember all people killed and seriously injured on the road,
- b. Acknowledge the crucial work of emergency services in road crash incidences.
- c. Urge for better response to culpable road deaths and injuries.
- d. Advocate for better support for road traffic victims and victims' families
- e. Promote evidence-based actions to prevent and eventually stop further road traffic death and injuries.

The 2021 edition was focused on the reduction of traffic speeds as a way of preventing many deaths and serious injuries, particularly for pedestrians and all other vulnerable road users like children, the elderly and the disabled. The slogan for the 2021 edition was "Remember, Support,

Act".

FRSC in collaboration with United Nations Decade of Action on Road Safety and Traffic Injury Prevention (UNDARSTIP) organized a one week activity held from Monday 15 - Sunday 21 Nov, 2021 to commemorate RTC Victims with the following activities:

- ☐ Pre-Media Chat Radio Programme at various radio stations in collaboration with UNDARSTIP and stakeholders.
- ☐ Joint Press Conference at Radio House, Area 10, Garki, Abuja.
- Laying of wreath at the Road Traffic Victims Remembrance Site within the premises.
- Mega road rally from RSHQ, Wuse Zone 3, Abuja to Jabi Motor Park for sensitization and enlightenment.
- Distribution of flyers containing road safety messages to motorists and general public.

Representatives of the Corps Marshal and other Stakeholders during the World Bicycle Day Celebration in 2021

# 6th UN Global Road Safety Week

The United Nations (UN) Global Road Safety Week is a biennial global campaign hosted by WHO through the United Nations General Assembly Resolution A/60/5 and first held in 2007.

The 6th UN Global Road Safety week held from 17-23 May, 2021, with the theme "Speed: Streets for Life" (#Love30). The advocacy was aimed at decreasing speed to 30km/h where people walk, live and play. When Roads are safe, people will walk more and this in turn will improve health and protect our environment.

In aligning with the UN clarion call for safe and sustainable streets for people to live, walk and play, the FRSC in collaboration with the United Nations Road Safety and Injury Prevention organized series of activities to mark the week. Such activities included:

Press Conference,
A 1

Advocacy visits to policy makers on
Road Safety issues

☐ Media Chats,

☐ Commemorative Juma'at Prayer,

☐ Advocacy Visits to Hospitals and

☐ Commemorative Church Service.

Representative of the Corps Marshal DCM HZ Fuomsuk, fdc, DCM SDER with other stakeholders at the programme

- Award ceremony by Coalition of Road Safety NGOs in Nigeria (CORSAN) in partnership with FRSC.
- Award to deserving road safety NGOs as a way of encouraging them.
- Award to the founders, Children Accident Prevention Initiative (CAPI), and Accident Victims Assistance and Hospitality (AVAHI).

Juma'at prayer was observed at the National Mosque, Abuja to pray for those who lost their lives and those that lost their loved ones to road traffic crashes and also to enlighten the faithfuls on how to make good use of the road to reduce road traffic crashes.

Hospital visitation and donation to road traffic victims took place on Saturday 20 November, 2021 at Garki Hospital, Abuja. It was an opportunity to sympathize with victims of road traffic crashes at the hospital and to donate gift items to them. It was also aimed at propagating road safety consciousness among the people.

The Commemorative Church Service to round up the week-long activities was held at Dominion Chapel, Area 1, Garki Abuja on Sunday 21 of November, 2021.

The representative of the Corps Marshal, DCM Admin and Human Resource, DCM OI Ewhrudjakpor, fdc, NPoM led the FRSC delegation to the service where prayer was offered for the victims of road traffic crashes and for persons who lost their loved ones to road traffic crashes. The congregation was sensitized on safe road use.

# Visit of the Sierra Leone Road Safety Authority (SLRSA)

The Corps Marshal Boboye Oyeyemi, mni with Sierra Leone team comprising of Mr. Ibrahim Sannoh, Executive Director of Sierra Leone Road Safety Authority, Mr. Cole Glen Michael, Head of ICT; Mr. Kaitongi Augustine, Director of Safety and Enforcement; Mr. Tucker Ambrose Leonean, Head of Research and Planning; and Mrs. Mansaray Assanatu Judith, Director of License among others

The Federal Road Safety Corps (FRSC) Nigeria is unarguably the Lead Agency in the African Sub-Region in terms of Road Safety Administration and Safety Management.

The visit of the Sierra Leone Road Safety Authority to FRSC Nigeria on Monday 19-26 April, 2021 sufficiently attested to the fact. The visit was aimed at understudying the ICT infrastructure and general operations regarding issuance of Vehicle and Drivers' Licences, and other road safety related issues.

This, it is hoped by the delegates, will help in the actualization of a formidable Road Safety outfit in Sierra Leone, in line with the world best practices.

The team from Sierra Leone was led by Mr. Ibrahim Sannoh, the Executive Director of Sierra Leone Road Safety Authority. Others were Mr. Cole Glen Michael, Head of ICT; Mr. Kaitongi Augustine, Director of Safety and Enforcement; Mr. Tucker Ambrose Leonean, Head of Research and Planning: and Mrs. Mansaray Assanatu Judith, Director of License. The itinerary visit kickstarted with Corps Marshal's brief with Members of the FRSC Management Team and Delegates from Sierra Leone in attendance.

The Corps Marshal Dr Boboye Oyeyemi discussing with the Sierra Leonen Management team during their visit to the FRSC National Headquarters, Abuja

The Head of FRSC Signage Plant taking the team comprising DCM KA Adeleye,fdc, Head Policy, Research and Statistics and the Sierra Leone team around the FRSC Signage Plant in Gwagwalada, Abuja

#### **WARSO** President's Visit to FRSC

The President, West African Road Safety Organisation (WARSO) and Director General Agence Nationale pour la Sécurité Routière (ANASER) Mali Madame Doumbia Diadji Sacko and Madame MAIGA Bintou Aliou receiving a plaque from the Corps Marshal Dr Boboye Oyeyemi, MFR,mni,NPoM

The President West African Road Safety Organisation (WARSO) and Director General Agence Nationale pour la Sécurité Routière (ANASER) Mali, Madame Doumbia Diadji Sacko and Madame MAIGA Bintou Aliou, Legal Adviser ANASER were on a working visit to the Federal Road Safety Corps Nigeria from 20 -24 September, 2021. The visit was aimed at drawing experience and inspiration from FRSC Nigeria.

The President of WARSO was duly accompanied to all places visited by representative of FRSC; DCC Policy, Focal

Person WARSO and Staff Officer WARSO Secretariat respectively.

The activity comprised of warm reception by Corps Marshal and his Management Team, courtesy visits to the Embassy of Mali and ECOWAS Commission, tour of RS 7.1 FCT Command, Print Farm, Zebra 3 City Gate, Signage, and finally a wrap up meeting with FRSC Management.

Director General Agence Nationale pour la Sécurité Routière (ANASER) Mali Madame Doumbia Diadji Sacko and Madame MAIGA Bintou Aliou,

The Corps Marshal, Dr Boboye Oyeyemi presenting a plaque to the President West African Road Safety Organisation (WARSO) and Director General Agence Nationale pour la Sécurité Routière (ANASER) Mali Madame Doumbia Diadji Sacko.

# **National Council Meetings**

# National Council on Science, Technology & Innovation

The permanent secretary, Federal Ministry of Science, Technology and Innovation, Mr. Edet Akpan (third from left) flanked by ministry officials and other delegates at the National Council of Science, Technology and Innovation held from 20th-24th September, 2021.

National Council Meeting is organised by the government of the federation to review policy matters. In 2021, the FRSC attended various National Council Meetings such as National Council on Works, Transport, Education and many others.

In 2021, the FRSC delegates attended the National Council on Science, Technology and Innovation (NCSTI), held from Monday, 20th to Friday, 24th September, 2021 at the National Space Research and Development Agency (NASRDA), Obasanjo Space Centre, Abuja

The theme of the Council meeting was "Investment in Research and Development: A Necessary Tool to Improving Nigerian Economy". The Council's technical session was chaired by the Permanent Secretary, Mr. Edet Sunday with the Permanent Secretaries (or their representatives) in charge of Science, Technology and Innovation from

Adamawa, Bauchi, Benue, Enugu, Kano, Gombe, Niger, Plataeu, Sokoto, Ondo and FCT, Abuja,

Participants at the event were representatives of the Federal and States Ministries, Departments and Agencies (MDAs); Academia; Nigerian Air Force, Federal Road Safety Corps, Nigerian Customs Service, Organized Private Sector (OPS); International Organizations; Non-Governmental Organizations (NGOs) and the Media.

FRSC was duly represented at the meeting with the presentation of the following council memos:

- Standardization of development and Usage Of Traffic Control Devices In Nigeria: Need To Standardize The Development And Usage Of Road Traffic Control Devices In Nigeria.
- b. Implementation Of Speed Limiter

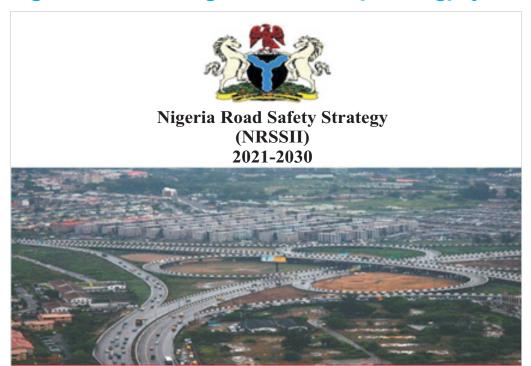

Installation In Vehicles In Nigeria: Need To Ensure Total Compliance By Motorists Especially Fleet Operators On Installation Of Speed Limiter In Their Vehicles In Nigeria.

# **Nigeria Road Safety Strategy NRSS-II (2021-2030)**

# Inauguration of the Nigeria Road Safety Strategy (2021-2030)

Front Cover picture of the NRSS II on display

Nigeria Road Safety Strategy is a rolling road safety blueprint derived from the need to make road traffic a safe venture in Nigeria.

The first attempt of the rolling plan was advanced as lessons learnt from NRSS-I (2011-2020). The lessons and gaps observed in NRSS-I triggered the NRSS-II with a view to closing the observed gaps which focussed on post 2020 Global Plan for Decade of Action for Road Safety, particularly the Second Decade of Action for Road Safety (2021-2030).

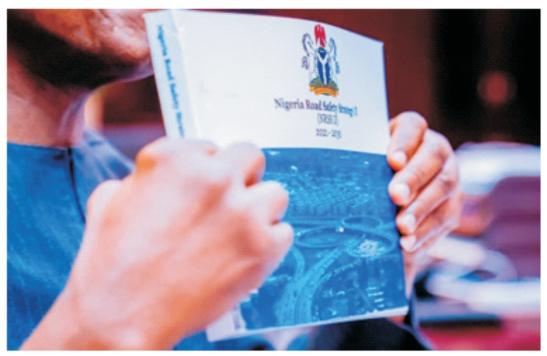

In 2021, the Federal Road Safety Corps and NaRSAC collaborated with other stakeholders and carried out the following activities:

a. The NaRSAC Chairman, the Vice President, Prof. Yemi Osinbajo, SAN, GCON asked for quick buy-in of stakeholders and especially FRSC staff whose key role is to enlighten members of the public for its implementation.

- b. Production of soft and hard copies of NRSS II (2021-2030) strategy document and distribution to stakeholders, MDAs, and States across the federation.
- c. Production of soft and hard copies of NRSS II (2021-2030) strategy (abridged version) which was basically a summary of the main document.
- d. Consulted with Permanent Secretary, Ministry of Finance, Budget and National Planning on decisions regarding budget for NaRSAC Secretariat in the fiscal year (2021)
- e. Enlightenment and sensitization of the members of the public on the implementation of the NRSS-II (2021-2030)

# **Presentation of NRSS by the Vice President**

Copy of the NRSS II on display

Nigeria Road Safety Strategy is an action plan designed as intervention strategy to mitigate road traffic crashes in Nigeria.

As a result of the approvals by National Economic Council (NEC) and Federal Executive Council (FEC), the Chairman of the Council, Professor Yemi Osinbajo, SAN GCON inaugurated and presented the NRSS II (2021-2030) on 17th June, 2021 for public use at the State House.

The presentation of the document led to the production of one thousand (1000) copies of NRSS II document for public consumption which was distributed across all strata of stakeholders, including the academia, International community and the press free of charge.

To further enhance the contents of the document, the FRSC/NaRSAC produced the abridged version which highlighted the salient points of the strategy.

To facilitate better understanding of the document, a draft copy of Frequently Asked Question (FAQ) was also developed.

To achieve uniformity, all states within the Federation are encouraged to inaugurate the State Road Safety Advisory Council (SaRSAC) in order to achieve seamless implementation of NRSS II (2021-2030) strategy.

As at December, 2021 twenty six (26) States SaRSAC have been inaugurated and they are Rivers, Adamawa, Benue, Imo, Jigawa, Ogun, Katsina, Lagos, Delta, Kaduna, Kwara, Nasarawa, Sokoto, Taraba, Osun, Cross River, Borno, Enugu, Akwa Ibom, Gombe, Ekiti, Abia, Zamfara, Edo, Ebonyi and Bauchi, while discussions are at advanced stage to bring others on board.

# **FRSC Logistics**

### **FG** Intervention Fund

Representative of the Secretary to the Government of the Federation, (SGF), Mr. Mbaeri Nnamdi, Permanent Secretary, General Services Office, in a handshake with the Corps Marshal during the inspection of the newly purchased vehicles

The Secretary to the Government of the Federation, (SGF), Boss Mustapha, was represented by the Permanent Secretary, General Services Office, Mbaeri Nnamdi during the inspection of the newly acquired operational vehicles and tow trucks for the FRSC.

The SGF commended the leadership of the FRSC for its doggedness in mitigating road traffic crashes in Nigeria.

It may be recalled that President Muhammadu Buhari approved intervention funds for the renewal of the Federal Road Safety Corps (FRSC) fleet and formations damaged during the 2020 #EndSARS protests across the country.

The representative of the SGF said the gesture was to facilitate the effective enforcement of road traffic regulations and to also rebuild the burnt office premises.

He added that the Federal Government acknowledges the contribution of the FRSC in the mitigation of Road Traffic Crashes (RTC) and fatalities on the nation's highways.

Mr. Mbaeri Nnamdi, Permanent Secretary, General Services Office, with the Corps Marshal in one of the vehicles

Mr. Mbaeri Nnamdi, Permanent Secretary, General Services Office, inspecting the newly purchased vehicles

The SGF said the government will continue to support these efforts through approvals for infrastructural development, vehicles, equipment and welfare of the personnel. The Corps Marshal disclosed to the SGF's representative that the Corps lost many fleets to attacks by hoodlum who damaged the FRSC property in the wake of the #EndSARS violence of October 2020.

The SGF enjoined the Corps to put these newly acquired vehicles to effective use in ensuring the safety of road users. He therefore, implored motoring public to

always obey traffic regulations and embrace good road safety culture as road safety is a collective responsibility.

He added that FRSC needed to engage critical stakeholders and concerned parties to ensure that crashes involving petroleum tankers receive adequate attention.

Corps Marshal introducing some of the Management Staff to Rep. of the SGF Mr. Mbaeri Nnamdi, Permanent Secretary, General Services Office

Some of the newly purchased vehicles on display in 2021

Some of the newly purchased Motorbikes and vehicles on display in 2021

He admonished the Corps on the implementation of the safety valves installation on tankers/trucks.

He directed that serious action should be taken to forestall the spillage of its contents in the event of crash by this category of road users.

According to his observation the attendant

explosions associated with this class of heavy-duty vehicles on the highways has become a perennial issue that must be contained especially at the Benue and Bauchi axis.

# **Procurement/Fleet Management**

Fleet management is the management of vehicles such as cars, vans, trucks, specialist vehicles, forklifts, and trailers. Logistics is the mainstay of the FRSC as all the activities of the FRSC revolves around the use of vehicles for administrative purpose, enforcement and operational use.

Therefore vehicles are very important assets in FRSC as it is the authority equipment of the Corps. The Corps keeps varieties of vehicles such as sedan, ambulances, light pickup, heavy duty and light duty tow trucks and others.

This enables the Federal Road Safety Corps to discharge its responsibilities such as patrol activities, enforcement, rescue operations and clearing of obstacles among others.

In 2021 a total of one hundred and nine (109) vehicles including eighteen (18) powerbikes were injected into the Corps' fleet comprising Staff Cars, utility vehicles, ambulances, Mini-buses and pick-up vans through procurement and donation.

Details of the vehicles are presented on the next page of the report:

# **Permanent Office Building Projects and other Infrastructures in 2021**

# **Inauguration of Kebbi State Sector Command's New Office**

The Executive Governor, Kebbi State, Senator Abubakar A. Bagudu cutting the tape to officially commission the new office complex for Kebbi State Sector Command in Birnin Kebbi, Kebbi State on 25th November, 2021.

Governor of Kebbi State Senator, Abubakar A. Bagudu on Thursday, 25th November, 2021 inaugurated the new Kebbi State Sector Command permanent office complex of the Federal Road Safety Corps in Birnin kebbi.

The Governor who was accompanied by the State Executive Council members commended the efforts of the Federal Road Safety Corps in making sure the roads are safe at all times. He added that the State is glad that after allocation of the piece of land to the FRSC, the Federal Agency made the completion of the edifice a reality. The Governor promised to provide furniture as a way to encourage and motivate the personnel as they discharge their duties in the State.

The Governor commended the efforts of the FRSC in the State and added that with few personnel, the operatives are all over the state. He appreciated the Corps for

establishing its presence in the state and for building a befitting edifice at a strategic location in Kebbi State. He commended the FRSC Chairman for his uprightness and goal getting acumen. He promised further collaboration with the Corps in its activities in the State. The Governor congratulated the FRSC State Command for the new office complex.

The Corps Marshal, Dr Boboye Oyeyemi was the host of the executive Governor of Kebbi State and his cabinet members. Others present at the inauguration were the chairman, Federal Road Safety Commission, Mallam Bukhari Bello, MFR, mni, F.DRI, traditional rulers, NYSC Road Safety Club and State executive of the Special Marshals.

The highlights of the occasion included the cutting of the tape by Governor Bagudu and the facility tour of the new office complex.

# **Inauguration of Jigawa State Sector Command's New Office**

Picture of the new office Complex of Jigawa Sector Command in Jigawa State

Governor of Jigawa State Muhammad Badaru Abubakar, MON, mni inaugurated the new Jigawa State Sector Command permanent office complex of the Federal Road Safety Corps in Dutse, Jigawa State.

The Governor was accompanied by the State Executive Council members and commended the efforts of the Federal Road Safety Corps in making sure the roads are safe at all times in Jigawa State.

The Governor expressed his commended the FRSC management on the speed of development of the plot of land allocated by the State to the Corps. For making the completion of the edifice a reality, he promised to assist the Corps in any way possible to further motivate the personnel.

He reiterated the State government's commitment in establishing a strong relationship with the Corps. He added that the location of the office is strategic and commended the FRSC Chairman for his efforts in ensuring the promotion of road safety in the State.

He promised more collaboration with the Corps in its activities to ensure that roads are safe across the State.

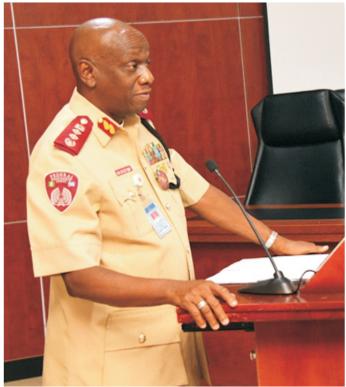

The Corps Marshal Dr Boboye Oyeyemi who hosted the Executive Governor of Jigawa State and his cabinet members promised increased surveillance across the State to mitigate road traffic crashes. Dignitaries at the inauguration included FRSC Chairman, Mallam Bukhari Bello, MFR,mni,F.DRI, traditional rulers, NYSC Road Safety Club and State executive of the Special Marshals.

The highpoint of the inauguration was the cutting of tape by His Excellency, Muhammad Badaru Abubakar, MON, mni who led other delegates on a facility tour of the new office complex.

# **Operational Strategy** Session

# **High Command Strategy Session**

Corps Marshal, Dr. Boboye Oyeyemi, MFR, Mni, NPoM delivering the keynote address during the high Command Strategy Session

Top Management Staff, twelve (12) Zonal Commanding Officers and four Commandants of the FRSC institutions constitute the FRSC High Command. The Q4 session was organised to review the performance of Field Commands in order to set the tone for the preparation of the 2022 Strategic Goals. The convocation of this session is four (4) times yearly (Q1, Q2, Q3, and Q4).

The 2021 session was convoked at the instance of Corps Marshal at the Nigerian Army Resource Centre, Asokoro, Abuja on Wednesday, December 8, 2021.

The Corps Marshal, Dr. Boboye Oyeyemi, MFR, Mni, NPoM delivered the keynote address with the following highlights:-

- The Session was in furtherance of the Corps' belief in continual improvement on its processes and procedures.
- The Corps has an unwavering

disposition toward physical infrastructure and capacity development.

- Management had recognized the contributions of the past Corps Marshals and Chairmen of FRSC Board, thereby, naming facilities after them at FRSC Academy, Udi.
- Inauguration of eighteen (18) Sector Command Office complexes
- Participants to avoid anything capable of tarnishing the Corps Corporate image.
- Ensuring effective monitoring of personnel and ease of doing business,
- Establishment of 34 Traffic Control Points and the activation of 26 Help Areas to cater for rescue and recovery.
- The 2021 promotion exercise would commence in February, 2022 in line with guidelines governing FRSC Promotions and Public Service Rules.

Corps Marshal, Dr. Boboye Oyeyemi, further made a presentation titled "Reviewing Trends in the Corps to reposition for 2022" with the following highlights-

- i. FRSC Academy to commence Degree and Post Graduate Studies in Road Safety Management with a signed MoU with Federal University of Technology Owerri (FUTO),
- ii. Inauguration of the National Traffic Radio (NTR) in Abuja.
- iii. Infrastructural advancement in all the FRSC Training Institutions and successful commencement of FRSC Command and Staff College.
- iv. Establishment of Field Operations Monitoring Control Centre and use of Body Worn Camera by Patrol Operatives.

DCM (Ops), DCM Kayode J. Fanola, mni made a presentation on "Corps Overall Operations Zero Strategic Plan" with the following highlights:-

a. The Corps' vision for institutionalizing "Operation Zero

Tolerance" is borne out of the fact that no Road Traffic death is acceptable and it is possible to achieve zero deaths if the right things are done at the right time.

- b. As part of preparations towards the activities of 2021 Operation Zero Tolerance, the following Action Plans were to be activated:-
- i. Traffic count data on the routes with high traffic volume.
- ii. Deployment of Patrolmen to major routes with incidences of RTCs to ensure Zero Crash.
- iii. Traffic Control Camps at traffic jam areas.
- iv. Deployment of Community First Responders.
- v. Deployment of body camera for patrol operatives.
- c. A Situation Room will be set up and manned for 24 hours throughout the period of Operation Zero Tolerance.
- d. Collaboration with Sister Security Agencies.
- e. Aerial Surveillance during the Yuletide Operations.

DCM Kayode J. Fanola, mni, DCM Operations making a presentation

The 12 Zonal Commanding Officers made the various presentations on "Operation Zero Strategic Plans", towards achieving a successful End of Year Special Patrol Operations:-

ACM Godwin O. Omiko Ph.D, FICA

Zonal Commanding Officer, RS1HQ Kaduna, ACM Godwin O. Omiko Ph.D, FICA, made presentation with the following highlights:

- Ember Month Campaigns: Commands within the Zone had kickstarted ember month's campaign with public enlightenment targeted at motoring public.
- Clearing of obstruction: Arrangement had been made with private tow trucks at various Commands to ensure immediate removal of obstructions.

Zonal Commanding Officer, RS2HQ Lagos, ACM Peter Kibo fdc, highlighted the following in his presentation:-

- The Zone developed home grown initiatives to include:
- Patrol Operations/Mobile Courts i.
- ii. Breathalyzer Test
- Public Enlightenment iii.
- Stakeholders Engagement iv.
- Traffic Control/Traffic Count V.
- vi. Prompt Rescue Services

ACM Peter Kibo fdc,

ACM Peter Osadebamwen mni,

Presentation made by Zonal Commanding Officer RS3HQ, ACM Peter Osadebamwen mni, included the following:-

- Rescue Operations: Ambulances were to be deployed to all critical points to respond appropriately to any crash.
- Public Enlightenment would be carried out to sensitize motoring public.
- Traffic Counts would be conducted iii. from 15 December, 2021 to 2 January, 2022.
- Personnel would be deployed to traffic jam areas.

ACM Wobin A. Gora fsi,

Highlights of the presentation made by Zonal Commanding Officer RS4HQ Jos, ACM Wobin A. Gora fsi, were as follows:-

- The Command's action plan were:-
- i. Special Patrols.
- Mobile Court Sittings. ii.
- iii. Synergy/Collaboration with Stakeholders.

ACM Andrew A. Kumapayi, FHNR

Presentation made by Zonal Commanding Officer RS5HQ Benin, ACM Andrew A. Kumapayi, FHNR, were as follows:-

Deployment of personnel. i.

- Collaboration with Sister Security ii. Agencies.
- Removal of obstructions from the iii. road.
- iv. Prompt Rescue Operations.
- Visibility Patrol. v.
- Traffic Control. vi.

ACM CB Nkwonta, Esq, fwc

The presentation made by Zonal Commanding Officer RS6HQ Port Harcourt, ACM Chidi B. Nkwonta, Esq, fwc had the following highlights:-

- Enforcement through optimal I. utilization of personnel and resources.
- Deployment by positioning resources at critical points.
- Traffic Control. iii.
- Rescue Operations. iv.
- Public Enlightenment. v.
- **Advocacy Visits** vi.
- Mobile Courts. vii.

ACM Jonas Agwu, mni,

Presentation made by Zonal Commanding Officer RS7HQ Gwarinpa Abuja, ACM Jonas Agwu, mni, had the following action plans:-

- Collaboration with relevant a. Stakeholders.
- Aggressive Public Enlightenment b.
- Deployment of personnel to c. Strategic Points
- Surveillance d.
- Deployment of operational vehicles, bikes

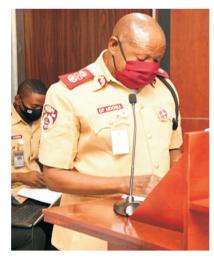

ACM Hyginus U. Omeje,

The presentation made by Zonal

Commanding Officer RS8HQ Ilorin, ACM Hyginus U. Omeje, consisted of the following highlights:-

- Joint Road Audit with Stakeholders.
- ii. Collaboration with Federal/State Ministry of Works to ensure installation of appropriate road furniture.
- Deployment of personnel and iii. logistics.

ACM Francis O Udoma

Highlights of the presentation made by ACM Francis O Udoma, Zonal Commanding Officer, RS9HQ Enugu were as follows:-

- Deployment of staff to strategic I. areas.
- Collaboration with Sister Security ii. Agencies.
- iii. Surveillance.
- Public Enlightenment and Advocacy Visits.

ACM Ramalan M. Yerima fwc

The Zonal Commanding Officer RS10HQ Sokoto, ACM Ramalan M. Yerima fwc, made a presentation with the following highlights as part of the Command's action plans:

- i. Clearing the roads of obstructions across the Zone.
- ii. Special Patrol focusing on critical offences.
- iii. Capacity building for patrol Officers.

The Zonal Commanding Officer RS11HQ Osogbo, ACM Emmanuel O. Abe, made a presentation with the following highlights:

- i. Strategic deployment of personnel and logistics for patrol visibility.
- ii. Removal of obstruction to allow traffic free flow.
- iii. Unrestrained public enlightenment.
- iv. Synergy with relevant stakeholders.
- v. Prompt Rescue Services.

ACM Emmanuel O. Abe

Highlights of the presentation made by Zonal Commanding Officer RS12HQ Bauchi, ACM Rotimi T. Adeleye, MNIM, included the following:

- i. Aggressive Public Enlightenment in Motor Parks, Worship Centre, Radio Programmes etc.
- ii. Stakeholders' consultations.
- iii. RTC prone areas and traffic gridlock areas were identified and flagged to prevent road users.

ACM Rotimi T. Adeleye, MNIM

# **Capacity Building Workshop**

Capacity Building Workshop For Admin, Monitoring and Evaluation Officers was held On Thursday 25th February, 2021. The Workshop, themed "Building a Result-Based Monitoring and Evaluation System" is a direct fallout of the observations in the implementation of performance Management System over the years.

The Corps commenced implementation of Performance Management System in 2011 with a view to ensuring that the Corporate Performance Scorecard is a reflection of the aggregate performance of the individual staff of the Corps. The Workshop was aimed at re-educating Admin, Monitoring and Evaluation Officers on the use of relevant veritable tools to evaluate individual staff contributions that will culminate into the Corporate Performance Scorecard.

The Workshop was attended by the Corps Marshal, DCM (AHR), ACM (CS), ACM (M&E), CIO, Admin and M&E Officers of all Departments, Corps offices, Special Units and RS7HQ with its component Commands.

The Corps Marshal addressed the personnel as follows:

- a. The Federal Executive Council has stressed the need for a strong M&E Unit.
- b. The COVID-19 Pandemic and the ENDSARS protest made it difficult for the Corps to fully achieve its 2020 goals.
- c. M&E is a critical tool to measure productivity and performance of the Corps.
- d. The Federal Government has approved a 10.5 Billion intervention fund for the Corps to improve its logistics.
- e. The African Development Bank has also approved the FRSC Academy to be a Regional Centre of Excellence in Road Safety.

Corps Marshal Dr Boboye Oyeyemi, giving an address during the capacity building

DCM IO Ewhrudjakpor, fdc, NPoM addressing the participants at the event

Presentations were made on the following:

- A. Monitoring and Evaluation: A veritable Tool for Ensuring Efficient and Effective Productivity, presented by DCC Maurice Okoye (DCC NSRP) with the following highlights:-
- I. Introduction of the aim and the objective, definition of major terms used, as well as differentiation and use of the terms monitoring and evaluation.
- ii. Explanation of implementation and monitoring, and essence of Monitoring and Evaluation as a veritable tool for efficient and effective productivity.
- iii. The need to eliminate distraction in workplace, building team spirit, feedback, and ethics.
- iv. Identification of the realities of M&E, challenges, and way forward.

The presentation on the role of Monitoring and Evaluation Officers in FRSC was also delivered with the following highlights:

- a. Introduction
- b. Monitoring
- c. Evaluation
- d. Monitoring and Evaluation Compared
- e. Functions of M&E Officers
- f. Sample Job binder of M&E officers
- g. Way forward

#### Conclusion

2021 Corporate Strategic Goals and Assessment Parameters was delivered with the following highlights:-

- a. 2021 Corporate Strategic Goals
- b. 2021 Corporate Strategic Goals template
- c. Assessment parameters for RSHQ departments and Corps Offices
- d. Assessment Parameters for field Commands
- e. Recommendations
- f. APER Rating

DCC Maurice Okoye, DCC NRSP delivering a lecture at the occasion

#### g. Challenges

The following were noted during the workshop

- a. Any activity distracting the officer should be reported for proper actions to the Commanding Officer.
- b. All resources and templates needed to carry out the job would be forwarded to the officers.
- c. Monitoring of Commands are been instituted by PIU and the M&E should raise observations with the Command's Intelligence Officer if review meetings are not held.
- d. M&E officers should take full ownership of their job, while taking into consideration the principle of friendliness, fairness and firmness.
- e. Operations Department templates are used to assess field Commands.
- f. Alternative arrangements for resource person should be made within the immediate environment, amongst others.

# **Capacity Building for Security Agencies**

Participants from various Security agencies in a group picture with Corps Marshal Dr. BO Oyeyemi

In its bid to actualize the Corps' strategic goals of broadening and sustaining Stakeholder's engagements, the Federal Road Safety Corps organized a one-day Workshop on data sharing with the theme "Sustaining Effective Data Sharing for National Development" for security agencies. This was aimed at introducing other security agencies to FRSC data platforms for better collaboration purposes.

The workshop was attended by the Secretary to the Government of the Federation, Mr. Boss Mustapha, ably represented by the Permanent Secretary for Economic and Political Affairs, Mr. Andrew David Adejoh

Other participants were drawn from Office of the National Security Adviser (ONSA), the Nigerian Police Force (NPF), Nigerian Army (NA), Department of State Services (DSS), Economic and Financial Crimes Commission (EFCC), Independent Corrupt Practices and other Related Offences Commission (ICPC), Nigerian Customs Service (NCS), Nigerian Immigration Service (NIS), Nigerian Financial

Intelligence Unit (NFIU), National Drug Law Enforcement Agency (NDLEA), Defence Intelligence Agency (DIA) and Defence Headquarters.

The Corps Marshal, Dr. Boboye Oyeyemi, MFR, mni, NPoM addressed the session where he stated that the training was aimed at providing a medium to enlighten participants on the FRSC Data system model and how to access specific real time response.

The CM informed the participants that the initiative of opening up access to the critical database of the National Vehicle Identification Scheme (NVIS), the National Drivers Licence (NDL) and Duty Room Information Management System (DRIMS) was conceived six (6) years ago.

Hence, the workshop was also to acquaint other security agencies with the development and progress in the Corps data management strategy and contemporary innovations to meet the current reality. He highlighted that the Corps has successfully completed the process of data harmonization

The Corps Marshal, Dr. Boboye Oyeyemi, MFR, mni, NPoM

with the National Identity Management Commission (NIMC). The Corps Marshal concluded by urging all security agencies to synergize in initiating and implementing measures that are required within their mandate to tackle security challenges in Nigeria.

The keynote address was delivered by Rep. Chief of Army Staff, Major Gen. HPZ Venteneba who commended the Corps Marshal for sustaining the capacity building workshop on data sharing for years as it will immensely assist to uncover the identity of evil perpetrators in the country. He informed participants that the incumbent Chief of Army Staff Lt. Gen. Attahiru Ibrahim on assumption of duty made it clear that he will reposition the Nigeria Army for effective service delivery. He therefore assured that the capacity building workshop would serve as a springboard towards curtailing the security challenges

### confronting the Nation.

Rep. Chief of Army Staff; Major Gen. HPZ Venteneba

Rep. of the SGF, Mr. Andrew David Adejoh, the Permanent Secretary for Economic and Political Affairs

The representative of Secretary to the Government of the Federation, the Permanent Secretary for Economic and Political Affairs in SGF Office, Mr. Andrew David Adejoh appreciated the Corps Marshal for consistency in organizing security workshops on annual basis. He reiterated that kidnapping, banditry and robbery are major threats to National Development but could be effectively confronted if all security agencies work together. He added that the Federal Government will continue to provide support within its lean resources for funding of the Corps activities.

Other papers presented during the session included the following

- ☐ Data Sharing and Security in National Development with the following highlights
- ☐ National Vehicle Identification database: A veritable platform for effective security and
- □ National Uniform License Scheme database: A tool for National Security with

the following highlights

- a. The elements of digital data security include confidentiality, integrity, availability, authenticity and non-repudiation.
- b. FRSC maintains and secures data on all registered vehicles for security purposes.
- c. FRSC performs other key roles in National Security such as Road Audit and restriction on registration of stolen vehicles.
- c. The Corps commenced digital storage of data on all vehicles in 2011.
- d. Educated participants on the process of vehicle registration.
- e. Urged participants to synergize on intelligence sharing.
- f Explained the tripartite arrangements amongst FRSC, VIO and BIR as regards their roles in the process of NDL and Number Plates.
- g. Concluded by carrying out a practical demonstration of how to verify the authenticity of a National Drivers Licence by login into www.nigeriadriverslicence.org

# **Legal Matters**

# **Legal Matters**

A Traffic Mobile Court in Session

The Federal Road Safety Corps was established through a statute called "Enabling Act" which defines the scope of the agency's authority. Therefore, the Corps was established vide the FRSC (Establishment) Act, 2007 and among other tasks, is to handle traffic management and prevent road traffic crashes on Nigerian highways.

Some other legal documents were developed from the Establishment Act. For instance, National Road Traffic Regulations (2012) came into being to give effect to the Geneva Convention on Road Traffic of September 1949 and the Vienna Convention on Road Signs and Signals on November, 1968.

The Corps derived its authority from the above mentioned documents which include Litigation, Legal Drafting, Conveyance (LDC), Disciplinary Panel (FDP) and Transparency Section amongst others.

#### Bill to the National Assembly

Year 2021 was unprecedented with activities as the FRSC prepared and

forwarded to the National Assembly four (4) different Bills for the establishment of FRSC Training Institutions as named below:

- A bill for an act to establish the FRSC Academy, Udi Enugu State.
- A bill for an act to establish the FRSC Command and Staff College (FCSC), Ibadan, Oyo State.
- A bill for an act to establish the Marshal Inspector Training School Owa-Alero, Delta State.
- d. A bill for an act to establish the Road Marshal Assistant (RMA) Training School.

The above mentioned bills deal with an act to establish FRSC Training Institutions. When the acts come into effect, it will give legal backing to the establishment of these four (4) Institutions.

#### **Total Cases Handled**

A total of one hundred and eighty six cases consisting of 122 civil and 64 criminal cases were handled during the year under reference in various courts across the country.

#### **Mobile Courts**

A total of 336 Mobile Court sittings were conducted nationwide, where 6449 offenders were prosecuted, 4887 were convicted of various traffic related offences and 562 offenders discharged. This is aside the 64 pending criminal cases in 2021

#### Memoranda of Understanding (MoU)

The Corps prepared 14 Memoranda of Understanding (MoU) among which was the Memorandum of Understanding between the Corps and the Federal University of Technology Owerri. There were 71 Tenancy Agreements executed while 65 other Agreements were executed.

### **Alternative Dispute Resolution (ADR)**

In order to promote FRSC public relations the Corps deployed the mechanism of ADR to resolve four (4) critical issues that could have affected the public relations of the Corps.

# Freedom of Information (FoI) Act, 2011 Desk

The Corps continued with strong compliance with the provisions of the Freedom of Information (FoI) Act 2011 and was ranked 14th out of the 213 Public Institutions on the **Freedom of Information (FoI)** FoI compliance ranking list.

# **Safe Corridor Project**

# **RSDT Projects Financed by IDA:-**

Under the framework of the FRDP, RSDT is currently implementing road rehabilitation upgrading and maintenance; Institutional strengthening and policy reform; road safety improvements with the credit from the World Bank; and additional funding from the Africa Development Bank (AdDB) for the rehabilitation of two road sections under the Nigeria-Cameroon transport facility project (Abakaliki-Ogoja Junction road Route 23/A343 and Ikom-Mfum road Route 90/A.4-2). Works in these two Sections have been completed. One of the sections, specifically Ikom-Mfum, is being proposed as a pilot program for the OPRC maintenance concept

These projects are being executed with 90% World bank funding and 10% counterpart funding from the Nigerian Government.

The Federal Road Safety Corps with funding by the World Bank co-ordinates the Safe Corridor Project which is a Safety Subcomponent of the Federal Road Development Programme (FRDP)

The Federal Road Safety Corps has been undertaking the Safe Corridor Project of the Federal Roads Development Programme (FRDP) under the Federal Ministry of Works and Housing. Although the project has been rounded up, the Corps is currently reaping the benefits of the project in the different safety components of the project.

There were six (6) corridors identified as highly crash prone and lacking road safety pre and post intervention infrastructures to mitigate road fatalities.

The project focussed on the rehabilitation and safety enhancement of the following six "Unity Roads":

☐ Mokwa-Bida-Lambata-Suleja

	Enugu-A	baka]	liki-	Ikom-	Mfun
(Can	neroon Boarde	er)			

- ☐ Benin Ifon-Owo-Ilesa
- ☐ Jos-Bauchi-Gombe
- ☐ Abuja Metropolis

The Safety Component of the safe corridor involved the following key activities:

- a. Safety Engineering.
- b. Enforcement.
- c. Implementation of the Emergency Medical Services.
- d. Training, Technical Assistance and Policy Development.

Monitoring and Evaluation

As part of the project, FRSC in the year under review put machineries in place for effective monitoring of the progress of the project at different corridors.

.... Promoting Better Road Culture

# **Senate Committee on Federal Character and Inter Governmental** Affairs/FRSC

The National Assembly has been an ally and partner of the FRSC in the enactment of road traffic laws and regulations in the country especially through the reviewing of the existing road traffic laws and regulations to mitigate the incidences of road crashes.

In line with the oversight function of the National Assembly, the Senate Committee on Federal Character and Inter-Governmental Affairs paid a working visit to the Federal Road Safety Corps, National Headquarters Abuja on the 7th June, 2021.

and some Core Management Staff accompanied the Committee members on a facility tour of the FRSC premises to acquaint them with the workings of the Corps.

During the tour, the Honourable members visited the National Traffic Radio (NRT) 107.1 FM, the Call Centre and other important facilities domiciled at the National Headquarters. Some of the challenges facing the Corps were discussed and solutions were proffered.

On this auspicious visit, the Corps Marshal

The Corps Marshal, FRSC, Dr Boboye Oyeyemi taking the Senate Committee on Federal Character and Inter Governmental Affairs on a tour of the RSHO during its working visit to RSHO in Abuja on 7th June, 2021

# National Traffic Radio (NTR) 107.1 FM, Abuja

#### Inauguration of the National Traffic Radio (NTR 107.1 FM)

Inauguration Of National Traffic Radio (NTR 107.1) By Prof. Yemi Osinbajo Vice President of the Federal Republic of Nigeria) On 15th June, 2021

In its unflinching resolve to entrench safety on Nigerian roads by an extensive reach-out to road users, the Federal Road Safety Corps made an unprecedented milestone in 2021 with the inauguration of the National Traffic Radio (NRT) 107.1 FM.

The Vice President Federal Republic of Nigeria, Prof. Yemi Osinbajo declared the station officially open on 15th June, 2021 at the Headquarters of the Federal Road Safety Corps Abuja. While declaring the station open for operations, the Vice President said the station will provide access to relevant information, as part of efforts to ensure road safety and improve the traffic situation across the country.

During the inauguration ceremony, the Vice President Prof. Yemi Osinbajo, SAN,GCON anchored a programme and gave the traffic update after the inauguration of the National Traffic Radio, 107.1 FM.

Among his words were:

"Good afternoon: Wherever you are in this great country, "this is Yemi Osinbajo, your always ready, always accurate traffic reporter" "updating you on the traffic situation across the nation" "So, let's go to the FCT", "as of a few minutes ago, the Keffi-Abuja inward section, traffic from Nyanya under the bridge to Kugbo, toward the city centre is slightly free-flowing".

"No impediments reported" "Umaru Musa Yar'adua way, the situation report shows that there is free flow of traffic on both sections of the expressway". "Kubwa-Katampe, Wuse-Berger, traffic services unit reports affirm that there is seamless traffic flow with moderate movement of vehicles.

Vice-President Yemi Osinbajo, as a radio host as he presents live updates on the traffic situation across the country

The Corps Marshal Dr. BO Oyeyemi, thanked the Vice President for honouring the invitation to inaugurate the national asset. He said the journey for the idea of the radio station began in 2014 when he came into office, having studied the Lagos Traffic Radio, and decided that it can be taken to the national level.

He added that the phase one covers Abuja and environs and it is also on the Google play store. Members of the public can download National Traffic Radio app and listen to it in any part of the country, while the station is located and streamed on the website.

He added that the glory of the station is not of the Corps but of the present Administration of President Mohammadu Buhari and Nigeria . According to him, the country now has a National Traffic Radio where traffic situation nationwide and crash reports can be gathered on hourly basis.

He also encouraged road users to always

report cases of broken-down vehicles or crashes through the toll-free line 122 or call the traffic radio studio for assistance.

He further said that the dream is to get the public involved in road safety management as safety is a collective responsibility. He implored Nigerians to join hands with the FRSC to ensure that carnage is reduced on Nigerian highways,

In the same development, the National Traffic Radio commenced a 24-hour broadcast in 2021. The innate passion for keeping people informed for 24-hour-a-day has endeared people to the station.

The station now lives to the expectation of "News Never Sleeps". This has resulted to the boosting of the listenership of the NTR.

### **Safe Corridor Project**

The Corps, despite the positive impact of the World Bank on Nigeria's road safety activities in recent years is focused on the following potential support areas by the Bank

- a. Engagement of an expert for the supply, implementation and deployment of a National Road Traffic Crash Data Management System. The design has been completed but the App is yet to be developed.
- b. Institutional Training:
- ☐ Renewed funding to promote and facilitate staff exchange programs for Federal Road Safety Corps staff to work with traffic police jurisdictions in the US or any other part of the World where their capacity can be enhanced.
- ☐ Enhance and expand the Community Post Crash Road Safety Initiative on more Corridors.
- ☐ Accident Investigation Courses.
- c. Creating of More Corridors: Expansion of existing six (6) Corridors to

- Eighteen (18) to aid the Corps achieve the 50% RTC fatality reduction requirement of UN Decade of Action.
- d. Fleet Renewal: The current Operational Fleet is getting old. In this respect, renewal of the Operational Fleet is paramount to the sustenance of the Project.
- e. 10 Years Financial Rolling Plan: There is a 10 Year Financial Rolling Plan to sustain the projects.
- f. Conclusion of the National Road Traffic Crash Data Management System.
- g. Renewed engagements with other stakeholders to sustain the project.
- h. Annual review with the World Bank every January along with the Transport Research Board Meeting
- 6. The Safe Corridor Project in Nigeria has been a huge success. It has greatly impacted on the operations and capacity development of the FRSC personnel.

# **Quality Management System**

#### **Quality Management System**

ISO team of the Federal Road Safety Corps

The adoption of Quality management system (QMS) in FRSC is a thrust to ensure that policies, processes and procedures required for planning and execution of programmes and projects in the Corps impact on the organization's ability to meet customer requirements.

The primary functions of the Quality Management System Unit are:

- Implementation of the QMS in the Corps through:
- Documentation of all Corps Processes and Procedures.
- Review and circulation of FRSC documented information such as Quality Manual, Quality Policy etc.
- Conduct of System Audit of all the processes of the Corps.
- Conduct of Follow-up audit to close-out the nonconformities detected during system audits.
- Organisation of Management review meeting at least once in a year.
- Conduct of awareness programmes on QMS implementation in the Corps.

- Sustenance of the ISO 9001 Certification of the Corps.
- Review of Standard Operating Procedures (SOPs) prepared by Departments, Corps Offices and Special Units as directed by Corps Marshal.
- Development of SOPs for special purposes whenever the Management directs.
- Conduct of intervention audit where system failure is observed within the system.

Besides the above, the focus Unit ensures that the Corps operates in line with the confines of the Quality Management System (QMS) as documented in the FRSC Ouality Manual. Therefore, the Unit was able to strengthen the processes of the Corps for effective service delivery in 2021.

The following major activities were carried out during the year under review:

- In Continuation of the Unit's efforts towards examining the Corps' processes to ensure compliance with ISO 9001:2015 Standard, the underlisted audit exercises were conducted within the review period:
- Internal System audit of RSHQ, i. Zonal Commands, Sector Commands, NVIS Plants, Print Farm, Academy and Training school.
- Follow-up audit of RSHQ, Zonal Commands, Sector Commands, NVIS Plants, Print Farm, Academy and Training school.
- iii. Internal System audit of Zebra and RTC Clinics.
- Follow-up Audit of Zebra and RTC iv. Clinics.
- Audit of DLCs, Work Stations and V. **NVIS Desk Offices.**
- Follow-up audit of DLC Workstations and NVIS Desk Offices.
- vii. Audit of Unit Commands and Out posts.
- Follow-up audit of Unit Commands viii. and Outposts.
- ix. Intervention audit of Print farm, FRSC Cooperative Shop and CITO.

- All the One thousand, five hundred and twenty-one (1,521) nonconformities generated from various formations in 2020 were successfully resolved through followup audits.
- To further strengthen the competency of the Internal System Auditors, the first ever FRSC System Auditors retreat was organised by the Corps with a theme: Effective Quality Management System as a Tool for National Growth: FRSC experience" on 18 September, 2021 at Chida International Hotels, Utako Abuja. The Management Representative (MR) and other resource persons from the Standards Organisation of Nigeria presented papers. The retreat was aimed at enhancing the effectiveness of the auditors and identifying operational gaps with a view to proffering solutions for the improvement of Quality Management System in the Corps
- Review of Standards Operating d. Procedure (SOPs) of various offices.
- OMS awareness lectures were carried out across all the Zebras, RTC Clinics and Outposts.
- ISO recertification audit of the f.

9001:2015 QMS implementer and auditors,

# 2021 ISO Re-certification Audit of the Corps by the Standards Organisation of Nigeria (SON)

The ISO recertification audit of the Corps in line with ISO 9001:2015 Quality Management System was conducted by the Standards Organisation of Nigeria (SON) between 8 and 16 December 2021 in Eleven (11) formations of the Corps namely: the National Headquarters, FRSC Academy Udi, RS 2.1 Lagos Sector Command, Lagos NVIS Plant, Signage Plant Gwagwalada, RS 5.24 Ughelli Unit Command, RS11.22 Owo Unit Command, NVIS Mini Plant Kano, RS 8.3A Lokoja Outpost, Sagamu

Members of the High Table, Left to Right:CC HT Mohammed, Engr T Abner (SON), DCM JK Fanola mni, ACM AA Olukoju and Engr. O Alade (SON) during the 2021 Retreat for FRSC System Auditors

ACM Abayomi A Olukoju PSO-CM/MR delivering a welcome Address during the 2021 Retreat for FRSC System Auditors.

RTC Clinic, Zebra 14, Airport Junction, Gombe.

The main objectives of the Audit were to:

- i. Confirm that the Corps' Quality management system conforms with all the requirements of the audit standard.
- ii. Confirm that the organisation has effectively implemented the planned management system.
- iii. Confirm that management system is capable of achieving the organisation's policy objectives.
- iv. Assess the measurement and performance of the system over the past three years.
- v. Verify adequate use of logo.

The audit was based on all the 10 Clauses of ISO 9001:2015 standards except Clauses 2 & 3 which are normative references and Terms and Definitions.

### **ROSOWA Activities**

#### **ROSOWA Activities**

ROSOWA members during hospital visit for the 6th UN Global Road Safety Week 22nd May 2021.

The Road Safety Officers Wives' Association (ROSOWA), a non-profit, Non-Governmental Organisation (NGO), is an association of women married to Officers in the service of the Federal Road Safety Corps (FRSC). The following are some of the key activities of the association for 2021:

In her 2021 New Year message, the National President, Mrs Bolanle Oyeyemi enjoined members nationwide to be more calculated in all they do throughout the year by creating alternative sources of income especially through self development, empowerment programmes and vocational/business skills such as: making of liquid soap, air fresheners, throw pillows etc. She also enjoined them to enhance their capacity in life skills like catering and tailoring, etc for more economic independence.

The commemoration of the 6th United Nations Global Road Safety week took place from 17th-23rd May 2021, with the theme 'Streets for life (#Love 30)'. ROSOWA actively participated in all the activities to mark the week ranging from the joint press conference up to the hospital visit to Maitama District Hospital led by the National President where donations of hospital consumables, stretchers, wheel chairs etc were made to the hospital management

ROSOWA President held a virtual meeting on Child Safety strategy designed by World Bank Group to discuss a workable document for child Safety in Nigeria on 2nd June 2021 with an impressive participation from ROSOWA members Nationwide. This was replicated in all Commands of the Corps in order to sensitize both ROSOWA members and staff of FRSC on "Sexual Harassment and Gender based violence."

ROSOWA members during a vocational and skill acquisition programme

ROSOWA President Mrs Bolanle Oyeyemi attended the Corps Marshal's Golf Tournament and unveiling of the Corps Marshal's hole 11 Back 9 at TYB/IGRCC Mambilla barrack Asokoro Abuja on Saturday 7th, August 2021.

The National President attended the sendforth ceremony of the outgone ROSOWA Coordinator, Kwara State Chapter, Mrs Nimat Ologuntere and the investiture of the new Coordinator, Mrs Sokunbi.

ROSOWA President Mrs Bolanle Oyeyemi flanked by Mrs Mfon Motajo by the right and Mrs Abayomi Olukoju by the left during the unveiling of Corps MarshalHole 11 at Mambilla Barrack Golf Course Asokoro Abuja.

ROSOWA President Mrs Bolanle Oyeyemi in a group photo with ROSOWA Kwara State chapter during her visit to the State.

ROSOWA President Mrs Bolanle Oyeyemi being accompanied by Mrs Nimat Ologuntere, and a member of Immigration Officers wives Association Kwara State.

The 2021 World Day of Remembrance of Road Traffic Victims that was held from 16-21th NOVEMBER 2021 in collaboration with United Nations Decade of Action on Road Safety and Traffic Injury Prevention (UNDARSTIP) was used as an opportunity to draw attention to the epidemic of road traffic deaths and injuries.. The theme for the year 2021 was " ACT for LOW SPEEDS/ACT for LOW SPEED STREETS" with slogan;" Remember Support, Act".

ROSOWA members participated in the joint press conference, laying of wreath at radio house, hospital visitation to Garki Specialist hospital and a thanksgiving Service at Dominion international Church Durumi

The wedding ceremony of the son of the National President of the association took place on 4, December 2021 at 10 Degrees Event Centre Oregun, Lagos State. A good number of the ROSOWA members were in attendance to grace the occasion and celebrate with their President.

Representative of ROSOWA President Mrs Joy Ona during the World Day of Remembrance for RTC victims

FRSC staff led by DCM OI Ewhrudjakpor fdc, and ROSOWA President Mrs Bolanle Oyeyemi during the 2021 World Day of Remembrance for Road Traffic victims

## **Special Marshals**

#### **Special Marshals National Summit**

Corps Marshal Dr. BO Oyeyemi taking a general salute at the Special Marshals' National Summit in 2021

Special Marshals is the volunteer arm of the Federal Road Safety Corps comprising men and women of proven integrity in the society who are able to influence their immediate environment (work place/community) in favour of the course of Road Safety.

In line with the objectives of the Special Marshals and resolutions at the last virtual workshop conducted on 30th June, 2021, there was the resolve to re-engineer the activities of Special Marshals in line with the provisions of the FRSC (Establishment) Act 2007. Hence the 15th Special Marshals National Summit was held on August 15, 2021 at National Judicial Institute Centre, Jabi Abuja with the theme "Special Marshals and the Spirit of Volunteerism: Contributing to Efficient Road Safety Management in Nigeria."

The Corps Marshal, Dr. Boboye Oyeyemi, MFR, mni, NPoM welcomed guests,

Management members, staff and members of Special Marshals to the 15th Special Marshals National Summit and remarked that the summit was inspired by the need to observe periodic review of the Special Marshals' activities so as to reposition it for better performance. It was also an avenue to build Special Marshals' capacity to close identified gaps and sensitize them on general trend in Road Safety Management Practices.

The Corps' expectation from its volunteer group is to display exemplary conducts that reflect Road traffic discipline. The summit was to set the tone for the renewal of commitment, clear vision and greater achievements in the new Decade of Action for Road Safety 2021–2030.

The Corps Marshal appreciated the Special Marshals leadership for their sacrifices and selfless service to humanity and outlined the giant strides and aspirations of the Corps as follows:

- a. FRSC commitment to implementing the new Decade of Action for Road Safety 2021–2030 through NRSS II, a document of robust consultation with stakeholders.
- b. The expansion of Corps' Training Institutions comprising FRSC Command and Staff College, Ibadan; FRSC Academy Udi; Marshal Inspectorate Training School, Owa Alero and Training School, Jos.
- c. World Bank's recognition of FRSC as the model of lead agency in Africa while African Development Bank (AfDB) designated FRSC as Centre of Excellence for Road Safety in Africa.
- d. The Corps's constant engagement of new technologies in administrative and operational developments supported by credible Data Management System.
- e. Drew the attention of Special Marshals to ways of bridging knowledge gap between Regular and Special Marshals through the summit.
- f. Emphasized that it was needless for Special Marshals to compare themselves with career Officers.
- g. Clarified that activities of Special Marshals are subject to the Corps processes, under the guidance and supervision of Regular Marshals, hence the need to observe all laid down processes to eliminate conflicts and unwarranted acts of confrontation.
- h. Admonished Special Marshals to shield themselves from political and business motivation within the volunteer arm of the Corps.
- i. Appreciated the contribution of Special Marshals and pledged the Corps continuous effort in providing enabling environment for the activities of Special Marshals.

- j. Enjoined Special Marshals to maintain decorum in the process of electing new National Executive Officers.
- k. Thanked the SGF, President Court of Appeal and Administrator of National Judicial Council for their support.

The President, Court of Appeal, Hon. Justice Monica B. Dongban-Mensem represented by Hon. Amina Aliyu, former Member Federal House of Representatives,

l. Opined that he will not approve an upward review of Special Marshals' dues. Rather the Executive Committee should devise means of effective collection of the dues. Any Special Marshal who refuses to pay may be de-marshaled.

The President, Court of Appeal, Hon. Justice Monica B. Dongban-Mensem represented by Hon. Amina Aliyu, former Member Federal House of Representatives, welcomed guests and participants to the summit and remarked thus:-

a. Commended Corps Marshal and his Management team for giant strides recorded by FRSC as the lead agency in road traffic management in Nigeria.

Corps Marshal Dr. BO Oyeyemi with the new Special Marshals National Executive

- b. Admonished Regular Marshals to encourage Special Marshals' participation towards minimizing the menace of RTCs as Special Marshal is purely volunteerism.
- c. Charged Special Marshals to rise to the occasion of saving lives on Nigeria roads through their humanitarian services.
- d. Emphasized the need for collaboration with other sister agencies towards improved service delivery.
- e. Prayed for the success of the summit and wished participants journey mercies as they travel back to their destinations.

The summit availed Special Marshals the opportunity to elect new leaders as follows:

- a. Dr.John Ugbebor- National Coordinatorb. Mohammed Isah Ganu- Deputy National
- b. Mohammed Isah Ganu- Deputy National Coordinator
- c. Prince (Amb) Ade Adeniji National Secretary
- d.Olusola Olojede Assistant National Secretary
- e. Dr. Anya Udu K Financial Secretary

- f. Chief Rona Saleh Tula National Treasurer
- g. Mrs. Folake A Adebayo -National Auditor
- h. Ekhator Friday- Public Enlightenment Officer
- i. Abubakar S Adam Welfare Officer
- j. Nasiru Lawal M National Provost
- k. Dr. Sini Kwabe- Ex Officio
- 1. Tunde A Ajiboye- Ex Officio II

The participants interacted, raised and adopted various resolutions which was contained in the communique

The new National Executive members were thereafter sworn-in into their respective offices.

### **Valedictory Lectures/ Retirements**

#### **6th Valedictory Lecture Series**

Valedictory Lecture Series is novel in the annals of FRSC. The programme was instituted in 2018 to honour senior officers of the rank of Deputy Corps Marshal proceeding on retirement. The programme chronicles their achievements to allow upcoming staff learn from their experience.

The lecture series provide opportunity for DCMs to share their rich experiences with officers and the general public where they recount their stewardship during their period in service. The lecture focuses on presentation of a well-researched topic to reminiscence their days in service with a view to educating young Officers on how to

blend work stress with family life.

The 6th Valedictory Lecture Series was delivered by DCM Kenneth C Nwaegbe, mni (rtd) DCM Motor Vehicle Administration titled "FRSC in the Next Generation: Key Imperatives for Success".

The forum accorded Deputy Corps Marshals KC Nwaegbe, mni (rtd), the opportunity to deliver his Valedictory Lecture series to mark the end of his glorious career in the FRSC, having served for a period of 33 years and attained 60 years of age on the 21st April, 2021.

DCM KC Nwaegbe, mni DCM, Motor Vehicle Administration with Management team and well-wishers after the Valedictory Lecture

#### **Retirement and Pull-Out**

Retirement from active duty is a natural and inevitable end of service of every serving personnel and begins to count from the day one joins the Corps.

The dream of every staff is to disengage from the service after attainment of the mandatory retirement age of 60 years or thirty five years in service hale and hearty.

Pull-out parade (POP) in FRSC is a mandatory tradition to mark an Officer's end from active service. This is to honour Officers who attained the rank of Assistant Corps Marshal (ACM) and above on retirement.

In 2021, nine (9) senior Officers retired and were honoured. Four (4) Deputy Corps Marshals and five (5) Assistant Corps Marshals retired from the service of the FRSC and pulled out in succession.

The retired senior Officers welcomed the day with emotions, ranging from nostalgia, gratitude, joy to a sense of fulfilment. The ceremony was quite elaborate.

The details of the retired senior Officers is as presented below:

Table 103: List of DCMs/ACMs Retired in 2021

### **Assessment**

#### 2021 Performance Assessment of Departments, Corps Offices & **Commands**

Performance Management System (PMS) seeks to outline the overall vision of the organisation, the path to achieving it and articulate clearly defined and measurable indices to gauge at all times if the organization meets its vision, goals and objectives.

Following the introduction of PMS, FRSC Management at the beginning of each year's strategy session articulates the corporate Strategic Objectives which provide specific direction for the Corps' operations and activities for each year.

Consequent upon the above, the performance of Departments, Corps Offices and Special Units are appraised at the end of the year.

In year 2021, the Corps conducted performance evaluation of departments, Corps offices and field Commands' based on the established six (6) criteria and the outcome was as presented at the 2022 Strategic Session.

#### Assessment criteria are

Report Rendition
Task accomplishment and Innova-
tions
Alignment to service standards
Team Work and Collaboration
Capacity Building
Financial and Resource manage-
ment

The tables below contain the assessment outcome:

### **Awards and Laurels**

#### **Awards & Laurels**

NITDA Award to FRSC on best use of Social Media (Federal Agency: "Public Service)

There was a floodgate of Awards, Laurels and commendations for the Corps in 2021, as unprecedented feats were attained in various endeavours of road safety practices, ICT and stakeholders engagements.

These rewards were the outcome of doggedness of the FRSC in service delivery, the Corps innovation in the use of technology and mitigation of road traffic crashes. They are validation and vindication of the tireless efforts that have gone into the services rendered by the Corps and its products. These Awards are morale boosters for the staff and Corps reputation. It provides intrinsic motivation and impacts on staff job satisfaction.

During the 7th Edition of Nigeria Technology Awards (NiTA) in 2021, the Corps won two (2) Awards as listed below:

- i. Best Use of Social Medial (Federal Agency "Public Service")
- ii. Excellence in Digital Transformation (Federal Agency "Public Service").

### **Inter Agency Collaborations**

#### **Collaboration with Defence Headquarters**

The Corps Marshal, FRSC, Dr Boboye Oyeyemi presenting a plaque to the Chief of Defence Staff, General Lucky E. O Irabor during His working visit to Defence Headquarters in Abuja on 14th May, 2021.

The need to broaden and sustain stakeholders' engagements is one of the priorities of FRSC as enshrined in the 2021 Corporate Strategic Goals.

This helps the FRSC to build harmonious relationship with the Military, Para-Military, and the civil society organizations. In line with the spirit of camaraderie, the Corps Marshal paid a working visit to the newly appointed Chief of Defence Staff (CDS), General Lucky E. O Irabor at the Defence Headquarters, Abuja on 14th May, 2021.

The Corps Marshal, FRSC, Dr. Boboye Oyeyemi commended the Military leadership for their unrelenting efforts to sustain the peaceful co-existence of Nigerians. He also applauded the efforts of the Nigeria Military in tackling insurrection

and cases of banditry in the North West.

Dr. Boboye Oyeyemi presented a plaque to the Chief of Defence Staff and requested the Nigerian Military to continue to assist the Corps in manpower development in all the Military institutions.

General Lucky EO Irabor commended the leadership of the Corps and urged the Corps Marshal to sustain road traffic crashes mitigation in the country. He assured the Corps of the Nigerian Military support and collaboration at all times.

He pleaded that the Corps sustains the road traffic administration and safety management in Nigeria and in the West African sub-region.

#### Collaboration with Chief of Army Staff (COAS)

The Chief of Army Staff (COAS), Lt General Farouk Yahaya presenting a plaque to the Corps Marshal, FRSC, Dr Boboye Oyeyemi during His working visit to the Army Headquarters in Abuja on 18th November, 2021.

As part of the collaborative efforts of the Corps as enshrined in the 2021 Corporate Strategic Goals, the Corps Marshal, Dr. Boboye Oyeyemi visited the Chief of Army Staff (COAS) Lieutenant General Farouk Yahaya at the Army Headquarters, on Thursday 18 November, 2021.

The Corps Marshal lauded the Nigerian Army for their support in manpower development of the staff of the Corps in some Nigerian Army institutions. He added that the support enjoyed from the Army is unparalleled in the development of FRSC personnelled. According to him, it has also enhanced Military/FRSC cordial relationships.

He expressed appreciation to the Nigerian Army (NA) for providing adequate training platforms for Officers and men of the Corps, as the gesture has helped in repositioning the Corps for better performance.

It may be recalled that 200 newly employed FRSC drivers participated in Basic Driving Techniques Course at the Nigerian Army School of Supply and Transport, Benin, Edo State in 2021 and this gesture has assisted the Corps in imparting the right knowledge about driving into the newly recruited drivers.

The COAS reassured the Corps of its unflinching support to FRSC at anytime the assistance of the Nigerian Army is sought. The Corps Marshal presented a plaque to the COAS.

# Working Visit of the Inspector General of Police to FRSC National Headquarters

IGP Usman Alkali Baba, psc(+), NPM, fdc and the Corps Marshal Dr. Boboye Oyeyemi, MFR, mni, NPoM in a group photograph with the Nigerian Police leadership and FRSC Management

Considering the chaotic security situation in Nigeria, FRSC believes that there should be maximum cooperation among the organizations statutorily saddled with the responsibility of maintaining law and order in Nigeria. This has been a pivot that has characterized the relationship of the FRSC with other security agencies.

The Inspector General of Police Usman Alkali Baba, psc(+), NPM, fdc paid a working visit to the Corps Marshal Dr. Boboye Oyeyemi, MFR, mni, NPoM at FRSC National Headquarters, Wuse Zone 3, Abuja as part of efforts aimed at improving internal security and

maintaining a cordial working relationship with the Corps. The two leaders sought for collaboration between the Police and FRSC in areas of operational duties.

The leaders appreciated the synergy and good working relationship between the two agencies most especially in data gathering and intelligence sharing.

The IGP and the Corps Marshal agreed to work together most especially to rid the country of criminal elements who specialize in vehicle theft across the country.

#### Commandant General NSCDC's Collaboration with FRSC

The Corps Marshal, FRSC, Dr Boboye Oyeyemi and the Commandant General, Nigeria Security and Civil Defence Corps, Mr Ahmed Abubakar Audi during his working visit to RSHQ in Abuja on 16th August, 2021

In 2021, the Corps Marshal, Dr. Boboye Oyeyemi received the Commandant General, Nigerian Security and Civil Defence Corps (NSCDC) at the FRSC National Headquarters Abuja on the 16th August, 2021.

The two leaders discussed on areas of interest such as capacity building, sharing of intelligence, amongst other things.

The Corps Marshal hailed the new Commandant General for the efforts of the NSCDC in protecting and preventing vandalism of major government infrastructure, including the oil pipelines in Nigeria.

He further implored NSCDC to continue to

provide constant and effective protection of these national assets as the nation loses greatly from the activities of the vandals.

The Corps Marshal presented an FRSC plaque to the Commandant General of NSCDC during the visit after taking him and his entourage on a facility tour of FRSC National Traffic Radio, Call Centre, among others.

#### **Corps Marshal's Visit to ICAN**

Corps Marshal Dr Boboye Oyeyemi, with some of the management staff of the ICAN on the 1st June, 2021

The Corps Marshal was a guest at the Institute of Chartered Accountants of Nigeria (ICAN) Headquarters, Abuja office on the 1st of June, 2021. He was accompanied by some senior Management Staff during the working visit.

Dr. Boboye Oyeyemi was received by the Management of the Institute of Chartered Accountants of Nigeria where issues concerning the development of the two organisations were discussed.

The ICAN Registrar commended the development strides of the Corps Marshal and urged the Management to sustain the tempo. He added that the issue of road traffic crashes may not be solved totally, but the crashes can be mitigated through dogged policy to prevent avoidable road mishaps.

He added that funding of the FRSC and training of personnel should be one of the top priorities of the government and expressed the willingness of the Institute to assist the Corps in personnel manpower development in accounting profession.

The Corps Marshal in his response appreciated the leadership of the ICAN for all their collaborated efforts in ensuring that road safety personnel are trained in financial regulations. He however, sought assistance in other areas that can mitigate road traffic crashes in Nigeria.

He added that with the donation and financial support for the FRSC, the Corps would perform well. He therefore asked for partnership between the two organisations in the areas of mutual benefits to enable the Corps rid the road of avoidable crashes.

The two leaders exchanged plaques during the working visit with the aim of working together for common gains.

#### Japanese Ambassador Working Visit to FRSC HQ

The Corps Marshal, FRSC, Dr Boboye Oyeyemi and FRSC Top Management Team in a group photograph with the Japanese Ambassador to Nigeria, His Excellency Matsunaga Kazuyoshi and his entourage during his courtesy visit to RSHQ in Abuja on 2nd August, 2021.

The Japanese Ambassador to Nigeria, His Excellency Matsunaga Kazuyoshi paid a working visit to the Federal Road Safety Corps National Headquarters on 2nd August, 2021.

The Ambassador was accompanied by other members of the embassy during the visit. He was received by the Corps Marshal, Dr. Boboye Oyeyemi, MFR,mni, NPoM and the FRSC Management team.

The two leaders' discussion hinged on synergy between the FRSC and the Japanese government and areas of mutual benefits. His Excellency, Matsunaga

Kazuyoshi was taken on facility tour of the FRSC infrastructure.

The Corps Marshal commended the interest of the Japanese government in road traffic management and safety administration in Nigeria.

He added that the Corps is looking forward to foreign partnership in the areas of road traffic safety development in the Country.

#### **Working visit to Rwandan Ambassador**

Rwandan High Commissioner Stanislas Kamanzi receiving the Corps Marshal Boboye Oyeyemi in his office

The Federal Road Safety Corps was considering a partnership with the Rwandan Government to further entrench safer road use within the region. The move was in line with an ongoing drive by the FRSC to produce technical assistance to establish sustainable road safety management in Africa.

The Corps Marshal disclosed this during the working visit to the Embassy of the Rwanda High Commission in 1, Justice Mohammed Bello Street, Off Jose Marti Crescent, Asokoro, Abuja on 2nd February, 2021 to broaden and sustain the relationship with the Rwanda Government and the FRSC.

The Corps Marshal and his Management team was received by the High Commissioner Stanislas Kamanzi who saw the collaborative efforts of the Corps as a welcome idea.

Mr. Kamanzi commended the development strides of the Corps in Africa and added that the Rwandan government will collaborate with the FRSC in the area of road safety management.

He added that Rwanda is a developing country that has a lot of potentials in road safety. He solicited for working relationship between FRSC and Rwanda Road Safety Authority to further boost road safety consciousness in the country.

The Corps Marshal informed the High Commissioner that the essence of the vist was to collaborate with the Rwandan Government in Area of manpower development as the FRSC Academy is capable of training Rwandan Traffic Officers on the best practices in road safety management.

### **National Emergency Medical Treatment Committee Visit**

Chairman, National Emergency Treatment Committee (NEMTC)/NEMSAS, Dr. Felix Ogedengbe with Corps Marshal Dr. BO Oyeyemi and some Management Staff during the visit of the Committee on 2nd June, 2021

The Chairman, National Emergency Treatment Committee (NEMTC)/ NEMSAS, Dr. Felix Ogedengbe visited the FRSC National Headquarters on 2nd June, 2021 . He was accompanied by the new executive of the National Emergency Treatment Committee.

The Committee was welcomed by the Corps Marshal, Dr Boboye Oyeyemi and some Management Staff. Issues of mutual interest especially on Road Traffic Safety Management was discussed.

The Corps Marshal conveyed the Corps' readiness to partner with NEMTC/ NEMSAS on road traffic crash mitigation in order to serve the general public better.

He reiterated the Corps' collaborative engagement with the hospitals across the country in the treatment of road traffic victims and assured that the Corps will do all its best to ensure that more lives are saved on the road.

### Corps Marshal's Working Visit to Nigeria Television Authority (NTA)

Director General of the Nigerian Television Authorty (NTA), Mr Yakubu Ibn Mohammed, receiving the Corps Marshal, Dr Boboye Oyeyemi during his working visit to NTA.

Corps Marshal Dr. Boboye Oyeyemi exchanging pleasantries with the anchors of an NTA programme, The Platform

The Corps Marshal Dr. Boboye Oyeyemi was a guest at the Nigerian Television Authority (NTA) in November, 2021. He was received by the Director General of NTA Mr. Yakubu Ibn Mohammed during his working visit.

During the visit, the Corps Marshal was featured on a live programme tagged "The Platform". He expressed appreciation to the Management of NTA for granting him audience to reach the public.

He seized the opportunity to reach out to the members of the public on the activities of the Corps, revealing that the year 2021 operation Zero strategy was to ensure that every motorist celebrated the yuletide without crash. He implored road users to

always observe speed limit and advised on the dangers inherent in speeding.

The Director General of the NTA, Yakubu Ibn Mohammed reiterated the commitment of the NTA in working together with the Federal Road Safety Corps. He stated that the relationship of the two agencies has spanned over three decades.

He commended the present leadership of the FRSC for its relentless efforts in curbing the incessant road traffic crashes. He added that more still needs to be done in driver education on speed induced road traffic crashes.

He solicited proper funding for the Corps to meet with global demands.

### Imo Deputy Governor's Visit to FRSC HQ, Abuja

The Corps Marshal, FRSC, Dr Boboye Oyeyemi presenting a plaque to the Deputy Governor, Imo State, His Excellency Professor Placid Njoku during his visit to RSHQ on 21st April, 2021.

The Corps Marshal received his Excellency, Professor Placid Njoku, the Imo State Deputy Governor in his office, at FRSC National Headquarters, Abuja on the 21st April, 2021. The Corps Marshal expressed appreciation to the Government and people of Imo State for their sustained support for road safety activities in the State.

He appreciated the Government for improvement in road infrastructure and assured that FRSC is committed to mitigation of avoidable crashes in the State. He added that the vision of the Corps is to make Nigeria a crash free nation and among the first twenty nations without deaths on the road.

He implored His Excellency to always ensure that the State patronizes the FRSC signage where road signs of world class standards are produced.

The Deputy Governor conveyed the Governor's appreciation to the Corps Marshal on the milestone that the FRSC has attained and assured the Management of the patronage of the Signage plant by the State government.

# **Other Events**

#### **SERVICOM Activities in 2021**

A Gift from the Corps Marshal to the National Coordinator SERVICOM for her immense contributions to the Corps

Customer Service Celebration is an international celebration that calls attention to the importance of customers service and people who serve and support them on a daily basis.

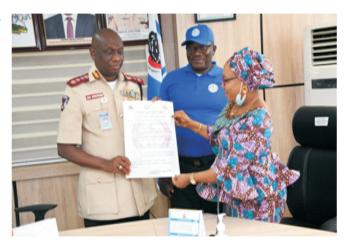

The FRSC joined the other service providers across the globe with series of service oriented activities to celebrate the 2021 Customer service week with the theme "The Power of Service".

This was aimed at raising public awareness on the importance of FRSC customer service. This was also to boost the morale of staff Corps-wide, celebrate team work, appreciate the service takers and the stakeholders, and to pledge commitment to service improvement.

### **Signing Of The FRSC Service Improvement Pledge Card:**

The FRSC Service Improvement Pledge Card is a document that affirms the assurance of the Corps' continual readiness to provide efficient service delivery to both its internal and external customers.

The pledge card as endorsed by the Corps Marshal is an instrument to drive effective service improvement.

# Awards to the Best Departments/Corps Offices:

The best three performing Departments and Corps Offices were rewarded for service excellence to the customers. The National Coordinator presented plaques to them on behalf of the Corps Marshal.

The National Coordinator SERVICOM Presenting Awards To Some Deserving Departments and Corps Offices

The National Coordinator SERVICOM Presenting Awards To Some Deserving Departments and Corps Office

#### Road Show And Rally: SERVICOM

In collaboration with relevant offices, SERVICOM Unit conducted a road show/rally within Abuja Metropolis and Motor parks to ascertain customers' perception towards the Corps' services. Awareness on how to access FRSC customer service was equally created through sharing of flyers and complaint stickers to the public. The rally was done in collaboration with the FCT Sector Command Ember Month Flag off.

The Corps equally collaborated with some Nollywood celebrities, Special Marshals and National Youth Service Corps members to add colour to the event and further show appreciation to stakeholders and the motoring public.

FRSC personnel with some Nollywood Celebrities, Special Marshals and Youth Corps Members Before the Road Show

# **International Engagements**

### 76th Session of the United Nations General Assembly (UNGA)

The Corps Marshal, FRSC, Dr Boboye Oyeyemi with Nigeria's Permanent Representative to the United Nations, Prof Tijani Bande in New York during the United Nations General Assembly (UNGA) session held on 11th November, 2021.

The United Nations General Assembly (UNGA) is the main policy-making organ of the UN comprising all Member States. UNGA provides a unique forum for multilateral discussion of the full spectrum of international issues covered by the Charter of the United Nations. The 193 Member States of the United Nations have an equal vote in the organ. UNGA makes key decisions for the UN, including:

- Appointing the Secretary-General on the recommendation of the Security Council.
- ☐ Electing non-permanent members of the Security Council and
- $\Box$  Approving the UN budget.

The Corps Marshal Dr. Boboye Oyeyemi and ACM AA Olukoju PSO-CM attended the programme which was held from September-December, 2021 with the following agenda:

- $\square$  A/76/252 Allocation of agenda items for the 76th session of the General Assembly (17 September 2021)
- $\square$  A/76/251 Agenda of the 76th session of the General Assembly (17 September 2021)

A/BUR/76/1 - Organization of the 76th regular session of the General Assembly, adoption of the agenda and allocation of items, Memorandum by the Secretary-General (14 September 2021)

 $\Box$  A/76/150 - Provisional agenda of the 76th session (16 July 2021) etc.

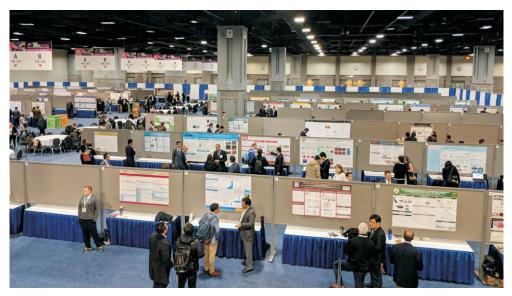

The UNGA meets in regular sessions from September to December each year, and thereafter as required. It discusses specific issues through dedicated agenda items or sub-items, which lead to the adoption of resolutions.

However, in the wake of the COVID-19 pandemic, the UN General Assembly has been carrying out its assignments via a novel means to guarantee business continuity and mitigate the spread of the disease.

Specific examples include the use of virtual platforms to conduct meetings and the adoption of e-voting through procedure for decision-making when an in-person meeting is impossible.

### **Transport Research Board (TRB)**

9th - 13th January 2021, Virtual meeting

http://www.trb.org/AnnualMeeting/AnnualMeeting.aspx

FRSC has not underplayed the collaborations with patners both at the local and international platforms. Such participation includes the Transport Research Board Annual (TRB) Meeting, where policy issues and well informed strategies on road traffic and safety management issues are discussed globally.

The global discourse enables participants to learn new things and be on the same page with international partners through robust interactions which attract technical benefits. The forum opens the FRSC participants to discuss issues of technical assistance with partners such as the World Bank, Global Alliance for Road Safety and IRF amongst others.

The Transportation Research Board (TRB) 102nd edition held from January 9-13, 2021, in Washington, DC, and more than 13,000 transportation professionals from around the world participated via virtual attendance in the programme that covered

all transportation modes, with nearly 800 sessions and workshops, addressing topics of interest to policy makers, administrators, practitioners, researchers, and representatives from government, industry, and academic institutions.

In 2021, COVID-19 caused TRB to hold a virtual conference format because meetings of this size were prohibited in Washington D.C. at the time.

The FRSC participated in the programme on-line with sourcing research material and other policy discourse to improve its interpersonal relationships and collaborative efforts amongst sister agencies.

However, TRB promised all participants that the 2022 edition would be elaborate and accommodate in-person attendance.

### 10th General Assembly of WARSO

Group Picture of participants at the 10th WARSO General Assembly in 2021

The West African Road Safety Organisation (WARSO) held its Regional Road Safety Conference and 10th Annual General Assembly in Freetown Sierra Leone from 4th-8th October, 2021 with the theme "Mainstreaming Road Safety in West Africa through Regional integration".

The conference was hosted by the Sierra Leone Roa Safety Authority (SLRSA) at the Freetown International Conference Centre with the following member countries in attendance: Nigeria, Mali, Ghana, Benin, Burkina Faso, Gambia, Senegal and Sierra Leone (the host). Nigeria was represented by the FRSC ACM Kingsley N Agomoh, mni at the Regional Road Safety Conference and 10th Annual General Assembly. He paid a visit to the Nigerian High Commission, the Inspector General of Sierra Leone Police Office and the DVC, University of Sierra Leone on behalf of the Corps Marshal. The Regional Road Safety Conference was declared open by the Vice

President of the Republic of Sierra Leone who was represented by Mr Mohammed Rado Shlavay.

The Country's Hon. Minister of Information and Communication delivered the keynote address while the Executive Director of the Sierra Leone Road Safety Authority (SLRSA) officially welcomed the delegates to the conference. Other top government officials at the event were: Chairman of Parliamentary committee on Transport, Minister of Internal Affairs, Deputy Minister of Transport and Aviation, Inspector General of Police and Chairman of the board of Directors of the Sierra Leone Road Safety Authority.

Arising from the exhaustive discussions and deliberations at the conference, WARSO member delegates unanimously agreed on the following:-

- WARSO member states that were a. yet to have a lead agency were encouraged to ensure the establishment of a lead agency in their countries as soon as possible.
- b. The new WARSO Executives were mandated to assist and persuade member countries yet to set up a road safety lead agency to establish one.
- The conference also encouraged countries to have focal persons in their respective countries to ensure proper documentation of WARSO correspondences and activities.
- d. Member countries were mandated to ensure that their respective governments sign the African Road Safety Charter and accent to the UN Conventions.
- Member countries were advised to e. ensure that the UN convention on movement of vehicles across member countries is not breached by addressing differences in traffic laws and regulations within the sub-region.

- f. WARSO should take pragmatic steps in addressing the issue of poor funding militating against the development of Road Safety facilities within the sub-region.
- WARSO member countries should g. promote "love30kph" maximum speed limits in pedestrianized areas to minimize speed related crashes and casualties.

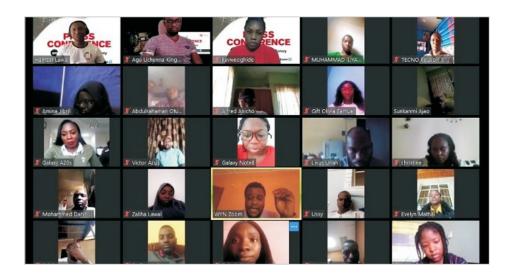

ACM KN Agomoh, mni with the Sierra Leone Inspector General of Police during the WARSO General Assembly in 2021

### 2021 Annual World Bank Briefing

The FRSC participated in the 2021 Annual World Bank briefing of the World Bank with the theme "Impact of the World Bank on Road Safety Management: The Nigeria Safe Corridor Experience":

The briefing is a routine annual exercise which provides a platform for highlighting achievements in Road Safety as well as stressing some of the peculiar constraints and challenges encountered. The 2021 briefing had to be conducted via virtual platform in view of the prevailing COVID-19 pandemic.

The Corps highlighted its achievements, challenges and projections in areas of support from developing partners and international donors. At the end of the interactive session, participants acknowledged the resilience of the Corps in implementing result-oriented strategies and expressed delight in the organisation's achievements. They however observed that a lot still needs to be done in the areas of engineering, vehicle inspection and assessment, as well as data management,

while promising to mobilize other development partners and donors to support the FRSC.

The virtual attendance attracted the following personalities:

- a. Dr. Soames Job- World Bank Transport Lead
- b. AK Farhad- World Bank Road Safety Specialist
- c. Engr. Chukwudili Ikejiani World Bank Nigeria- Consultant
- d. Stephen Ibijiola Rural Access Mobility Programme
- e. Radoslaw Czapski World Bank, USA
- f. Martin Small World Bank Road Safety Consultant
- g. Dr. Boboye Oyeyemi- Corps Marshal- Federal Road Safety Corps, Nigeria.
